ZT15	50r. rose (Die I)	40·00

The prices quoted above are for used upper halves with clearly identifiable cancels of offices in Ceylon. The large block letters used in these straight-line cancels are such that only three or four letters usually appear on a single stamp, and multiples or examples on piece may be needed to confirm identification. Usage is recorded at the following offices, with Colombo being the most frequently seen : ANURADHAPURA, BADULLA, BATTICALOA, COLOMBO, GALLE, GAMPOLA, JAFFNA (or JAFFRA, in error), KALATURA, KANDY, MANAAR, MATALLE, NAWALAPITYA, NEWARAELIYA or NEWARAELLYA, PANADURE and TRINCOMALEE.

The use of Indian telegraph stamps in Ceylon ceased with the release of the following optd issue (Nos. T1/9).

PRICES. For Nos. T1/164 prices are quoted for unused whole stamps and used upper halves. Used lower halves (often with punched holes) are worth from ×2. Used whole stamps are rare and for many issues unknown.

(T **1**)

1880 (1 July). Telegraph stamps of India (1869–78 issue) optd with Type T **1** twice (on upper and lower halves).

The "WALTER" spelling error occurred on all stamps in one of the four post office sheets which went to make up the printing sheet and this was corrected in later supplies.

FLUORESCENT PAPER. This is on paper treated with fluorescent security markings, in the form of faint multiple coats of arms. Stamps exist with these markings inverted. In addition an invisible synthetic gum has been used which prevents curling and is suitable for use in the tropics without interleaving the sheets.

Some of the above are known with these markings omitted and can be distinguished when in unused condition from the original printings without markings by their synthetic invisible gum.

Cyprus

Cyprus was part of the Turkish Ottoman Empire from 1571.

The first records of an organised postal service date from 1871 when a post office was opened at Nicosia (Lefkosa) under the jurisdiction of the Damascus Head Post Office. Various stamps of Turkey from the 1868 issue onwards are known used from this office, cancelled "KIBRIS", in Arabic, within a double-lined oblong. Manuscript cancellations have also been reported. The records report the opening of a further office at Larnaca (Tuzla) in 1873, but no cancellation for this office has been identified.

To provide an overseas postal service the Austrian Empire opened a post office in Larnaca during 1845. Stamps of the Austrian Post Offices in the Turkish Empire were placed on sale there from 1 June 1864 and were cancelled with an unframed straight-line mark or circular date stamp. This Austrian post office closed on 6 August 1878.

BRITISH ADMINISTRATION

Following the convention with Turkey, Great Britain assumed the administration of Cyprus on 11 July 1878 and the first post office, as part of the British G.P.O. system, was opened at Larnaca on 27 July 1878. Further offices at Famagusta, Kyrenia, Limassol, Nicosia and Paphos followed in September 1878.

The stamps of Great Britain were supplied to the various offices as they opened and continued to be used until the Cyprus Administration assumed responsibility for the postal service on 1 April 1880. With the exception of "969" (Nicosia) similar numeral cancellations had previously been used at offices in Great Britain.

Numeral postmarks for Headquarters Camp, Nicosia ("D48") and Polymedia (Polemidhia) Camp, Limassol ("D47") were supplied by the G.P.O. in London during January 1881. These cancellations had three bars above and three bars below the numeral. Similar marks, but with four bars above and below, had previously been used in London on newspapers and bulk mail.

Although both three bar cancellations subsequently occur on Cyprus issues only, isolated examples have been found on loose Great Britain stamps and there are no known covers or pieces which confirm such usage in Cyprus.

For illustrations of the postmark types see BRITISH POST OFFICES ABROAD notes, following GREAT BRITAIN.

40s/9s Optd "SPECIMEN" *Set of* 10 ..... £350

The large "S" in "PIASTRE" was a retouch to correct a damaged letter (R. 1/4, both panes). It was corrected when a new duty plate (120-set) was introduced in 1905.

LIMASSOL FLOOD HANDSTAMP. Following a flood on 14 November 1894, which destroyed the local stamp stocks, the postmaster of Limassol produced a temporary handstamp showing "½C.P." which was applied to local letters with the usual c.d.s.

STAMP BOOKLETS

Booklet vending machines, originally fitted to provide stamps to the value of 50m., were introduced by the Cyprus Post Office in 1962.

The stamps contained in these booklets were a haphazard selection of low values to the required amount, attached by their sheet margins to the cardboard covers. From 1968 these covers carried commercial advertising and details of postage rates.

Dominica

CROWN COLONY

A British packet agency was operating on Dominica from about 1778, the date of the earliest known use of a postal marking. This was replaced by a branch office of the British G.P.O. which opened at Roseau on 8 May 1858. The stamps of Great Britain were used from that date until 1 May 1860, after which the colonial authorities assumed responsibility for the postal service. Until the introduction of Nos. 1/3 in 1874 No. CC1 and later handstamps were utilised.

For illustrations of handstamp and postmark types see BRITISH POST OFFICES ABROAD notes, following GREAT BRITAIN.

Egypt

TURKISH SUZERAINTY

In 1517 Sultan Selim I added Egypt to the Ottoman Empire, and it stayed more or less under Turkish rule until 1805, when Mohammed Ali became governor. He established a dynasty of governors owing nominal allegiance to the Sultan of Turkey until 1914.

Khedive Ismail

18 January 1863–26 June 1879

He obtained the honorific title of Khedive (viceroy) from the Sultan in 1867.

The operations of British Consular Post Offices in Egypt date from August 1839 when the first packet agency, at Alexandria, was opened. Further agencies at Suez (1 January 1847) and Cairo (1856) followed. Alexandria became a post office on 17 March 1858 with Cairo following on 23 February 1859 and Suez on 1 January 1861.

Great Britain stamps were issued to Alexandria in March 1858 and to the other two offices in August/September 1859. "B 01" cancellations as Type **2** were issued to both Alexandria and Cairo. Cancellations with this number as Types **8**, **12** and **15** were only used at Alexandria.

Before 1 July 1873 combination covers showing Great Britain stamps and the first issue of Egypt exist with the latter paying the internal postage to the British Post Office at Alexandria.

The Cairo office closed on 30 June 1873 and the other two on 30 March 1878. Suez continued to function as a transit office for a number of years.

Stamps issued after 1877 can be found with the Egyptian cancellation "Port Said", but these are on letters posted from British ships.

For cancellations used during the 1882 and 1885 campaigns, see BRITISH FORCES IN EGYPT at the end of the listing.

For illustrations of the handstamp and postmark types see BRITISH POST OFFICES ABROAD notes following GREAT BRITAIN.

The 2pi. bisected was authorised for use between 16 and 31 July 1867 at Alexandria or Cairo.

Stamps perforated 12½, 12½×13 and compound, and 13 occur in the same sheets with the 13 gauge usually used on the top, left-hand, right-hand or bottom rows. Each sheet of 200 contained one stamp perforated 13 all round, two 13 on three sides, one 13 on two adjacent sides, eighteen 13×12½, eight 12½×13, eight 13 on one side and eighteen 13 at top or bottom. So many sheets were received imperforate or part-perforated that some stock was passed to V. Penasson of Alexandria who applied the 12½×15 gauge.

The two halves of each background differ in minor details of the ornamentation. All values can be found with either half at the top.

Proofs of all values exist on smooth paper, without watermark. Beware of forgeries.

All values also exist with the watermark reversed (*same price as upright*) or inverted and reversed (*same price as inverted*).

Each value was engraved four times, the resulting blocks being used to form sheets of 200. There are therefore four types showing minor variations for each value.

No. 12ba was used on newspapers from Alexandria between 17 November 1871 and 20 January 1872.

Stamps printed both sides, both imperf and perf, come from printer's waste. The 1pi. rose without watermark is a proof.

8*a* (II)

WATERMARK 8*a*. There are two types of this watermark which, as they are not always easy to distinguish, we do not list separately. Type II is slightly wider and less deep and the crescent is flatter than in Type I. The width measurement for Type I is generally about 14 mm and for Type II about 15 mm, but there is some variation within the sheets for both types.

Nos. 26/43, 45/7*a*, 49/*a*, 50/1 and 57 come with Type I only. Nos. 44*a*, 48/*a*, 52, 54*b*, 73/7 and 78 exist with both types of watermark (but No. 83 and official overprints on these stamps still require research); our prices are generally for Type II. Other watermarked issues between 1888 and 1907 have Type II watermarks only.

*It is now accepted that stamps in both processes were printed by the Government Printing Works at Būlāq, Cairo, although Penasson may have been involved in the production of the dies.

The lithographed and typographed stamps each show the characteristic differences between these two processes:—

The typographed stamps show the coloured lines of the design impressed into the paper and an accumulation of ink along the margins of the lines.

The lithographed stamps are essentially flat in appearance, without the heaping of the ink. Many of the 20pa. show evidence of retouching, particularly of the outer frame lines.

The 1p. bisected was used at Gedda, on 5 July 1875, or Scio, and the 2pi. vertically bisected at Gallipoli or Scio. The price quoted for No. 31a is for usage at Scio, with usage at Gedda worth double.

The 2pi. bisected was used at Gedda and are all postmarked 13 April.

The 1872 printings have a thick line of colour in the top margin of the sheet and the other margins are all plain, an exception being the 5pa., which on the majority of the sheets has the line at the right-hand side of the sheet. The 1874–75 printings have a wide fancy border all round every sheet.

The 1872 printings are on thick opaque paper, with the impressions sharp and clear. The 1874–75 printings are on thinner paper, often semi-transparent and oily in appearance, and having the impressions very blurred and badly printed. These are only general distinctions and there are a number of exceptions.

The majority of the 1874–75 stamps have blind or defective perforations, while the 1872 stamps have clean-cut perfs.

The two printings of the 5pa. to 1pi. values can be identified by their perforation gauges, which are always different; the 5pa. also differs in the side panels (Types **7** and **8**). Only the perf 12½×13½ varieties of the three higher values may need to be distinguished. As well as the general points noted above the following features are also helpful:

2pi. In the 1872 issue the left-hand Arabic character in the top inscription is one complete shape, resembling an inverted "V" with a horizontal line on top. In the 1874 issue the character has three separate components, a line with two dots below.

2½pi. There is a distinct thinning of the frame line in the top right-hand corner of the 1872 issue. This sometimes takes the form of a short white line within the frame.

5pi. In the 1872 issue the top frame line is split for its entire length; in the 1874 issue the line is solid for all or most of its length. The 1872 printing always has a white dot above the "P" of "PIASTRE"; this dot appears on only a few positions of the 1874 printing.

There seem to be many different compositions of the sheets containing the *tête-bêche* varieties, settings being known with 1, 3, 9 and 10 inverted stamps in various sheets. Sheets of the 5pa. are known with 9 of the 20 horizontal rows inverted, giving vertical *tête-bêche* pairs; four stamps were inverted within their row giving four horizontal *tête-bêche* pairs.

Examples of some values exist without watermark due to the paper being misplaced on the press.

Khedive Tewfik

26 June 1879–7 January 1892

British troops were landed in Egypt in 1882 to secure the Suez Canal against a nationalist movement led by Arabi Pasha. Arabi was defeated at Tel-el-Kebir and British troops remained in Egypt until 1954. A British resident and consul-general advised the Khedive. Holders of this post were Sir Evelyn Baring (Lord Cromer), 1883–1907; Sir Eldon Gorst, 1907–11; and Lord Kitchener, 1911–14.

EGYPTIAN POST OFFICES ABROAD

From 1865 Egypt operated various post offices in foreign countries. No special stamps were issued for these offices and use in them of unoverprinted Egyptian stamps can only be identified by the cancellation. Stamps with such cancellations are worth more than the used prices quoted in the Egypt listings.

Such offices operated in the following countries. An * indicates that details will be found under that heading elsewhere in the catalogue.

Selling Your Stamps?

Summary Tip #20:
5 Different Ways to Sell your Stamps: Dealer 'runners'/ Private Treaty

by Andrew McGavin

Dear Colleague,

In Part 2 of 'Selling Your Stamps' (page 42) we discussed the advantages of direct sale to dealers and how with careful handling and awareness of the 'strength of your collection' it is often possible to obtain more for your collection selling directly to dealers than by selling through auction.

In Part 4 of 'Selling your Stamps' we'll discuss the potential advantages and disadvantages of selling through auction on your own account .... but in this article we'll deal with two lesser known but nevertheless important aspects of selling your stamps .... the first being Dealers 'runners'.

Before you even start to try selling your stamps; preparation is all. Make some research:

1. Draw up a list of whom you consider as a possible target to sell / handle your collection. ..... then consider –
2. Why have I chosen those dealers/ organisations ?

Here's something to think about ... for the best part of 20 years I watched the same advertisements extolling the merits of selling to this or that particular dealer ... but try as I might – I never once saw an advertisement by those companies to sell stamps. This was in 'pre-internet' days ... nowadays people trade on the internet with all manner of weird and unusual trading names, sometimes to disguise who they actually are – but in those days traditional selling 'avenues' were shops, stamp fairs, auctions, approvals, and retail/mail-order lists ....

... so why was it impossible to find out how those dealers actually conducted their business? The answer was simple – they sold to other dealers – they rarely if ever sold to collectors – they were Dealers 'runners'. Now for you to part with your beloved collection to the first dealer that you contact does not necessarily mean that you have made a mistake ... but, if that dealer writes you out a cheque ... and almost before the ink has even dried on it – (probably before you have presented the cheque at your bank) ... he or she is at the nearest big dealer 50 miles away being paid a profit upon the price you sold your collection for – this is NOT in your best interest.

...but try as I might – I never once saw an advertisement by those companies to sell stamps.

So what should you be looking for? You should be looking for an organisation / dealer that you can see and understand how they conduct their business. Dealers that sell to other dealers are unlikely to be paying the best price.

Private Treaty: What is it?

The idea of Private Treaty is that collectors 'place' their collection with a dealer or auction that charges a small commission to sell their collection outright. Sometimes it is claimed that the Buyer will pay the commission so that the collector pays no charges whatsoever. Historically 'Private Treaty' has acquired notoriety as an excuse for the company handling the transaction to 'buy-in' the collection for themselves. Maybe collectors and dealers should forget the concept of private treaty in favour of an open approach whereby the dealer/auction explains that they are purchasing on their own account ... or will charge a small percentage for handling/ passing the collector/collection to a more appropriate buyer. In Part 4 of 'Selling your Stamps?' we'll discuss consigning your stamps for sale by auction.

Happy collecting from us all,

PS. If you find this 'tip' interesting please forward it to a philatelic friend.

BRITISH FORCES IN EGYPT

Following the rise of a nationalist movement led by Arabi Pasha, and serious disturbances in Alexandria, British troops landed at Ismalia in August 1882 and defeated the nationalists at Tel-el-Kebir on 13 September. A British Army Post Office detachment landed at Alexandria on 21 August and provided a postal service for the troops, using Great Britain stamps, from various locations until it was withdrawn on 7 October.

During the Gordon Relief Expedition of 1884–85 a postal detachment was sent to Suakin on the Red Sea. This operated between 25 March and 30 May 1885 using Great Britain stamps.

From 1 November 1932 to 29 February 1936 members of the British Forces in Egypt and their families were allowed to send letters to the British Isles at reduced rates. Special seals, which were on sale in booklets at N.A.A.F.I. Institutes and Canteens, were used instead of Egyptian stamps. These seals were stuck on the back of the envelopes, letters bearing the seals being franked on the front with a hand-stamp inscribed "EGYPT POSTAGE PREPAID" in a double circle surmounted by a crown.

MILITARY TELEGRAPH STAMPS

Military Telegraph stamps were provided for the pre-payment of non-official messages sent by the army telegraph system. They were used by army personnel for private communications, newspaper reporters and the local population (when the army was in control of the telegraph system).

The 'unadopted die' stamps, (T T **1/3** of Bechuanaland inscribed "MILITARY TELEGRAPHS") were supplied for use in Bechuanaland, Egypt and Sudan.

Operations in Egypt commenced in 1884 and on 1 May 1885 the telegraph system in upper Egypt was transferred to military control.

SUEZ CANAL COMPANY

PRICES FOR STAMPS ON COVER
Nos. 1/4 *from* × 25

100 Centimes = 1 Franc

On 30 November 1855 a concession to construct the Suez Canal was granted to Ferdinand de Lesseps and the Compagnie Universelle du Canal Maritime de Suez was formed. Work began in April 1859 and the canal was opened on 17 November 1869. In November 1875 the Khedive sold his shares in the company to the British Government, which then became the largest shareholder.

The company transported mail free of charge between Port Said and Suez from 1859 to 1867, when it was decided that payment should be made for the service and postage stamps were introduced in July 1868. Letters for destinations beyond Port Said or Suez required additional franking with Egyptian or French stamps.

The imposition of charges for the service was not welcomed by the public and in August the Egyptian Government agreed to take it over.

4		40c. pink	£130	£1200

Shades of all values exist.

Stamps can be found showing parts of the papermaker's watermark "LA+-F" (La Croix Frères).

These stamps were withdrawn from sale on 16 August 1868 and demonetised on 31 August.

Many forgeries exist, unused and cancelled. The vast majority of these forgeries show vertical lines, instead of cross-hatching, between "POSTES" and the central oval. It is believed that other forgeries, which do show cross-hatching, originate from the plate of the 40c. value which is missing from the company's archives. These are, however, on thin, brittle paper with smooth shiny gum.

No. 2a shows portions of the papermaker's watermark—"R. TURNER, CHAFFORD MILLS"—in ornate double-lined capitals.

NOTES. The dates shown for Nos. 5/12 and 15/38 are those on which the printer delivered the various printings to the Crown Agents. Several months could elapse before the stamps went on sale in the Colony, depending on the availability of shipping.

The plates used for these stamps did not fit the paper so that the watermark appears in all sorts of positions on the stamp. Well centred examples are scarce. Examples can also be found showing parts of the marginal watermarks, either "CROWN AGENTS" horizontally in letters 12 mm high or "CROWN AGENTS FOR THE COLONIES" vertically in 7 mm letters. Both are in double-lined capitals.

1891 PROVISIONALS. In 1891 the postage to the United Kingdom and Colonies was reduced from 4d. to 2½d. per half ounce. As no ½d. or 2½d. stamps were available the bisection of the 1d. was authorised from 1 January 1891. This authorisation was withdrawn on 11 January 1892, although bisects were accepted for postage until July of that year. The ½d. and 2½d. stamps were placed on sale from 10 September 1891.

Cork Cancel used in 1891

The Type **4** surcharge was not used regularly; unsurcharged bisects being employed far more frequently. Genuine bisects should be cancelled with the cork cancel illustrated above. The use of any other postmark, including a different cork cancel or an "F.I." obliterator, requires date evidence linked to known mail ship sailings to prove authenticity.

After 10 September 1891 the post office supplied "posthumous" examples of the surcharged bisects to collectors. These were without postal validity and differ from Type **4** by showing a large full stop, long fraction bar or curly tail to "2" (*Prices from £50 each, unused or used*). Some of the posthumous surcharges were applied to No. 18 which was not used for the original bisects. Examples are also known showing the surcharge double, inverted or sideways.

The ½d. and 2½d. were first placed on sale in the Falkland Islands on 10 September 1891. Such stamps came from the August 1891 printing. The stock of the May printings sent to the Falkland Islands was lost at sea.

The 2½d. ultramarine printing can sometimes be found in a violet shade, but the reason for this is unknown.

The exact measurement of the comb perforation used for Type **9** is 13.7×13.9. The line perforation, used for the 1914, 1916 and 1918 printings and for all the high values in Type **10**, measured 14.1×14.1.

It was previously believed that all examples of the 1d. in vermilion with the line perforation were overprinted to form No. 71, but it has now been established that some unoverprinted sheets of No. 61b were used during 1919.

Many of the sheets showed stamps from the left-hand side in a lighter shade than those from the right. It is believed that this was due to the weight of the impression. Such differences are particularly noticeable on the 2½d. 1916 and 1918 printings where the lighter shades, approaching milky blue in appearance, are scarce.

All 1919 printings show weak impressions of the background either side of the head caused by the poor paper quality.

Examples of all values are known with forged postmarks, including one of Falkland Islands dated "5 SP 19" and another of South Shetlands dated "20 MR 27".

*Earliest known postal use. Cancellations dated 8 October were applied much later.

There were five printings of the "WAR STAMP" overprint, but all, except that in May 1920, used the same setting. Composition of the five printings was as follows:

October 1918. Nos. 70, 71 and 72.
January 1919. Nos. 70, 71 and 72.
April 1919. Nos. 70*b*, 71*b*/*c* and 72*a*.
October 1919. Nos. 70*b*, 71*c* and 72*a*.
May 1920. Nos. 70*c*, 71*d* and 72*b*.

It is believed that the entire stock of No. 70*a* was sold to stamp dealers. Only a handful of used examples are known which may have subsequently been returned to the colony for cancellation.

No. 71ca exists in a block of 12 (6×2) from the bottom of a sheet on which the first stamp in the bottom row shows a single overprint, but the remainder have overprint double.

Examples of Nos. 70/2 are known with a forged Falkland Islands postmark dated "5 SP 19".

B. Line perf 13.9, 14.2 or compound (small holes)— 1931 printing of 4d. and 1936 printings of ½d., 1d., 6d. and 1s. On some sheets of the former the last vertical row of perforations shows larger holes.

C. Line perf 13.7 (large holes) — 1937 printing of 4d.

Examples of most values are known with forged postmarks, including one of Port Stanley dated "14 JY 31" and another of South Georgia dated "AU 30 31".

Waterlow

De La Rue

Waterlow printings were from frame plate 1 for all values except the 1d., 2½d., and 5s., where frame plate 2 was used. De La Rue used both frame plates for the ½d., 1d. and 6d. but only frame plate 2 for the 2d. and 2s. De La Rue printings can generally be distinguished by the finer lines of shading on the Queen's face (appearing as a white face), neck and shoulder and also the very faint cross-hatching left of the face. Typically the black vignette is also less intense on the De La Rue printings. The 6d. De La Rue shade varies little from the original, but for other values the shades are distinctive. The majority of the De La Rue 6d. stamps are from frame plate 1, plate 2 being rare. Perforation patterns and margin widths can also aid specialists in determining printers and printings.

For the ½d. watermark sideways see No. 227. An irreparable plate crack developed under R. 12/2 of the original vignette plate, so a new plate 2 had to be used for the final part of the 1968 printing.

B. SOUTH GEORGIA

The stamps of Falkland Islands were used at the Grytviken whaling station on South Georgia from 3 December 1909.

Mr. J. Innes Wilson, the Stipendary Magistrate whose duties included those of postmaster, was issued with a stock of stamps, values ½d. to 5s., together with an example of the current "FALKLAND ISLANDS" circular datestamp. This was used to cancel the stamps, but, as it gave no indication that mail had originated at South Georgia, a straight-line handstamp inscribed "SOUTH GEORGIA", or subsequently "South Georgia", was also supplied. It was intended that this should be struck directly on to each letter or card below the stamp, but it can sometimes be found struck across the stamp instead.

The use of the "South Georgia" handstamp continued after the introduction of the "SOUTH GEORGIA" circular datestamp in June 1910 apparently for philatelic purposes, but no example has been reported used after June 1912.

SOUTH GEORGIA PROVISIONAL HANDSTAMPS

During October 1911 the arrival of the German South Polar Expedition at Grytviken, South Georgia, resulted in the local supply of stamps becoming exhausted. The Acting Magistrate, Mr. E. B. Binnie, who was also responsible for the postal facilities, produced a handstamp reading "Paid at (or At) SOUTH GEORGIA" which, together with a manuscript indication of the postage paid and his signature, was used on mail from 18 October 1911 to January 1912, the handstamp being overstruck by the "SOUTH GEORGIA" double-ring datestamp. Further examples, signed by John Innes Wilson, are known from February 1912.

D. SOUTH SHETLANDS

Postal facilities were first provided at the Port Foster whaling station on Deception Island for the 1912–13 whaling season and were available each year between November and the following April until March 1931.

No postmark was provided for the 1912–13 season and the local postmaster was instructed to cancel stamps on cover with a straight-line "PORT FOSTER" handstamp. Most letters so cancelled subsequently received a "FALKLAND ISLANDS" circular postmark dated between 19 and 28 March 1913. It is known that only low value stamps were available at Port Foster. Higher values, often with other "FALKLAND ISLANDS" postmark dates, were, it is believed, subsequently "made to order".

Stamps of FALKLAND ISLANDS cancelled at Port Foster, Deception Island with part of "PORT FOSTER" straightline handstamp.

Nos. G11, G12 and G13 are known with the map apparently printed double. These are not true 'double prints', in that they were not the result of two impressions of the inked printing plate, but were caused by incorrect tension in the rubber 'blanket' which transferred ink from the cylinder to the paper. Such varieties are outside the scope of this catalogue.

King Cakobau 1852–Oct 1874

Christian missionaries reached Fiji in 1835 and early letters are known to and from their mission stations, sent via Sydney, Hobart or Auckland.

In 1852 Cakobau, the chief of the island of Bau, declared himself King of Fiji and converted to Christianity two years later. Internal problems and difficulties with the American government led the king to offer to cede Fiji to Great Britain. The offer was refused, but resulted in the appointment of a British Consul in 1858. A Consular Post Office operated from September 1858 until 1872 and franked mail with New South Wales stamps from 1863.

The destruction of plantations in the Confederacy during the American Civil War led to an increased demand for Fijian cotton and this upsurge in commercial activity encouraged *The Fiji Times* newspaper on Levuka to establish a postal service on 1 November 1870.

		a. Comma after "EXPRESS" (R. 4/4)	£4250	
9		1s. black/*rose*	£1800	£1800

Nos. 1/4 were printed *se-tenant* as a sheet of 24 (6×4) with the 6d. stamps in the first horizontal row, the 1s. in the second, the 1d. in the third and the 3d. in the fourth. Nos. 5/9 were produced from the same plate on which three of the 3d. impressions had been replaced with three 9d. values.

The paper used for Nos. 1/4 shows a quadrillé watermark pattern comprising 3.7 mm squares. That used for Nos. 5/9 shows a pattern of vertical lines 1mm apart usually with thickened lines at 8.5 mm intervals. Stamps without the additional thickened lines are worth a premium.

The issued stamps showed the vertical frame lines continuous from top to bottom of the sheet with the horizontal rules broken and not touching the verticals. Used examples are cancelled in manuscript, by an Australian arrival mark or by the star cancellation used at Bua.

It should be noted that the initial rose colour of the papers has faded significantly in the majority of stamps found today.

There are no reprints of these stamps, but the 1d., 3d., 6d. and 1s. are known in the correct type on *yellow wove* paper and are believed to be proofs.

There are also three different sets of imitations made by the proprietors of *The Fiji Times* to meet the demands of collectors:—

The first was produced in 1876 on *white wove* paper, surfaced to simulate the appearance of vertically ribbed when viewed with light reflecting off its surface. Rouletted on dotted lines and arranged in sheets of 40 (5 rows of 8) comprising 1d., 3d., 6d., 9d. and 1s.; the horizontal frame lines are continuous and the vertical ones broken.

The second was produced before 1888 on *thick rosy mauve wove* paper, rouletted on dotted lines and arranged in sheets of 30 (5 rows of 6) comprising 1s., 9d., 6d., 3d. and 1d.; the vertical frame lines are continuous and the horizontal ones broken.

The third only came to light in the 1960s and is rare, only one complete sheet being recorded, which has since been destroyed. The sheet arrangement is the same as Nos. 1/4, which suggests that this was the first imitation to be produced. It is on *off-white wove* paper, rouletted on closely dotted or solid lines, with vertical frame lines continuous and the horizontal ones broken, as in the originals. These differ from the proofs mentioned above in that the lettering is slightly larger and the figures also differ.

King Cakobau established a formal government in June 1871 and stamps for the royal post office were ordered from Sydney. These arrived in October 1871 and the postal service was placed on a firm basis by the First Postal Act in December of that year. Under its terms *The Fiji Times* service closed on 17 January 1872 and the British Consular Post Office followed six months later.

The 3d. *green* is known without the surcharge T **9** on wove paper and also without the surcharge and the monogram. In this latter condition it can only be distinguished from No. 11 by its colour, which is a fuller, deeper yellow-green.

Stamps on both wove and laid paper *imperf* are from printer's trial or waste sheets and were not issued.

All values are known on laid paper without the monogram "VR" and the 3d. stamp also without the surcharge but these are also believed to be from printer's trial sheets which were never issued for postal purposes. Being on laid paper they are easily distinguishable from Nos. 10/12.

Red arc above "FIJI" (R. 1/4)

(Centre typo, frame litho Govt Printing Office, Sydney)

1882 (23 May). Toned paper wmkd with paper-maker's name "Cowan" in old English outline type once in each sheet. P 10.

69	**13**	5s. dull red and black	70·00	32·00
		a. Red arc above "FIJI"	£550	£250

An unknown quantity of the 1s. and 264 sheets (13,200 stamps) of the 5s., both perf 10 and imperf, were cancelled by the Fiji Post Office and sold as remainders. A number of different "SUVA" remainder cancellations have been recorded between "15 DEC 00" and "21 DE 1902".

An electrotyped plate was also produced for the frame of the 5s. This printing was not used for postal purposes but examples were included among the remainders, all cancelled "15 DEC 00". The electrotyped printing, in dull orange and black, is on paper watermarked "NEW SOUTH WALES GOVERNMENT" in double-line capitals and, apart from the colour of the medallion, differs in a number of respects from the original, most notably in the circular frame surrounding the Queen's head, which is notably thicker than the litho printing. Examples are rare.

WEST AFRICAN SETTLEMENT

British traders were active in the River Gambia area from the beginning of the 17th century, but it was not until 1808 that it was officially recognised as a Settlement. Administration passed from the merchants to the Governor of Freetown (Sierra Leone) in 1821 and in 1843 Gambia became a separate colony with a Protectorate declared over the banks of the river for 300 miles inland in 1857. A period of colonial retrenchment in 1865 saw a return to Settlement status under Sierra Leone, but Gambia once again became a Crown Colony in 1888.

There was no government postal service before 1858.

PRICES. The prices of Nos. 1 to 8 are for fine copies, with good margins and embossing. Brilliant or poor examples can be supplied at prices consistent with their condition.

DOUBLE EMBOSSING. The majority of the stamps of T **1** with so-called "double embossing" are merely examples in which the printing and embossing do not register accurately and have no special value. We no longer list "twice embossed" or "twice embossed, once inverted" varieties as they are considered to be outside the scope of this catalogue.

SLOPING LABEL VARIETIES. Traces of this flaw first occur in the 6d. imperforate on R. 1/1 and R. 1/5. In the perforated printings the variety on R. 1/5 is much more pronounced and appears as illustrated above. Our listings are these examples from R.1/5, the less noticeable varieties of this type from R. 1/1 being worth less. These varieties continued to appear until the introduction of a new 6d. plate in 1893, used for No. 34.

*There were three different printings of these stamps. The original supply, sent in June 1880 and covering all seven values, had watermark sideways and was perforated by a line machine. In October of the same year a further printing of the lowest five values had the watermark changed to upright, but was still with line perforation. The final printing, sent May 1881 and containing all values, also had watermark upright, but was perforated on a comb machine.

The above were printed in panes of 15 on paper intended for larger panes. Hence the watermark is sometimes misplaced or omitted and letters from "CROWN AGENTS FOR THE COLONIES" from the margin may appear on the stamps.

All values with watermark Crown CA are known imperforate (*price from £2250 each, unused*).

The previously listed 3d. "pearl-grey" shade has been deleted as it is impossible to distinguish from other 3d. shades when it occurs on a single stamp. Sheets from this late printing can be identified by three coloured dots in the left sheet margin and one in the right, this being the reverse of the normal arrangement.

Only three used examples are known of the 4d. with upright watermark, No. 31a.

Perforations. A number of different perforating machines were used for the various printings of these stamps and the following varieties are known: (*a*) the original 14 line perforation; (*b*) 14×13.8 comb perforation used for Type **9**; (*c*) 13.8×13.7 comb perforation used for Type **10**; (*d*) 13.7 line perforation used for Type **9**; (*e*) 14×13.8 compound line perforation used for Type **10**; (*f*) 13.8×14 compound line perforation used for Type **10**. The occurrence of these perforations on the individual values is indicated by the letters shown after the colour descriptions above.

No. 139 has been faked, but note that this stamp is comb perf 13.8×13.7 whereas No. 138 is line perf 14 exactly. There are also shades of the slate-purple.

Most values of the above issue are known with a forged oval registered Gambia postmark dated "22 JU 10", often with the year date not shown. Collectors should exercise particular caution in buying used examples of No. 139.

Gibraltar

CROWN COLONY

Early details of postal arrangements in Gibraltar are hard to establish, although it is known that postal facilities were provided by the Civil Secretary's Office from 1749. Gibraltar became a packet port in July 1806, although the Civil Secretary's office continued to be responsible for other mail. The two services were amalgamated on 1 January 1857 as a Branch Office of the British G.P.O., the control of the postal services not reverting to Gibraltar until 1 January 1886.

Spanish stamps could be used at Gibraltar from their introduction in 1850 and, indeed, such franking was required on letters weighing over ½ oz. sent to Spain after 1 July 1854. From 1 July 1856 until 1 January 1876 all mail to Spain required postage to be prepaid by Spanish stamps and these issues were supplied by the Gibraltar postal authorities, acting as a Spanish Postal Agent. The mail forwarded under this system was cancelled at San Roque with a horizontal barred oval, later replaced by a cartwheel type mark showing numeral 63. From 1857 combination covers showing the 2d. ship mail fee paid in British stamps and the inland postage by Spanish issues exist.

Stamps of Great Britain were issued for use in Gibraltar from 3 September 1857 (earliest recorded cover is dated 7 September 1857) to the end of 1885.

The initial supply contained 1d., 4d. and 6d. values. No supplies of the 2d. or 1s. were sent until the consignment of October 1857. No other values were supplied until early 1862.

Gilbert and Ellice Islands

No organised postal service existed in the Gilbert and Ellice Islands before the introduction of stamp issues in January 1911. A New Zealand Postal Agency was, however, provided on Fanning Island, one of the Line Islands, primarily for the use of the staff of the Pacific Cable Board cable station which was established in 1902. The agency opened on 29 November 1902 and although Fanning Island became part of the Gilbert and Ellice Islands colony on 27 January 1916, continued to operate until replaced by a Protectorate post office on 14 February 1939. The cable station closed on 16 January 1964. Fanning Island is now known as Tabuaeran.

1938–39 King George VI ½d., 1d., 1½d. (*Nos.* 603, 605, 607)

The schooner which carried the mail from Fanning Island also called at Washington Island, another of the Line group. Problems arose, however, as the authorities insisted that mail from Washington must first pass through the Fanning Island Postal Agency before being forwarded which resulted in considerable delays. Matters were resolved by the opening of a New Zealand Postal Agency on Washington Island which operated from 1 February 1921 until the copra plantations were closed in early 1923. The postal agency was re-established on 15 May 1924, but finally closed on 30 March 1934. Covers from this second period occur with incorrectly dated postmarks. Manuscript markings on New Zealand Nos. 578, 599/600 and 692 are unofficial and were applied during the resettlement of the island between 1937 and 1948. Washington Island is now known as Teraina.

THE FUNAFUTI PROVISIONALS. In July 1916, during a shortage of stamps at the post office in Funafuti, a number of parcels were presented for despatch. The District Officer, who also acted as Postmaster, surcharged 1d. and 2½d. stamps by handstamping to meet the need for higher values, without first seeking authorisation from the Resident Commissioner on Ocean Island (a process which would have taken several weeks). Opinion as to the legitimacy of the provisionals has varied, but it seems that they were produced to meet a short-term need and there is no evidence that they were created for financial gain. The stamps concerned are the 1d. (No. 13), surcharged "2/-" (twice) in black and the 2½d. blue (No. 11) surcharged "2/-" in red and "3/-", also in red.

Gold Coast

Gold Coast originally consisted of coastal forts, owned by the Royal African Company, trading with the interior. In 1821, due to raids by the Ashanti king, the British Government took over the forts, together with some of the hinterland, and the Gold Coast was placed under the Governor of Sierra Leone.

The administration was handed back to a merchantile company in 1828, but the forts returned to British Government rule in 1843. The colony was reconstituted by Royal Charter on 24 July 1874, and at that time also included the settlement at Lagos which became a separate colony in January 1886.

Following the end of the final Ashanti War the whole of the territory was annexed in September 1901.

A postal service was established at Cape Coast Castle in 1853. There is no record of British stamps being officially issued in the Colony before 1875, apart from those used on board the ships of the West African Squadron, but examples do, however, exist cancelled by Gold Coast postmarks.

In the period 1882-84 some values were in short supply and the use of bisects and other divided stamps is known as follows:

No. 5a. Used as part of 2½d. rate from Accra, Addah and Quittah
No. 6a. Used as 1d. rate from Addah, Cape Coast Castle, Elmina, Quittah, Salt Pond, Secondee and Winnebah
No. 6b. Used as part of 2½d. rate from Cape Coast Castle
No. 7a. Used as 2d. or as part of 2½d. rate from Quittah
No. 7b. Used as 1d. rate from Appam, Axim, Cape Coast Castle, Elmina and Winnebah
No. 7c. Used as 3d. rate from Winnebah
No. 8a. Used as 3d. rate from Secondee and Winnebah
No. 8b. Used as 1d. rate from Cape Coast Castle and Winnebah.

Examples of bisects used on piece are worth about 10% of the price quoted for those on cover.

The 4d., No. 7, is known surcharged "1 d". This was previously listed as No. 8*c*, but there are now serious doubts as to its authenticity. The three examples reported of this stamp all show *different* surcharges!

ARMY TELEGRAPHS

Nos. AT3/4, AT6 and AT8/12 listed under British Army Field Offices during the South African War were used in small quantities during the 1895 Ashanti Expedition.

Gold Coast became the Dominion of Ghana on 6 March 1957.

Grenada

The earliest recorded postmark of the British administration of Grenada dates from 1784, and, although details of the early period are somewhat sparse, it would appear that the island's postal service was operated at a branch of the British G.P.O. In addition to a Packet Agency at St. George's, the capital, there was a further agency at Carriacou, in the Grenadines, which operated for a few years from 15 September 1847.

Stamps of Great Britain were supplied to the St. George's office from April 1858 until the colony assumed responsibility for the postal service on 1 May 1860. Following the take-over the crowned-circle handstamp, No. CC2, was again used until the Grenada adhesives were issued in 1861.

There was no internal postal service before 1861.

For illustrations of the handstamp and postmark types see BRITISH POST OFFICES ABROAD notes, following GREAT BRITAIN.

POSTAGE

ONE SHILLING
(**6**)

NOTE. The early ½d., 2½d., 4d. and 1s. postage stamps were made by surcharging the undenominated Type **5** design.

The surcharges were from two founts of type—one about 1½ mm high, the other 2 mm high—so there are short and tall letters on the same stamp; also the spacing varies considerably, so that the length of the words varies.

Examples of Type **5** with surcharges, but without the "POSTAGE" inscription, are revenue stamps.

1875 (July). Surch with T **6**. W **3**. P 14.

13	**5**	1s. deep mauve (B.)	£700	12·00
		a. "SHLLIING"	£6500	£700
		b. "NE SHILLING"	†	£3000
		c. Inverted "S" in "POSTAGE"	£4000	£500
		d. "OSTAGE"	£7000	£2750

1875 (Dec). W **3** (Large Star, upright).

14	**1**	1d. green to yellow-green (P 14)	85·00	8·00
		a. Bisected diag (on cover)	†	£9000
15		1d. green (P 15)	£9000	£2250

No. 14 was comb perforated at Somerset House. 40 sheets of No. 15 were line perforated by Perkins, Bacon to replace spoilages and to complete the order.

1878 (Aug). W **2** (Small Star, sideways). Intermediate perf 15.

16	**1**	1d. green	£250	50·00
		b. Bisected diag (on cover)	†	£9000

26		4d. blue	£350	£190

Examples of the "F" for "E" error on the 2½d. value should not be confused with a somewhat similar broken "E" variety. The latter is always without the stop and shows other damage to the "E". The authentic error always occurs with the full stop shown.

The "no stop" variety occurs on R. 3/4, R. 6/2, R. 8/3 and R. 9/7.

		e. Surch treble	—	£900
		f. Surch treble, two inverted	—	£1000
		s. Optd "*Specimen*"	65·00	

The surcharges, Types **16/19**, were applied to half sheets as a setting of 60 (12×5).

The wide space between "TWO" and "SHILLINGS" occurs on R. 1/4 and 10/3 of the original 2s. Revenue stamp which was printed in sheets of 120 (12×10).

Type **18** was a two-step surcharge comprising "1d./Revenue", followed by "POSTAGE/AND". An example of No. 44 is known with the "POSTAGE" omitted due to faulty registration and the word applied by hand in a slightly different type style.

There are two varieties of fraction in Type **20**, which each occur 30 times in the setting; in one the "1" has horizontal serif and the "2" commences in a ball; in the other the "1" has sloping serif and the "2" is without ball.

In the earlier printings of the 10s. the paper was dampened before printing and the subsequent shrinkage produced narrow frames 23½ to 23¾ mm wide. Later printings were made on dry paper producing wide frames 24¼ mm wide.

No. 163a is one of the earlier printings, line perf 13.8×14.1. Later printings of the 10s. are line perf 14.1.

Nos. 163b/c show a blurred centre caused by the use of a worn plate.

Nos. 163a and 163b may be found with gum more or less yellow due to local climatic conditions.

Examples of No. 163c are known showing forged St. George's postmarks dated "21 AU 42", "21 AU 43" or "2 OC 43".

Nos. D4/7 were in use from August to November 1892. As supplies of Nos. D1/3 were available from April or May of that year it would not appear that they were intended for postage due purposes. There was a shortage of 1d. postage stamps in July and August, but this was alleviated by Nos. 44/5 which were still available. The provisionals may have been intended for postal purposes, but the vast majority appear to have been used philatelically.

The "1966" errors occurred on R. 7/10 and were later corrected. Nos. 425/8 and 436/40 were issued in mid-December, but some were cancelled-to-order with a November date in error.

On Nos. 420b and 421b the "1" of "1966" is below the second "D" of "INDEPENDENCE" (R. 6/3). On Nos. 420c, 421c, 422c and 433c it is below the second "E" (R. 6/1). Lesser misplacements exist in other positions.

No. 433*a* is from a printing made specially for this overprint.

These were put on sale by the Crown Agents on 25 March 1969 but although supplies were sent to Guyana in time they were not released there until needed as ample supplies remained of the stamps without watermark. It is understood that the 3c. and 5c. were put on sale in early May 1969 followed by the 25c. but there are no records of when the remainder were released.

Heligoland

Stamps of HAMBURG (see Part 7 (Germany) of this catalogue) were used in Heligoland until 16 April 1867. The Free City of Hamburg ran the Heligoland postal service between 1796 and 1 June 1866. Its stamps continued in use on the island until replaced by Heligoland issues.

PRINTERS. All the stamps of Heligoland were typographed at the Imperial Printing Works, Berlin.

REPRINTS. Many of the stamps of Heligoland were subsequently reprinted at Berlin (between 1875 and 1885), Leipzig (1888) and Hamburg (1892 and 1895). Of these only the Berlin productions are difficult to distinguish from the originals so separate notes are provided for the individual values. Leipzig reprints can be identified by their highly surfaced paper and those from Hamburg by their 14 perforation. All of these reprints are worth much less than the original stamps priced below.

There was, in addition, a small reprinting of Nos. 13/19, made by the German government in 1890 for exchange purposes, but examples of this printing are far scarcer than the original stamps.

Forgeries, printed by lithography instead of typography, also exist for Nos. 1/4, 6 and 8 perforated 12½ or 13. Forged cancellations can also be found on originals and, on occasion, genuine postmarks on reprints.

4	6sch. green and rose	20·00	£275

For Nos. 1/4 the second colour given is that of the spandrels on the ½ and 1sch., and of the spandrels and central background for the 2 and 6sch.

All four values exist from the Berlin, Leipzig and Hamburg reprintings. The following points are helpful in identifying originals from Berlin reprints; for Leipzig and Hamburg reprints see general note above:

½sch. – Reprints are all in yellowish green and show Head Die II
1sch. – All reprints are Head Die III
2sch. – Berlin reprints are in dull rose with a deeper blue-green
6sch. – Originals show white specks in green. Berlin reprints have a more solid bluish green

		a. Quadrillé paper. *Rose and pale blue-green* (6.73)	£140	£200
9		1½sch. grn and rose (I) (*quadrillé paper*) (9.73)	95·00	£275

For Nos. 5/9 the second colour given is that of the spandrels on the ½ and 1sch., of the central background on the ¼ and 1½sch., and of the central background, side labels and side marginal lines of the ¾sch.

No. 5a was a printing of the ¼sch. made in the colour combination of the 1½sch. by mistake.

A further printing of the ½sch. (Head die I) in deep rose-red and yellowish green (background), on non-*quadrillé* paper, was made in December 1874, but not issued (*Price £15, unused*).

All five values exist from the Berlin, Leipzig and Hamburg reprintings. The following points are helpful in identifying originals from Berlin reprints; for Leipzig and Hamburg reprints see general note above:

¼sch. – All Berlin and some Hamburg reprints are Head Die II
½sch. – Berlin reprints on thinner paper with solid colour in the spandrels
¾sch. – Berlin reprints on thinner, non-quadrillé paper
1sch. – Berlin reprints are on thinner paper or show many breaks in the rose line beneath "SCHILLING" at the top of the design or in the line above it at the foot
1½sch. – All Berlin and some Hamburg reprints are Head Die II

Berlin, Leipzig and Hamburg reprints also exist of the 2 and 6sch., but these values do not come as perforated originals.

		a. Perf 11½	£1400	
		ab. Imperf between (horiz pair)	£6000	

For stamps as Type **2** the first colour is that of the central background and the second that of the frame. On the 3pf. the first colour is of the frame and the top band of the shield, the second is the centre band and the third the shield border. The 20pf. is similar, but has the centre band in the same colour as the frame and the upper band on the shield in the second colour.

The 1, 2 and 3pf. exist from the Berlin, Leipzig and Hamburg reprintings. There were no such reprints for the other values. The following points are helpful in identifying originals from Berlin reprints; for Leipzig and Hamburg reprints see general note above:

1pf. – Berlin printings show a peculiar shade of pink
2pf. – All reprints are much lighter in shade than the deep rose and deep green of the originals
3pf. – Berlin reprints either show the band around the shield in brownish orange, or have this feature in deep yellow with the other two colours lighter

Heligoland was ceded to Germany on 9 August 1890.

Hong Kong

CROWN COLONY

Hong Kong island was formally ceded to Great Britain on 26 January 1841. The Hong Kong Post Office was established in October 1841, when much of the business previously transacted through the Macao postal agency was transferred to the island. The first cancellation is known from April 1842, but local control of the posts was short-lived as the Hong Kong Office became a branch of the British G.P.O. on 15 April 1843.

The colonial authorities resumed control of the postal service on 1 May 1860 although the previously established postal agencies in the Chinese Treaty Ports remained part of the British G.P.O. system until 1 May 1868.

For illustrations of the handstamp types see BRITISH POST OFFICES ABROAD notes following GREAT BRITAIN.

There is a wide range of shades in this issue, of which we can only indicate the main groups.

No. 12 is the same shade as No. 3 without wmk, the impression having a waxy appearance.

A single used example of the 48c. in a bright claret shade is known. No other stamps in this shade, either mint or used, have been discovered.

The true antique "t" variety (Nos. 43a and 44a) should not be confused with a small "t" showing a short foot. In the antique "t" the crossbar is accurately bisected by the vertical stroke, which is thicker at the top. The lower curve bends towards the right and does not turn upwards to the same extent as on the normal.

The handstamped surcharges on Nos. 48/50 were applied over the original Chinese face values. The single character for "2" was intended to convert "30c." to "20c.". There were six slightly different versions of the "2" handstamp and three for the "50c.".

The errors of the Chinese surcharges previously listed on the above issue and also on Nos. 52 and 55 are now omitted as being outside the scope of the catalogue. While some without doubt possess philatelic merit, it is impossible to distinguish between the genuine errors and the clandestine copies made to order with the original chops. No. 55c is retained as this represents a distinctly different chop which was used for the last part of the printing.

		d. Tall narrow "K" in "Kong" (R. 1/3)	£1300	£475
		e. Opt double	£18000	£14000
		f. Space between "O" and "N" of "Hong" (R. 1/5)	£1700	£750

Most of the supply of No. 51, which was only on sale for three days, was overprinted from a setting of 12 (6x2) applied five times to complete each pane. There were six printings from this setting, but a second setting, possibly of 30 or 60, was used for the seventh. Positions quoted are from the setting of twelve. Most varieties only occur in some printings and many less marked overprint flaws also exist.

The prices quoted for No. 51e are for examples on which the two impressions are distinctly separated. Examples on which the two impressions are almost coincidental are worth considerably less.

Following bomb damage to the De La Rue works on the night of 29 December 1940 various emergency arrangements were made to complete current requisitions for Hong Kong stamps:

Nos. 141a, 143a, 145a, 151a and 153a (all printings perforated 14½x14 except the 4c.) were printed and perforated by Bradbury, Wilkinson & Co. Ltd. using De La Rue plates. These stamps are on rough-surfaced paper.

Nos. 142a and 144 were printed by Harrison & Sons in undivided sheets of 120 (12x10) instead of the normal two panes of 60 (6x10).

Printings of the $1 and $2 values were made by Williams, Lea & Co. using De La Rue plates.

With the exception of the 8c. it is believed that none of these printings were issued in Hong Kong before its occupation by the Japanese on 25 December 1941, although examples could be obtained in London from late 1941. The issue dates quoted are those on which the stamps were eventually released in Hong Kong following liberation in 1945.

Nos. 160/*a* and 162/*a* were separate printings released in Hong Kong on the same day.

No. 144a. One imperforate sheet was found and most of the stamps were sold singly to the public at a branch P.O. and used for postage.

Hong Kong was under Japanese occupation from 25 December 1941 until 30 August 1945. The Japanese post offices in the colony were closed from 31 August and mail was carried free, marked with cachets reading "HONG KONG/1945/POSTAGE PAID". Military administration lasted until 1 May 1946. Hong Kong stamps were re-introduced on 28 September 1945.

No. 178a exists from two sheets, each of which had 90 stamps imperforate and ten perforated on three sides only.

The 10c. exists in coils constructed from normal sheets.

The duty plates for the King George VI issue were reformatted to reduce the sheet size from 120 (two panes of 60) to 100. In doing so, one of the 'short "R"' clichés was discarded. The other occurs on R. 10/9 of No. 187.

JAPANESE OCCUPATION OF HONG KONG

Hong Kong surrendered to the Japanese on 25 December 1941. The postal service was not resumed until 22 January 1942 when the G.P.O. and Kowloon Central Office re-opened.

Japanese postmarks used in Hong Kong can be identified by the unique combination of horizontal lines in the central circle and three stars in the lower segment of the outer circle. Dates shown on such postmarks are in the sequence Year/Month/Day with the first shown as a Japanese regnal year number so that Showa 17 = 1942 and so on.

Initially six current Japanese definitives, 1, 2, 3, 4, 10 and 30s. (Nos. 297, 315/17, 322 and 327) were on sale, but the range gradually expanded to cover all values between ½s. and 10y. with Nos. 313/14, 318, 325, 328/31, 391, 395/6, 398/9 and 405 of Japan also available from Hong Kong post offices during the occupation. Philatelic covers exist showing other Japanese stamps, but these were not available from the local post offices. Supply of these Japanese stamps was often interrupted and, during the period between 28 July 1942 and 21 April 1943, circular "Postage Paid" handstamps were sometimes used. A substantial increase in postage rates on 16 April 1945 led to the issue of the local surcharges, Nos. J1/3.

BRITISH POST OFFICES IN CHINA

Under the terms of the 1842 Treaty of Nanking, China granted Great Britain and its citizens commercial privileges in five Treaty Ports, Amoy, Canton, Foochow, Ningpo and Shanghai. British Consuls were appointed to each Port and their offices, as was usual during this period, collected and distributed mail for the British community. This system was formally recognised by a Hong Kong Government notice published on 16 April 1844. Mail from the consular offices was postmarked when it passed through Hong Kong.

The number of Chinese Treaty Ports was increased to sixteen by the ratification of the Treaty of Peking in 1860 with British postal facilities being eventually extended to the Ports of Chefoo, Hankow, Kiungchow (Hoihow), Swatow, Tainan (Anping) and Tientsin.

As postal business expanded the consular agencies were converted into packet agencies or post offices which passed under the direct control of the Hong Kong postal authorities on 1 May 1868.

In May 1898 the British Government leased the territory of Wei Hai Wei from China for use as a naval station to counter the Russian presence at Port Arthur.

The opening of the Trans-Siberia Railway and the extension of Imperial Penny Postage to the Treaty Port agencies resulted in them becoming a financial burden on the colonial post office. Control of the agencies reverted to the G.P.O., London, on 1 January 1911.

The pre-adhesive postal markings of the various agencies are a fascinating, but complex, subject. Full details can be found in *Hong Kong & the Treaty Ports of China & Japan* by F. W. Webb (reprinted edition J. Bendon, Limassol, 1992) and in various publications of the Hong Kong Study Circle.

From 15 October 1864 the use of Hong Kong stamps on mail from the Treaty Ports became compulsory, although such stamps were, initially, not cancelled (with the exception of Amoy) until they reached Hong Kong where the "B62" killer was applied. Cancellation of mail at the actual Ports commenced during 1866 at Shanghai and Ningpo, spreading to all the agencies during the next ten years. Shanghai had previously used a c.d.s. on adhesives during 1863 and again in 1865–66.

The main types of cancellation used between 1866 and 1930 are illustrated below. The illustrations show the style of each postmark and no attempt has been made to cover differences in type letters or figures, arrangement, diameter or colour.

Until 1885 the vertical and horizontal killers were used to obliterate the actual stamps with an impression of one of the circular date stamps shown elsewhere on the cover. Many of the early postmarks were also used as backstamps or transit marks and, in the notes which follow, references to use are for the first appearance of the mark, not necessarily its first use as an obliterator.

Illustrations in this section are taken from *Hong Kong & the Treaty Ports of China & Japan* by F. W. Webb and are reproduced with the permission of the Royal Philatelic Society, London.

Details of the stamps known used from each post office are taken, with permission, from *British Post Offices in the Far East* by Edward B. Proud, published by Proud-Bailey Co. Ltd.

AMOY

One of the five original Treaty Ports, opened to British trade by the Treaty of Nanking in 1842. A consular postal agency was established in 1844 which expanded in 1876 into two separate offices, one on the off-shore island of Ku Lang Seu and the other in Amoy itself.

ANPING

Anping is the port for Tainan, on the island of Formosa, opened to British trade in 1860. A British Vice-consulate operated in the port and mail is known postmarked there between 1889 and 1895. Formosa passed under Japanese control in 1895 and British Treaty Port rights then lapsed.

CANTON

A British postal service was organised in Canton from 1834, but was closed when the foreign communities were evacuated in August 1839. The city was one of the original Treaty Ports and a consular agency was opened there in 1844. The consulate closed during the riots of December 1856, being replaced by a temporary postal agency at Whampoa, further down the river. When British forces reached Canton a further temporary agency was set up on 23 March 1859, but both closed in July 1863 when the consulate was re-established.

SWATOW

Swatow became a Treaty Port in 1860 and a consular packet agency was opened in the area made available for foreign firms during the following year. In 1867 the original agency was transferred to the Chinese city on the other side of the Han river, but a second agency was subsequently opened in the foreign concession during 1883.

TIENTSIN

Tientsin became a Treaty Port in 1860. A British consulate was established in 1861, but no formal postal agency was organised there until 1882. It was not, however, very successful and was closed during 1890. The British Post Office reopened on 1 October 1906 under the management of the Chinese Engineering and Mining Company.

British military post offices operated in Tientsin from 1927 until 1940.

WEI HAI WEI

The territory of Wei Hai Wei was leased from the Chinese by the British Government from 24 May 1898 having been previously occupied by the Japanese. At that time there were no organised postal services from the area, although a private local post did operate between the port and Chefoo from 8 December 1898 until 15 March 1899. A Chinese Imperial post office opened in March 1899 to be followed by a British postal agency on the offshore island of Liu Kung Tau on 1 September 1899. A second British agency opened at Port Edward on 1 April 1904.

The British P.O.'s in the Treaty Ports closed by agreement with the Chinese on 30 November 1922, but the above over-printed issues continued in use at the Wei Hai Wei offices until they in turn closed on 30 September 1930. Under the terms of the Convention signed with China the Royal Navy continued to use the base at Wei Hai Wei until the mid-1930s.

BRITISH POST OFFICES IN JAPAN

Under the terms of the Anglo-Japanese Treaty of Yedo, signed on 26 August 1858, five Japanese ports were opened to British trade. British consulates were established at Decima (Nagasaki), Kanagawa (Yokohama), Hiogo (Kobe) and Hakodadi (Hakodate).The postage stamps of Hong Kong became available at the Yokohama and Nagasaki consulates during October 1864 and at Hiogo in 1869, although cancellation of mail did not commence until 1866 at Yokohama and Nagasaki or 1876 at Hiogo. Japan became a member of the U.P.U. on 1 June 1877 and all of the British Postal Agencies were closed by the end of 1879.

For illustrations of postmark types see BRITISH POST OFFICES IN CHINA.

HAKODATE

A British consular office existed at Hakodate, but it was never issued with a c.d.s. obliterator or Hong Kong stamps. No British covers are recorded from this consulate prior to opening of the Japanese Post Office.

HIOGO

The Port of Hiogo (Kobe) was first opened to foreigners on 1 January 1868. The British Consular mail service at Hiogo commenced during 1869 to serve the foreigners at Hiogo, Kobe and Osaka. The cities of Hiogo and Kobe later merged to become the single city of Kobe. The consular office at Hiogo closed on 30 November 1879.

NAGASAKI

The British Consulate opened in Nagasaki on 14 June 1859, but, with few British residents at the port, the consular staff found it inconvenient to carry out postal duties so that few Nagasaki c.d.s. or "N2" cancellations exist. The postal service was terminated on 30 September 1879.

Selling Your Stamps?

Summary Tip #21:
5 Different Ways to Sell your Stamps: Selling via Auction

by Andrew McGavin

Dear Colleague,

In Part 3 (page 206) of 'Selling your Stamps' we discussed the importance of selecting the right dealers/organisations to approach and ensuring the choice of those with transparent modus operandi.

Here in Part 4 of 'Selling your Stamps' we'll discuss the potential advantages and disadvantages of selling through auction on your own account.

Remember we previously discussed the importance of knowing the strength of your collection. This is never more important than when making the decision to consign your stamps to auction. We have touched upon this in previous 'Stamp Tips of the Trade'. The most important thing to remember – is 'who buys complete stamp collections at auction?'

Collectors want to buy stamps that are missing from their collections: Dealers want to buy complete collections to break out individual stamps/sets to supply to collectors. By breaking collections into individual parts dealers add value/profi t. When you consign your collection as one lot to auction – 9 times out of 10 .... it is a dealer that will be buying it. Unless you are a collector that purchases collections, extract the stamps you need, and sell on the rest – you will be looking to buy specific stamps, sets or small 'runs'.

So what is wrong with consigning stamps to auction? Nothing, if it is the right kind of stamps. For example – you need to 'quiz' the auctioneer selected as to what he/she is actually going to do with your stamps. Let's give you an example. A few weeks ago we purchased a 'Birds' thematic collection from public auction. We paid the auctioneer exactly £1011.50= ... but the actual price the stamps were 'knocked down' to us was exactly £800=. The buyer's premium was 26.4375% - and that was before the increase in VAT. If we purchased the same collection today – the buyer's premium would be 27% !

And did the collector realise £800=? NO. Even if the collector was charged just 12% + VAT selling commission – at today's rate the collector would receive £685=. Imagine, this collection has been sold to a dealer for £1011- by an auction who has put no money on the table and yet made a gross profit of £326= on the transaction. The dealer that paid £1,011.50 expects to make a profit. It follows that if you can approach the right dealers in the right way – then you can expect to eliminate much of the money that you pay for that auction to offer your stamps to dealers. Please refer to 'Selling your Stamps?' Tip 19 (page 92) for suggestions as to how this may be achieved for more valuable collections.

Unless your collection includes valuable stamps/sets that the auctioneer agrees to extract and offer individually ... you are paying an enormous percentage of the value of your stamps for that auction to sell to dealers.

The 'funniest' thing of all was that the auction does not even pack your purchases .... we had to pay another £35 for a company to collect the stamps, package them and deliver them to us by parcel delivery!

The point is that unless your collection includes valuable stamps/sets that the auctioneer agrees to extract and offer individually ... you are paying an enormous percentage of the value of your stamps for that auction to sell to dealers.

BUT, if your collection is one basically comprised of rarities – then an argument can be made for offering your collection individually lotted. In this way you are going to reach collectors + if yours is a 'named' collection often there is a 'kudos' value/ premium that stamps with provenance achieve.

However – so large are the major auctions selling and buyer's premiums today – that even with collections of rarities – leading dealers can often offer to pay in excess of a fair auction estimate immediately – without risk, uncertainty of unsold lots, and immediately. The simple answer is get the auction to underwrite the minimum NET amount that they will guarantee you receive ... and then see by how much the 'trade' will improve upon this. Then you make a fully informed decision.

In Part 5 of 'Selling your Stamps?' we'll discuss the merits and obstacles of selling your stamps on-line via eBay and other on-line auctions.

Happy collecting from us all,

PS. If you find this 'tip' interesting please forward it to a philatelic friend.

ISSUE FOR SIND PROVINCE

1

1852 (1 July). "Scinde Dawk." Embossed.

S1	**1**	½a. white	£18000	£2500
S2		½a. blue	£38000	£9500
S3		½a. scarlet	—	£25000

These stamps were issued under the authority of Sir Bartle Frere, Commissioner in Sind.

No. S3 is on sealing wax (usually cracked). Perfect copies are very rare.

It is believed that examples in red were issued first followed, in turn, by those in white and blue. The latter, which shows an extra ring round the circumference, may have been produced by De La Rue. The Scinde Dawks were withdrawn in October 1854.

EAST INDIA COMPANY ADMINISTRATION

2 (*Much reduced*)

The ½a., 1a. and 4a. were lithographed in Calcutta at the office of the Surveyor-General. The die was engraved by Mr. Maniruddin (spelling uncertain). *Ungummed* paper watermarked as T **2** (the "No. 4" paper) with the Arms of the East India Co in the sheet. The watermark is sideways on the ½a. and 1a., and upright on the 4a. where the paper was trimmed so that only the central portion showing the oval and the arms was used. Imperforate.

1854 (1 Apr).

1	**3**	½a. vermilion	£2750	
		a. Deep vermilion	£3750	

This stamp, with 9½ arches in the side border, was prepared for use and a supply was sent to Bombay, but was not officially issued.

The vermilion shade is normally found on toned paper and the deep vermilion on white.

ILLUSTRATIONS. Types **4/8** are shown twice actual size.

5		½a. indigo	£600	£120

We give the official date of validity. Stamps were on sale to the public from mid September. Actual usage at Toungoo, Burma, is known from mid August.

These stamps were printed between 5 May and 29 July 1854 (Printing 30 millions).

4a

Die II.

6	**4a**	½a. blue	£150	£130
7		½a. indigo	£160	£140

The bulk were printed between 1 and 12 August 1854, with some extra sheets on or before 2 November (Printing about 2 millions).

5

Die III (1855).

8	**5**	½a. pale blue	£2500	85·00

9		½a. greenish blue	£3750	£225
10		½a. deep blue	£3000	£130

These stamps were printed between 3 July and 25 August 1855 (Printing about 4¾ millions).

THE THREE DIES OF THE ½ ANNA

DIE I. *Chignon shading* mostly solid blobs of colour. *Corner ornaments*, solid blue stars with long points, always conspicuous. *Band below diadem* always heavily shaded. *Diadem and jewels*. The middle and right-hand jewels usually show a clearly defined cross. *Outer frame lines*. Stamps with white or faintly shaded chignons and weak frame lines are usually Die I (worn state).

DIE II. *Chignon* normally shows much less shading. A strong line of colour separates hair and chignon. *Corner ornaments*. The right blue star is characteristic (see illustration) but tends to disappear. It never obliterates the white cross. *Band below diadem*. As Die I but heavier, sometimes solid. *Diadem and jewels*. As Die I but usually fainter. *Outer frame lines*. Always strong and conspicuous.

DIE III. *Chignon shading* shows numerous fine lines, often blurred. *Corner ornaments* have a small hollow blue star with short points, which tends to disappear as in Die II. *Band below diadem*, shows light shading or hardly any shading. *Diadem and jewels*. Jewels usually marked with a solid squat star. The ornaments between the stars appear in the shape of a characteristic white "w". *Frame lines* variable.

The above notes give the general characteristics of the three Dies, but there are a few exceptions due to retouching, etc.

6 (*See note below No.* 14)

Die I.

11	**6**	1a. deep red	£1300	£110
12		1a. red	£900	80·00

Printing of these stamps commenced on 26 July 1854, and continued into August (Printing, see note below No. 14).

13	**7**	1a. deep red	£400	£110
14		1a. dull red	£150	80·00

*Very worn printings of Die II may be found with chignon nearly as white as in Die I.

In stamps of Die I, however, the small blob of red projecting from the hair into the chignon is always visible.

These stamps were printed in August and September 1854 (Total printing, Dies I and II together, about 7¾ millions).

8

Die III. With pointed bust (1855).

15	**8**	1a. red	£3250	£200
16		1a. dull red	£4000	£250

These stamps were printed between 7 July and 25 August 1855 (Printing, about 1½ millions).

NOTE. Our catalogue prices for Four Annas stamps are for cut-square specimens, with clear margins and in good condition. Cut-to-shape copies are worth from 3% to 20% of these prices according to condition.

Four Dies of the Head:—

I II

DIE I. Band of diadem and chignon strongly shaded.

DIE II. Lines in band of diadem worn. Few lines in the upper part of the chignon, which, however, shows a strong drawn comma-like mark.

IIIA III

DIE IIIA. Upper part of chignon partly redrawn, showing two short, curved vertical lines in the NE corner. "Comma" has disappeared.

DIE III. Upper part of chignon completely redrawn, but band of diadem shows only a few short lines.

Two Dies of the Frame:—

Die I. Outer frame lines weak. Very small dots of colour, or none at all, in the "R" and "A's". The white lines to the right of "INDIA" are separated, by a line of colour, from the inner white circle.

Die II. Outer frame lines strengthened. Dots in the "R" and "A's" strong. White lines to right of "INDIA" break into inner white circle.

This printing was made between 13 and 28 Oct 1854 (Printing, 206,040).

Twenty-seven confirmed examples of No. 18a are now known, only three of which are cut-square. The range of prices quoted reflects the difference in value between a sound and attractive cut-to-shape stamp and the finest example known. Several of the known examples are in poor condition, and these are worth much less.

2nd Printing. Head Die II. Frame Die I. Stamps widely spaced and separated by blue wavy line.

This printing was made between 1 and 13 Dec 1854 (Printing, 393,960).

No. 19a is only known used cut-to-shape.

3rd Printing. Head Dies II, IIIA and III. Frame Dies I and II. Stamps, often in bright shades, widely spaced and separated by wavy line (1855)

This printing was made between 10 March and 2 April 1855 (Printing, 138,960).

Correct attribution of stamps to the scarce third printing requires careful study. Examples of Nos. 21/c should only be purchased with a reliable guarantee.

4th Printing. Head Die III. Frame Die II. Stamps closely spaced 2 to 2½ mm without separating line (1855)

This is believed to be an unofficial perforation. Most of the known specimens bear Madras circle postmarks (C122 to C126), but some are known with Bombay postmarks. Beware of fakes.

BISECTS. The bisected stamps for issues between 1854 and 1860 were used exclusively in the Straits Settlements during shortages of certain values. Prices quoted are for those with Singapore "B 172" cancellations. Penang marks are considerably rarer.

The 2a. was also printed on paper with a sideways sheet watermark incorporating the words "STAMP OFFICE. One Ana" in double-ring circle, etc. (*Price* £1200 *unused*, £800 *used*).

Apart from the rare emerald-green shade, there is a range of shades of No. 31 varying from bluish to yellowish green.

Many stamps show traces of lines external to the design shown in our illustration. Stamps with this frame on all four sides are scarce.

Many reprints of the ½, 1, 2, and 4a. exist.

PRINTERS. All Indian stamps from No. 35 to 200 were typographed by De La Rue & Co.

PRICES. It must be emphasised that the unused prices quoted for the early perforated stamps, especially Nos. 35/68, are for fine examples with fresh colour and original gum. Well-centred examples may command a premium.

The 8p. mauve, No. 57, is found variously surcharged "NINE" or "NINE PIE" by local postmasters, to indicate that it was being sold for 9 pies, as was the case during 1874. Such surcharges were made without Government sanction. (*Price, from £800 unused*).

The stamps of India, wmk Elephant's Head, surcharged with a crown and value in "CENTS", were used in the Straits Settlements.

"DOUBLE PRINTS". Examples of Nasik litho-printed stamps showing doubling of all or part of the design or subsequent overprint are not uncommon. These are not true 'double prints', in that they were not the result of two impressions of the inked printing plate, but were caused by incorrect tension in the rubber 'blanket' which transferred ink from the cylinder to the paper. Such varieties are outside the scope of this catalogue.

Litho Typo

Litho and typo printings: Apart from the shades, which in most cases are distinctive, unused typo stamps may be identified by the indentation of the design into the paper, *as seen from the back of the stamp*, whereas litho-printed versions are smooth on front and back. Marginal examples may also be allocated due to the fact that only the typo plates were surrounded by "Jubilee" lines. On used stamps the fine lines are generally clearer and more even in the litho printings and the white border surrounding the value tablets appears wider than on typo versions.

TELEGRAPH STAMPS

PRINTERS. All Indian Telegraph stamps, including fiscal stamps optd or surch for provisional use, were typographed by De La Rue.

"SPECIMEN" and "CANCELLED" overprints. Most Indian Telegraph stamps (with the exception of Nos. T1/3, 21/31, 53 and OT1/5) are known with "SPECIMEN" or "CANCELLED" overprints, for record purposes. In the case of the earlier issues up to 1890, and particularly the higher rupee values, these are usually worth considerably less than the prices quoted for unused examples.

T 1

1860 (Jan). Inscr "ELECTRIC TELEGRAPH". Blue glazed paper. No wmk. Perf 14.

T2		1r. reddish purple	£7000	£4750	†
T3		4r. reddish purple	£28000	†	£8000

Imperforate examples are of proof status.

Used examples of this issue include whole stamps with punched holes and other forms of cancellation, but some left halves are known, indicating usage after 1869. Remainders were later optd "COURT FEES" for fiscal use.

The listed imperforate errors Nos. T7a and T8a were used respectively at Colombo (Ceylon) in Oct 1878 and at Bombay in May 1869. Other values also exist imperforate but are of proof status.

Several values, particularly the 2a., 4a. and 8a., exist on paper showing varying degrees of blueing.

Used prices for Nos. T4/20 are quoted for both upper halves and whole stamps. The latter are usually found with additional punched holes. Lower halves, in this and subsequent issues, result from stamps being placed inverted on the telegraph form, against regulations, and are rare.

For later printings as Nos. T4/7, T9, T11/12, T14, T17 and T20, but wmk. T **25**, see Nos. T32/41.

T25		1a. pale lilac (2.82)	£250	40·00	30·00

The Calcutta opts T T **20/1** were intended to be applied at the top of the stamp, across the Queen's diadem.

(iii) Opt T T **22** *(26×3 mm without stop) at Bombay*

T27	T **22**	2a. bright lilac (13.8.81)	†	£1100	£400

This first Bombay opt T T **22** is of rough appearance, from worn type, and like T T **23**, was applied to the centre of the stamp, across the portrait.

(iv) Opt T T **23** *(24×2½ mm with stop) at Bombay*

T28	T **23**	2a. bright lilac (15.8.81)	—	38·00	22·00

This second Bombay opt T T **23** is of the same size as T T **21** of Calcutta, but the "G" is narrower, and there are other minor differences.

(v) Opt T T **24** *(26×2¾ mm without stop) at Madras*

T29	T **24**	1a. pale lilac (20.3.82)	£800	£150	£150
T30		2a. bright lilac (20.3.82)	†	£1100	†
T31		4a. green (17.4.82)	—	22·00	22·00

The Madras opt T T **24** is from a bold fount, readily distinguishable from those used at Calcutta and Bombay for T T **20/3**. It was applied to the centre of the stamps, across the portrait.

Nos. T21/31, being of horizontal format, were placed *vertically* on the telegraph forms and bisected in the usual way. Used prices are quoted for both left ("TELE(G)") and right ("(G)RAPH") halves, the former being scarcer in the case of Nos. T21/8.

The colour chosen for No. T55 was found to be unsuitable, as it proved difficult to discern the design under artificial light. Stocks held at Calcutta were provided with a printed red bar at foot (No. T55a), while those at the Madras and Bombay offices were ruled with a red line by hand (No. T55b) before issue, to mark the bottom half of the stamp, and ensure that stamps were affixed to telegraph forms in the correct position.

INDIA USED ABROAD

In the years following 1858 the influence of the Indian Empire, political, military and economic, extended beyond its borders into neighbouring states, the Arabian Gulf, East Africa and the Far East. Such influence often led to the establishment of Indian civil and military post offices in the countries concerned where unoverprinted stamps of India were used.

Such offices operated in the following countries. An * indicates that details will be found under that heading elsewhere in the catalogue.

ABYSSINIA

Following the imprisonment of the British Consul by King Theodore of Abyssinia, an expedition under the command of Sir Robert Napier was dispatched from India to secure his release. The expedition landed on 28 November 1867 and, having achieved its objective, withdrew the following June. A detachment of the Indian Army Postal Corps accompanied the expedition and was in operation from January to June 1868.

FRENCH INDIAN SETTLEMENTS

The first Indian post office, at Chandernagore, was open in 1784 to be followed by offices in the other four Settlements. By an agreement with the French, dating from 1814, these offices handled mail destined for British India, Great Britain, the British Empire and most other foreign destinations except France and the French colonies. In later years the system was expanded by a number of sub-offices and it continued to operate until the French territories were absorbed into India on 2 May 1950 (Chandernagore) or 1 November 1954.

Chandernagore. Opened 1784. Used numeral cancellations "B86" or "86".

Sub-offices:
- Gondalpara (opened 1906)

- Yanam. Opened 1876. Used numeral cancellation "5/M-4".

IRAN

The British East India Company was active in the Arabian Gulf from the early years of the 17th century with their first factory (trading centre) being established at Jask in 1619. After 1853 this commercial presence was converted into a political arm of the Indian Government culminating in the appointment of a Political Resident to Bushire in 1862.

The first Indian post office in Iran (Persia) opened at Bushire on 1 May 1864 with monthly mail services operating to the Resident there and to the British Legation at Tehran. Further offices in the other Gulf ports followed, but, unless otherwise stated below, all were closed on 1 April 1923.

Details of the stamps known used from each post office are taken with permission, from the listing published by the Iran Philatelic Study Circle.

Persian Expeditionary Force

Following the occupation of Herat, on the Afghan border, by Persia, Britain declared war on 1 Nov 1856 and the Indian Expeditionary Force took Bushire (occupied 12 Dec 1856 to 2 Oct 1857) and Mohammera (occupied 26 Mar 1857 to 16 May 1858) Kharg Island was used as a supply base (Dec 1856 to Feb 1858).

The expedition was accompanied by Field Post Offices using contemporary Indian stamps cancelled "131" in a diamond of lines. It should be noted that forgeries of this cancellation are known and the number was subsequently assigned to Billimoria in India.

IRAQ*

Unoverprinted stamps of India used from 1868 until 1918.

KUWAIT*

Unoverprinted stamps of India used from 1904 until 1923.

MALAYA (STRAITS SETTLEMENTS)*

Unoverprinted stamps of India used from 1854 until 1867.

MUSCAT*

Unoverprinted stamps of India used from 1864 until 1947.

NEPAL

A post office was opened in the British Residency at Kathmandu in 1816 following the end of the Gurkha War. Stamps of India were used from 1854, initially with "B137", "137" or "C-37" numeral cancellations. The Residency Post Office continued to provide the overseas mail service after Nepal introduced its own issues in 1881.

In 1920 the Residency Post Office became the British Legation Post Office. On the independence of India in 1947 the service was transferred to the Indian Embassy and continued to function until 1965.

PORTUGUESE INDIA

A British post office was open in Damaun by 1823 and Indian stamps were used there until November 1883, some with "13" and "3/B-19" numeral cancellations.

No other British post offices were opened in the Portuguese territories, but from 1854 Indian stamps were sold by the local post offices. Between 1871 and 1877 mail intended for, or passing through, British India required combined franking of India and Portuguese India issues. After 1877 the two postal administrations accepted the validity of each other's stamps.

SOMALILAND PROTECTORATE*

Unoverprinted stamps of India used from 1887 until 1903.

TIBET

The first Indian post office in Tibet accompanied the Tibetan Frontier Commission in 1903. The Younghusband Military Expedition to Lhasa in the following year operated a number of Field Post Offices which were replaced by civil post offices at Gartok (opened 23 September 1906), Gyantse (opened March 1905), Pharijong (opened 1905) and Yatung (opened 1905). All Indian post offices in Tibet closed on 1 April 1955 except Gartok which, it is believed, did not operate after 1943. A temporary post office, C-622, operated at Gyantse between July 1954 and August 1955 following a flood disaster.

TRUCIAL STATES*

Unoverprinted stamps of India used at Dubai from 19 August 1909 until 1947.

ZANZIBAR*

Unoverprinted stamps of India used from 1875 until 1895.

CHINA EXPEDITIONARY FORCE

Following the outbreak of the Boxer Rising in North China the Peking Legations were besieged by the rebels in June 1900. An international force, including an Indian Army division, was assembled for their relief. The Legations were relieved on 14 August 1900, but operations against the Boxers continued in North China with Allied garrisons at key cities and along the Peking–Tientsin–Shanhaikwan railway. The last Indian Army battalion, and accompanying Field Post Offices, did not leave North China until 1 November 1923.

Field Post Offices accompanied the Indian troops and commenced operations on 23 July 1900 using unoverprinted Indian postage and official stamps. The unoverprinted postage issues were replaced in mid-August by stamps overprinted "C.E.F." to prevent currency speculation. The use of unoverprinted official stamps continued as they were not valid for public postage.

BRITISH RAILWAY ADMINISTRATION

As a vital communications link the North China Railway (Peking–Tientsin–Shanhaikwan) was captured by Russian forces during operations against the Boxers. Control of the line was subsequently, in February 1901, assigned to the China Expeditionary Force and a British Railway Administration was set up to run it. By international agreement the line was to provide postal services for the other national contingents and also, to a lesser extent, for the civilian population. Travelling post offices were introduced and, on 20 April 1901, a late letter service for which an additional fee of 5c. was charged.

1901 (20 Apr). No. 108 of China surch with Type BR **35**.

BR133	**32**	5c. on ½c. brown (Bk.)	£450	£110
		a. Surch inverted	£10000	£2750
		b. Surch in green	£400	£150
		ba. Imperf between (horiz pair)		† £20000

No. BR133 was used for the collection of the 5c. late letter fee and was affixed to correspondence by a postal official at the railway station. It was cancelled with a violet circular postmark showing "RAILWAY POST OFFICE" at top and the name of the station (PEKING, TIENTSIN, TONGKU, TONGSHAN or SHANHAIKWAN) at foot. With the exception of official mail it could only be used in combination with Indian stamps overprinted "C.E.F.", stamps from the other allied contingents or of the Chinese Imperial Post (*Price used on cover*: No. BR133 *from* £350. No. BR133b *from* £400).

It is suggested that stamps overprinted in black were used at Tientsin and Tongku with those in green being available at Peking, Tongshan and Shanhaikwan.

The late fee charge was abolished on 20 May 1901 and No. BR133 was then withdrawn. The British Railway Administration continued to run the line, and its travelling post offices, until it was returned to its private owners in September 1902.

INDIAN EXPEDITIONARY FORCES 1914–21

Nos. E1/13 were for use of Indian forces sent overseas during the First World War and its aftermath. Examples were first used in France during September 1914. Other areas where the stamps were used included East Africa, Mesopotamia and Turkey. "I.E.F." overprints ceased to be valid for postage on 15 October 1921.

INTERNATIONAL COMMISSION IN INDO-CHINA

The International Control Commissions for Indo-China were established in August 1954 as part of the Geneva Declaration which partitioned Vietnam and sought to achieve stable settlements in Cambodia and Laos. The three supervisory commissions were chaired by India with Canada and Poland as the other members. Joint inspection teams of servicemen from the three countries were also provided.

The Indian contingent included a postal unit which handled mail for the three commissions and the inspection teams. The unit arrived in Indo-China on 3 September 1954 and opened field post offices at Saigon (F.P.O. 742), Hanoi (F.P.O. 743), Vientiane (F.P.O. 744) and Phnom Penh (F.P.O. 745).

INDIAN NATIONAL ARMY

The following were prepared for use in the Japanese occupied areas of India during the drive on Imphal.

Genuine examples are inscribed "PROVISIONAL GOVERNMENT OF FREE INDIA". Forgeries also exist inscribed "PROVISIONAL GOVT. OF FREE INDIA".

Typo in Rangoon. No gum. Perf 11½ or imperf. 1p. violet, 1p. maroon, 1a. green. *Price from £70 each unused.*

Ten stamps, sharing six different designs, inscribed "AZAD HIND", were produced in Germany during the Second World War, but did no postal duty.

JAPANESE OCCUPATION OF THE ANDAMAN AND NICOBAR ISLANDS

The Andaman Islands in the Bay of Bengal were occupied on the 23 March 1942 and the Nicobar Islands in July 1942. Civil administration was resumed in October 1945.

The following Indian stamps were surcharged with large figures preceded by a decimal point:—

Postage stamps—.3 on ½a. (No. 248), .5 on 1a. (No. 250), .10 on 2a. (No. 236b), .30 on 6a. (No. 274).

Official stamps—.10 on 1a.3p. (No. O146*a*), .20 on 3p. (No. O143), .20 in red on 3p. (No. O143).

Prices from £450 each unused.

INDIAN CONVENTION STATES

The following issues resulted from a series of postal conventions agreed between the Imperial Government and the state administrations of Patiala (1 October 1884), Gwalior, Jind and Nabha (1 July 1885), and Chamba and Faridkot (1 January 1887).

Under the terms of these conventions the British Indian Post Office supplied overprinted British India issues to the state administrations which, in turn, had to conform to a number of conditions covering the issue of stamps, rates of postage and the exchange of mail.

Such overprinted issues were valid for postage within the state of issue, to other "Convention States" and to destinations in British India.

Stamps of Chamba, Gwalior, Jind, Nabha and Patiala ceased to be valid for postage on 1 January 1951, when they were replaced by those of the Republic of India, valid from 1 April 1950.

RULERS OF INDIAN CONVENTION AND FEUDATORY STATES. Details of the rulers of the various states during the period when stamps were issued are now provided in a somewhat simplified form which omits reference to minor titles. Dates quoted are of the various reigns, extended to 1971 when the titles of the surviving rulers of the former princely states were abolished by the Indian Government.

During the absorption of the Convention and Feudatory States there was often an interim period during which the administration was handed over. In some instances it is only possible to quote the end of this interim period as the point of transfer.

STAMPS OF INDIA OVERPRINTED

In the Queen Victoria issues we omit varieties due to broken type, including the numerous small "A" varieties which may have come about through damaged type. We do, however, list the small "G", small "R" and tall "R" in "GWALIOR" as these were definitely the result of the use of type of the wrong size.

Variations in the length of the words due to unequal spacing when setting are also omitted.

PRICES. Prices quoted for unused stamps are for examples with original fresh colour and gum (unmounted in the case of King George VI issues from 1937). Stamps which have become toned by climate are worth much less. Prices for used stamps are for stamps with clearly identifiable authentic postmarks, and collectors should exercise caution when acquiring any stamps where the used prices are significantly higher than those quoted for unused, as many forgeries are in circulation.

FORGERIES. The Convention States overprints have been extensively forged on both unused and previously used Indian stamps, and rarities, particularly the errors of the Queen Victoria period, should not be purchased without a reliable guarantee. Also, genuine unused stamps have often been provided with forged postmarks; this applies especially to the King George VI period, and such stamps should only be acquired from reputable sources.

Printings up to and including that of December 1895 had the "SERVICE" overprint applied to sheets of stamps already overprinted with Type **1**. From the printing of September 1898 onwards both "SERVICE" and "CHAMBA STATE" were overprinted at the same time. Nos. O6, O8 and O12 only exist using the first method, and No. O16 was only printed using the second.

The thin seriffed "I" in "SERVICE" variety occurred on R. 19/12 of the September 1898 printing only.

The ½a., 1a., 2a., 3a., 4a., 8a. and 1r. (No. O15) are known with the broken "O".

Printings up to and including that of November 1895 had the "SERVICE" overprint applied to sheets already overprinted with Type 1. From December 1898 onwards "SERVICE" and "FARIDKOT STATE" were overprinted at one operation to provide fresh supplies of Nos. O1/3, O7 and O15.

The thin seriffed "I" variety occurs on the December 1898 overprinting only.

This State ceased to use overprinted stamps after 31 March 1901.

The overprint inverted errors occurred on R. 10/8 in the setting of 120, although it is believed that one pane of the ½a. had the overprint inverted on the entire pane. Examples of inverted overprints on the ½a., 1a. and 2a. with the lines much less curved are thought to come from a trial printing.

All six values exist with reprinted overprint. This has the words "JHIND" and "STATE" 8 and 9 mm in length respectively, whereas in the originals the words are 9 and 9½ mm.

7/12 *Set of* 6			£120	£225

The ½, 2 and 4a. (T **29**), and 1r. (all overprinted in black), are proofs.

All six values exist with reprinted overprints, and the error "AUTTIALLA STATE" has been reprinted in complete sheets on all values and in addition in black on the ½, 2, 4a. and 1r. Nearly all these however, are found with the word "REPRINT" overprinted upon them. On the genuine "AUTTIALLA" errors, which occur on R. 9/12 in the setting of 120, the word "STATE" is 8½ mm long; on the reprints only 7¾ mm.

Nos. 7c, 8b, 9b, 10b, 11d and 12c show 1¼ mm spacing between the two lines of overprint. The normal spacing is ¾ mm.

Nos. 7/8 and 10/12 exist with error "PUTTILLA", but their status is uncertain (*Price, from* £1000, *unused*).

Stamps from the first printing of November 1891 (Nos. O12/13, O15/16, O18/19) had the "SERVICE" overprint, as Type O **3**, applied to sheets already overprinted with Type **3**. Subsequent printings of Nos. O8/10*a*, O13*a* and O16*a* had both overprints applied at one operation as shown on Type O **4**.

The errors with "SERVICE" inverted occur from a trial printing, in two operations, during 1894, which was probably not issued. Some of the "SERV CE" varieties may also come from the same trial printing.

1902 (Jan)–**03**. Optd with Type O **4**.

Indian States is all we do, so if you are looking for….

the common,

the elusive,

or the rare

…. chances are we can help.

We have an in-depth stock of stamps, covers, postal stationery & collections by State from starter to gold medal winning exhibits. We look forward to working with you, whether it is to fill the gaps in your King George VI or your British Commonwealth collection, to form a world class exhibit, or simply because you find them exotic & fascinating. We are happy to **quote prices & availability against your want-list**.

I have collected Indian States for the past 30 years, given presentations, written articles and have exhibited them at the National & International level. I am also the immediately past editor of *"India Post"* - journal for the India Study Circle for philately in the UK. There is no need to worry about proper identification, reprints, forgeries etc. - our stock is backed by 30 years of knowledge, research & expertise as well as **full money back guarantee** if an item, sold by us, turns out to be improperly described. Furthermore, all Indian Feudatory States items priced over £500 can, upon request, be accompanied by a complimentary ISES "**Certificate of Authenticity**".

Naturally we are the biggest buyers of Indian States philatelic material - from individual rarities to exhibit collections to accumulations - no holding is too small or too large for us. Please contact us if you are considering parting with your holding. You may be pleasantly surprised at the **record setting prices we are paying** for Indian States philatelic material & British India Postal Stationery. I will gladly travel to you to discuss larger holdings.

I am always happy to discuss Indian States philately with fellow collectors & look forward to hearing from you.

Patiala became part of the Patiala and East Punjab States Union by 20 August 1948.

INDIAN FEUDATORY STATES

These stamps were only valid for use within their respective states, *unless otherwise indicated*.

Postage stamps of the Indian States, current at that date, were replaced by those of the Republic of India on 1 April 1950.

Unless otherwise stated, all became obsolete on 1 May 1950 (with the exception of the "Anchal" stamps of Travancore-Cochin which remained current until 1 July 1951 or Sept 1951 for the Official issues).

These stamps were all printed from the same plate of 96 stamps, 12×8, but for some values only part of the plate was used. There are 96 varieties of the ½, 4 and 8a., 72 of the 1a., 80 of the 2a. and not less than 88 of the ¼a.

The scroll ornament can be found pointing to either the right or the left.

There are two forms of the third native character. In the first five horizontal rows it is as in T **1** and in the last three rows as in T **4**.

These stamps have been reprinted: the ¼a. and ½a. in blocks of eight varieties (all showing scroll pointing to right), and all the values in blocks of 20 varieties (all showing scroll pointing to left). On the reprints the fourth character is of a quite different shape.

There are ten settings of Type **8**. The first setting (of 20 (4×5)) has capital "P" throughout. The remaining settings (of 16 (4×4)) have capital "P" and small "p" mixed.

For the first setting the 8a. and 1r. values were printed within the same block, the ten left-hand stamps being 8a. values and the ten right-hand stamps 1r.

The various stamps were distributed between the settings as follows:

Setting I — Nos. 8/c, 11/a, 13/a, 15/a, 18/19a, 21, 24/a
Setting II — Nos. 19, 19b, 21/b, 24, 24b/c, 34, 36, 39
Setting III — Nos. 9, 11, 13, 16, 26, 28, 30, 32
Setting IV — Nos. 20, 22, 25, 35, 37, 40
Setting V — Nos. 10, 10b/c, 20*a*, 27, 35*a*
Setting VI — Nos. 11, 12, 28, 28*a*, 29/a
Setting VII — Nos. 10/a, 12, 17, 19, 23, 25a, 27, 29, 33/4, 38, 40a/b
Setting VIII — Nos. 17, 33
Setting IX — Nos. 10/a, 12, 14/a, 17, 19, 23, 27, 29, 31, 33/4, 38
Setting X — Nos. 19, 34

There are four sizes of the central ornament, which represents an elephant's trunk holding a stick:—(*a*) 4 mm long; (*b*) 5 mm; (*c*) 6½ mm; (*d*) 11 mm. These ornaments are found pointing to right or left, either upright or inverted.

Ornaments (*a*) are found in all settings; (*b*) in all settings from Settings III to X; (*c*) in Settings I and II; and (*d*) only in Setting I.

The stamps of Bamra have been obsolete since 1 January 1895.

2		½a. deep ultramarine	†	£5000
		a. Dull blue	£500	£1000
		ab. Imperf (pair)	†	£3000

The "QUARTER ANNA" inscription on No. 1 is always doubled.

No. 1*b* also exists perforated on two sides only.

1921 (June?). Blurred impression. Soft wove paper. P 7 on two or three sides.

3	**1**	¼a. green (*shades*)	42·00	£300
4		½a. ultramarine (dull *to* pale)	26·00	£375

NOTE. As the small sheets of Barwani stamps were often not perforated all round, many of the earlier stamps are perforated on two or three sides only. Owing to the elementary method of printing, the colours vary greatly in depth, even within a single sheet.

1921. Clear impression. Vertically laid bâtonné paper. Imperf.

5	**1**	¼a. green (*shades*)	27·00	£160
6		½a. green (*shades*)	7·00	
		a. Perf 11 at top or bottom only	7·00	

It is suggested that No. 5 may be an error due to printing from the wrong plate.

1922. Clear impression. Thickish glazed wove paper. P 7 on two or three sides.

7	**1**	¼a. dull blue	£180	

1922. Smooth, soft medium wove paper. P 7 on two or three sides.

		c. Perf compound of 12 and 6	75·00	£100
		d. Perf 7	£1500	£1700
		da. On wove paper	£5000	

No. 18 was issued in sheets of 12 (3 panes of 4) and was printed on paper showing a sheet watermark of Britannia and a double-lined inscription. No. 18d was only issued in booklet panes of 4.

1925. Vertically laid bâtonné paper. P 11.

19	**1**	¼a. blue (pale to deep)	2·50	11·00
		a. *Tête-bêche* (horiz pair)	£4500	

No. 19 was issued in sheets of eight and was printed on paper with a sheet watermark of a shell and an inscription "SHELL" in double-lined capitals.

		a. Imperf between (horiz pair)	£4500	
28/31 *Set of 4*			£120	£450

No. 26 was printed in sheets of eight (4×2) with the two centre pairs *tête-bêche* while No. 27, in similar sheets, had the two horizontal rows *tête-bêche*. Both sheets are always found with one long side imperforate.

Nos. 28/31 were printed in sheets of eight, the two lower values existing either 4×2 or 2×4 and the two higher values 4×2 only. No *tête-bêche* pairs were included in these printings. It is believed that a small printing of No. 31 was produced in sheets of four, but details are uncertain.

36B		4a. olive-green	32·00	70·00

The measurements given in the heading indicate the vertical spacing between impressions. There are eight settings of this interesting issue: four "Close" where the overall stamp dimensions from centre to centre of perfs vary in width from 21½ to 23 mm and in height from 25 to 27½ mm; three "Wide", width 23–23½ mm and height 29–30 mm and one "Medium" (26½×31 *mm*) (No. 34*Bb* only).

1933–47. P 11.

		A. Close setting (3–4½ mm). Thick, cream-surfaced wove paper (1933 and 1941 (No. 38Aa))

Stamps printed in red with designs similar to Types **3** and **5** were intended for fiscal use.

STAMP BOOKLETS

Nos. 1/17, 18d/da and 20/5 are believed to have been issued in sewn or stapled booklets, usually containing 32 examples of one value in blocks of four. All these early booklets had plain covers, often in shades of brown. Few complete booklets have survived from this period.

Nos. 32/47, produced by the *Times of India* Press in a series of nine printings between 1932 and 1947, were only issued in booklet form. Booklets from the 1932, 1933, 1937 and 1939 printings had plain card or paper covers in various colours, usually containing eight blocks of four, except for the 1933 printing, which contained 20 blocks of four. Booklets from the 1945 printing had plain white tissue covers from the same stock as the interleaving. All these booklets were stapled at left.

The following booklets, from a printing in 1941, and a series of three printings in 1947, had printed covers, produced by a handstamp in the case of Nos. SB14/15.

1941. Buff, green (No. SB3) or blue (No. SB7) card covers inscribed "BARWANI STATE POSTAGE STAMPS", booklet value in brackets and number and value of stamps thus "(Rs 4) 32 2 Annas". Panes of 4 with margin at left only. Stapled.

The correct English inscription on these stamps is "H.H. NAWAB SHAH JAHAN BEGAM". In the case of Nos. 22 and 23 the normal stamps are spelt "BEGAN" and examples with "BEGAM" are "errors".

As the stamps were printed from lithographic stones on which each unit was drawn separately by hand, numerous errors of spelling occurred. These are constant on all sheets and are listed. Some of our illustrations inadvertently include errors of spelling.

ILLUSTRATIONS. Types **1/3a** and **6/12a** are shown actual size.

EMBOSSING. Nos. 1/99 were only valid for postage when embossed with the device, in Urdu, of the ruling Begam. On T **1/3** and **6** to **12a**. this was intended to fill the central part of the design. Almost all varieties can be found with the embossing inverted or sideways, as well as upright.

13		½a. brown-red	21·00	

The ¼a. shows the "N" of "NAWAB" reversed on R. 8/4.
Nos. 12/13 sometimes come with gum.

1884. T **5** again redrawn. Sheets of 32 (4×8), some with value in parenthesis, others not. Perf.

14		¼a. greenish blue	9·00	24·00
		a. "ANAWAB" (R. 8/1–4)	21·00	

In this plate there is a slanting dash under and to left of the letters "JA" of "JAHAN," instead of a character like a large comma, as on all previous varieties of this design. With the exception of R. 1/1 all stamps in the sheet show "N" of "JAHAN" reversed.

1895. T **5** again redrawn. Sheets of eight (2×4). Laid paper.

15		¼a. red (*imperf*)	7·00	5·50
16		¼a. red (*perf*)	—	£1200

In these cases where the same design has been redrawn several times, and each time in a number of varieties of type, it is not easy to distinguish the various issues. Nos. 6 and 7 may be distinguished from Nos. 10 and 12 by the presence or absence of the parenthesis marks (); 8, 9 and 11 differ principally in colour; 8 and 15 are very much alike, but differ in the value as well as in paper.

		b. "SAH" (R. 1/4)	4·75	14·00
		c. "NAWA" and "JANAN" (R. 3/2)	4·75	14·00

The ¼a. of this issue is in *blue-green*, or *greenish blue*. Both values were printed from the same stone, the value alone being altered. There are therefore the same varieties of each. These are the only stamps of this design on laid paper.

Both values show the "N" of "NAWAB" reversed on R. 1/1–4, R. 2/1–4, R. 3/1–4 and the "N" of "JAHAN" reversed on R. 1/1–4, R. 2/1–7, R. 3/4.

1886. T **15** redrawn. Sheets of 32 (4×8). Wove paper.

56		½a. red (*imperf*)	1·00	1·75
		a. "SAH" (R. 1/4)	5·50	10·00
		b. "NAWABA" (R. 6/3–4)	3·75	8·00

The ¼a. varies from *yellow-green* to *deep green*.

All examples of the ¼a. value show the "N" of "NAWAB" reversed. On the same value the "N" of "JAHAN" is reversed on all positions except R. 3/2, R. 4/1, R. 4/3. On the ½a. both "N"s are always reversed.

1888. T **15** again redrawn. Sheets of 32 (4×8), letters in upper angles smaller. "N" of "NAWAB" correct. Wove paper.

57		¼a. deep green (*imperf*)	1·00	2·00
		a. "SAH" (R. 6/2)	6·00	9·50

		b. "NAWA" (R. 4/4)	11·00	13·00
		c. Imperf between (vert pair)	£375	

Nos. 50 to 58 have the dash under the letter "JA" as in No. 14.

1891. T **15** again redrawn. Sheets of 32 (4×8), lettered "NWAB." Wove paper.

(a) Imperf

Some of the previous stamps remained on sale (and probably in use) after the issue of the series of 1902, and some of these were afterwards put on sale with the new form of embossing; fresh plates were made of some of the old designs, in imitation of the earlier issues, and impressions from these were also sold with the new embossed device. We no longer list these doubtful items.

17	**10**	4a. green	80·00	85·00
		a. Yellow-green	35·00	40·00

All the above stamps are lithographed in large sheets, containing as many varieties of type as there are stamps in the sheets.

11 Raja protecting Sacred Cows

Type **11** was produced from separate clichés printed as a block of four. The same clichés were used for all values, but not necessarily in the same order within the block. The Devanagri inscriptions, "RAJ BUNDI" at top and the face value at bottom, were inserted into the basic clichés as required so that various differences exist within the 58 settings which have been identified.

The denominations may be identified from the following illustrations. The ½a., 3a. and rupee values can be easily distinguished by their colours.

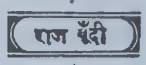
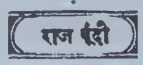
The nine versions of the inscriptions are as follows:



A

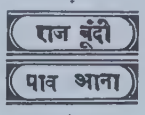


B

Top tablet

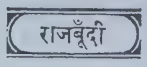
Type A. Top tablet has inscription in two separate words with a curved line over the first character in the second. The second word has three characters. Bottom tablet has short line above the first character in the second word.

Type B. Top tablet as Type A, but without the curved line over the first character in the second word. Bottom tablet as Type A.



C

Type C. Top tablet as Type B, but with large loop beneath the first character in the second word. This loop is usually joined to the main character, but is sometimes detached as in the illustration. Bottom tablet as Type A.



D

Top tablet

E

Bottom tablet

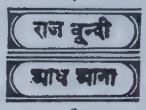
Type D. Top tablet in thinner lettering with the inscription shown as one word of six characters. The fourth character has a curved line above it, as in Type A, and a loop beneath, as in Type C. Bottom tablet as Type A, but thinner letters.

Type E. Top tablet as Type C. Bottom tablet shows a redrawn first character to the second word. This has the line at top extending over the entire character.

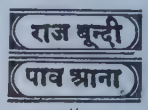
F

Bottom tablet

Type F. Top tablet as Type B. Bottom tablet as Type E, but first character in second word differs.



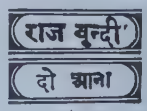
G



H

Type G. Top tablet as Type C, but without dot over first character in second word. There are now four characters in the second word. Bottom tablet as Type E.

Type H. Top tablet as Type G, but with characters larger and bolder. Bottom tablet as Type E, but with characters larger and bolder.



I

Type I. Top tablet as Type H. Bottom tablet as Type E.

Some settings contained more than one inscription type within the block of four so that *se-tenant* examples are known of Type B with Type C (¼, 1, 2, 4, 8, 10 and 12a.), Type C with Type E (¼, ½ and 4a.) and Type E with Type F (½ and 4a.). Type F only exists from this mixed setting.

1914 (Oct)–**41.** T **11.** Typo. Ungummed paper except for Nos. 73/8.

I. Rouletted in colour

(a) Inscriptions as Type A. Thin wove paper (1916–23)

18		½a. black	3·50	11·00
19		1a. vermilion	12·00	32·00

25		1r. reddish violet (1917)	40·00	£140

A special printing of the 1a. took place in late 1917 in connection with the "OUR DAY" Red Cross Society Fund. This had the "RAJ BUNDI" inscription in the bottom tablet with the face value below it. The top tablet carried four Devanagri characters for "OUR DAY". No evidence has been found to suggest that this 1a. stamp was used for postal purposes (*Price*, £250 *unused*).

FISCAL USE. Collectors are warned that the low values of the later settings of Type **11** were extensively used for fiscal purposes. Stamps which have been fraudulently cleaned of pen-cancels, regummed or provided with forged postmarks are frequently met with. Particular care should be exercised with examples of Nos. 58/*a*, 64/5, 68/70, 74/5*a* and 77.

20	**7**	12a. green (R.)	£500	£700
21	**8**	1r. ultramarine (R.)	£550	

Nos. 1 to 21 were in sheets of 24. They seem to have been overprinted and perforated as required. Those first issued for use were perforated, but they were subsequently supplied imperf, both to collectors and for use. Nos. 17 to 21 were some of the last supplies. No rule seems to have been observed as to the colour of the overprinted monogram; pale blue, rose and mauve were used from the first. The pale blue varies to greenish blue or blue-green, and appears quite green on the yellow stamps. The lake is possibly a mixture of the mauve and the rose—it is a quite distinct colour and apparently later than the others. Examples without overprint are either remainders left in the Treasury or copies that have escaped accidentally; they have been found sticking to the backs of others that bore the overprint.

Varieties may also be found doubly overprinted, in two different colours.

Originally printings of the ¼a. and ½a. were in sheets of eight (stone I), but this was subsequently increased to 24 (4×6). The 1a. and 2a. were always in sheets of four.

Nos. 25d/da were printed from stone I and care is needed to distinguish this laid paper printing from some of the reprints on similar paper. Stamps from stone I are without marginal lines and are very clear impressions; reprints from stone IV have thick marginal lines and, in those shades similar to No. 25, show indistinct impressions.

*The prices quoted for No. 30 are for examples with a clear impression of the T **9** "TRS" monogram. The type **14** 2a is often found as a remainder with the T **17** "RNS" monogram, both imperf and pin-perf. (*Prices from* £50, *unused or c.t.o.*)

(17)

The stamps formerly catalogued with large overprint "R.N.S." (T **17**) are now believed never to have been issued for use.

Remainders are also found with overprint "P.S.", the initials of Padam Singh who succeeded Raghunath Singh in the direction of the Post Office, and with the original monogram "R.S." in a damaged state, giving it the appearance of a double-lined "R."

The stamps of Bussahir have been obsolete since 1 April 1901. Numerous remainders were sold after this date, and all values were later reprinted in the colours of the originals, or in fancy colours, from the original stones, or from new ones. Printings were also made from new types, similar to those of the second issue of the 8a., 12a. and 1r. values, in sheets of eight.

Reprints are frequently found on laid paper.

Collectors are warned against obliterated copies bearing the Rampur postmark with date "19 MA 1900." Many thousand remainders and reprints were thus obliterated for export after the closing of the State Post Office.

In the second setting (March 1923) there were 36 of Type **11** and 12 of Type **12**, and the centre of the figure is above the space between "Two" and "Pies". The third setting (June 1924) consists of stamps with Type **13** only.

The fourth setting (1929) was also in sheets of 48. No. 49b being the first stamp in the fourth row.

No. 47c is from the bottom row of a sheet and was re-perforated 12½ line at foot as the bottom line of 14 perforations were too far from the design.

"DOUBLE PRINTS". The errors previously listed under this description are now identified as blanket offsets, a type of variety outside the scope of this catalogue. Examples occur on issues from 1938 onwards.

SPACING OF OVERPRINTS AND SURCHARGES. The typeset overprints and surcharges issued from 1939 onwards show considerable differences in spacing. Except for specialists, however, these differences have little significance as they occur within the same settings and do not represent separate printings.

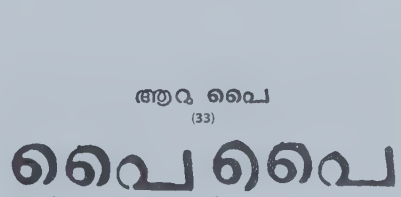
SIX PIES



Due to similarities between two Malayalam characters some values of the 1948 provisional issue exist with an error in the second word of the Malayalam surcharge. On Nos. 119, 122 and O103 this occurs twice in the setting of 48. No. 125 shows four examples and No. O104b one. Most instances are as illustrated above, but in two instances on the setting for No. 125 the error occurs on the second character.

Nos. 1/6 were each issued in sheets of ten (5×2), but may, on the evidence of a single sheet of the ½ pice value, have been printed in sheets of 20 containing two of the issued sheets *tête-bêche*.

Research has identified individual characteristics for stamps printed from each position in the sheet.

The same research suggests that the type remained assembled during the entire period of production, being amended as necessary to provide the different values. Seven main settings have been identified with changes sometimes occurring during their use which form sub-settings.

The distribution of stamps between the main settings was as follows:

Setting I — ½p.
Setting II — ½a., 1a.
Setting III — 1a.
Setting IV — ½p., ½a., 1a.
Setting V — ½p.
Setting VI — ½p. (No. 2). ¼a.
Setting VII — 2a.

The listed constant errors all occurred during Setting IV.

In No. 1c the three characters forming the second word in the lower inscription are transposed to the order (2) (3) (1) and in No. 1d to the order (3) (2) (1).

On Nos. 1b, 4b and 5c the line which normally appears above the upper inscription is transposed so that it appears below the characters.

All values show many other constant varieties including mistakes in the corner and border ornaments, and also both constant and non-constant missing lines, dots and characters.

Examples of complete forgeries and faked varieties on genuine stamps exist.

Stamps perforated 12 and 11 were printed in sheets of 12 (4×3) which were imperforate along the top, bottom and, sometimes, at right so that examples exist with one or two adjacent sides imperforate. The ¼a., 1a., 1a.3p. and 4a. perf 10½ were printed in similar sheets of 12, but the ½a. perf 10½ (Nos. 10b, c, ca) was always in sheets of four, imperforate at top, bottom and right, comprising dies I (left vertical pair) and II (right vertical pair) *se-tenant*. Stamps perforated 10 were printed in sheets of four either imperforate at top, bottom and right-hand side or fully perforated.

Dungarpur became part of Rajasthan by 15 April 1948.

PRICES FOR STAMPS ON COVER	
Nos. 1/7	—
Nos. 8/11	*from* × 5
Nos. 12/15	—
Nos. 16/40	*from* × 20

All the stamps of Duttia were impressed with a circular handstamp (usually in *blue*) before issue.

This handstamp shows the figure of Ganesh in the centre, surrounded by an inscription in Devanagari reading "DATIYA STET POSTAJ 1893". Stamps were not intended to be used for postage without this control mark.

PROCESS. Nos. 1/15 were type-set and printed singly. Nos. 16/40 were typo from plates comprising eight or more clichés.

GUM. The stamps of Duttia (*except* No. 25c) were issued without gum.

Maharaja Bhawani Singh, 1857–1907

Rectangular labels each showing a double hand-drawn frame (in black for the 1a. and in red for the others), face value in black and the Ganesh handstamp are known on thin cream (½a.), rose (1a.), orange (2a.) or pale yellow (4a.) paper. These are considered by some specialists to be the first stamps of Duttia, possibly issued during 1893, but the evidence for this is inconclusive (*Price for set of 4, £25,000, unused*).

Faridkot signed a postal convention with the Imperial Government which led to the provision of India issues overprinted "FARIDKOT STATE" from 1 January 1887. These are listed in the Convention States section.

Although the previous issues were no longer valid for postal purposes the state authorities continued to sell them to collectors for many years after 1887. Initially remaining stocks of Nos. N1/7 were on offer, but these were soon supplemented by Type N **1** handstamped in other colours, examples of a ½a., handstamped in various colours, which had originally been prepared in 1877 and by a replacement 1p, as Type N **3**, (*Price* £2.00 *unused*, *tête-bêche pair*, £225, *unused*) which had not done postal duty before the convention came into force. The sale of such items was clearly an important source of revenue as the 1f. as Type N **1**, yet another version of the 1p. and the ½a. subsequently appeared printed in sheets by lithography for sale to stamp collectors.

In Wyon's ¼a. stamp the fraction of value is closer to the end of the label than in the B.W. issue. In the Wyon ¼a. and ½a. the value in English and the label below are further apart than in the B.W.

Wyon's ¼a. measures 19½×20 mm and the ½a. 19½×20½ mm; both stamps from the Bradbury plates measure 19¾×21½ mm.

		a. Black opt	—	£1000
O3		2a. sage-green	—	£950
		a. Black opt	—	£325

At least ten different handstamps as Type O **1** were used to produce Nos. O1/17. These differ in the size, shape and spacing of the characters. The prices quoted are for the cheapest versions where more than one is known to exist on a particular stamp.

Imitations of these overprints on genuine stamps and on reprints are found horizontally or vertically in various shades of red, in magenta and in black.

		a. Emerald (1941)	32·00	35·00
		b. Yellow-green (shades) (1943)	14·00	30·00

In No. 2 the whole design is composed of half-tone dots. In No. 1 the dots are confined to the oval portrait.

*Two different perforating heads were used for Nos 1/2*b*. Nos. 1, 1*b* and 2*a* are P 11.3, whereas Nos. 1*a*, 1*c*, 2 and 2*b* are P 10.8. Apart from the difference in shade, No. 1 can be distinguished from No. 1*b* by the height of the stamp. No. 1 was printed in panes with wide outer imperforate margins, giving stamps 35-37 mm high. The average height of Nos. 1*a*/*c* and 2/*b* is only 28-30 mm.

1905 (June). No. 6a surch "QUARTER ANNA" in Devanagari, as T **6**.

15	**3**	¼a. on ½a. brown-purple	13·00	30·00

On 1 March 1908 the Indore State postal service was amalgamated with the Indian Imperial system. Under the terms of the agreement stamps showing the Maharaja would still be used for official mail sent to addresses within the state. Initially Nos. 9/14 were used for this purpose, the "SERVICE" overprints, Nos. S1/7, being withdrawn.

Nos. 30/32 are as Type **7**, but larger, size 23×28 mm.

Five different perforating heads were used for this issue: (*a*) comb 13.6; (*b*) comb 13.9; (*c*) line 13.2; (*d*) line 13.8; (*e*) line 14.2. Values on which each perforation occur are indicated above.

Nos. 21a, 23a, 24a and 26a were specifically ordered by the state government in 1933 and are known used for postage *circa* 1938–42. A plate proof of the 1r. in green and carmine is also known postally used (*Price of pair* £45 *unused*, £500 *used*).

Nos. 16/19 and 28/32 also exist as imperforate plate proofs, but these were never sent to India.

*Nos. 1c/d, in pale slate-blue, were printed from the *original* state of the first stone of 12 (4×3), which was then extensively redrawn. Nos. 1*a/b*, in pale blue or ultramarine, were printed from the second, redrawn state. In the original state the inner white lines are thin, and on all sheet positions there is a noticeable gap between the top of the umbrella and the inner frameline (below the "U" of "JAIPUR"). In the redrawn state the inner white lines are much thicker, and on all positions except R. 1/1 the top of the umbrella has been raised so that it touches or nearly touches the inner frameline. These differences can clearly be seen in the enlarged illustrations of R. 3/2 on the sheet in its original and redrawn states.

"DOUBLE PRINTS". Examples of Nasik litho-printed stamps showing doubling of all or part of the design or subsequent overprint are not uncommon. These are not true "double prints", in that they were not the result of two impressions of the inked printing plate, but were caused by incorrect tension in the rubber "blanket" which transferred ink from the cylinder to the paper. Such varieties are outside the scope of this catalogue.

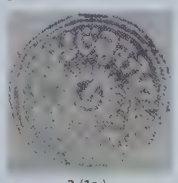
ILLUSTRATIONS. Designs of Jammu and Kashmir are illustrated actual size.

Maharaja Ranbir Singh, 1857–1885

1 (½a.)



2 (1a.)

3 (4a.)

Characters denoting the value (on the circular stamps only) are approximately as shown in the central circles of the stamps illustrated above.

These characters were taken from Punjabi merchants' notation and were not familiar to most of the inhabitants of the state. Type **1** was certainly the ½ anna value, but there has long been controversy over the correct face values of Types **2** and **3**.

The study of surviving material suggests that, to some extent, this confusion involved contemporary post office officials. Although covers posted at Jammu, where the stamps were in use for twelve years, show Type **2** used as the 1a. value and Type **3** as the 4a., those originating from Srinagar (Kashmir) during 1866–68 show both Types **2** and **3** used as 1a. stamps.

In the following listing we have followed contemporary usage at Jammu and this reflects the prevailing opinion amongst modern authorities.

GUM. The stamps of Jammu and Kashmir were issued without gum.

PRICES. Prices for the circular stamps, Nos. 1/49, are for cut-square examples. Cut-to-shape examples are worth from 10% to 20% of these prices, according to condition.

48	**1**	½a. yellow	£250	

(c) Thick yellowish wove paper

49	**1**	½a. red (1878)	—	£1700

Forgeries exist of the ½a. and 1a. in types which were at one time supposed to be authentic.

Reprints and imitations (of which some of each were found in the official remainder stock) exist in a great variety of fancy colours, both on native paper, usually thinner and smoother than that of the originals, and on various thin European *wove* papers, on which the originals were never printed.

The imitations, which do not agree in type with the above illustrations, are also to be found on *laid* paper.

All the reprints, etc. are in oil colours or printer's ink. The originals in oil colour are usually blurred, particularly when on native paper. The reprints, etc. are usually clear.

The circular and rectangular stamps listed under the heading "Special Printings' did not supersede those in *red*, which was the normal colour for Jammu down to 1878. It is not known for what reason other colours were used during that period, but these stamps were printed in 1874 or 1875 and were certainly put into use. The rectangular stamps were again printed in *black* (jet-black, as against the greyish black of the 1867 printings) at that time, and impressions of the two periods can also be distinguished by the obliterations, which until 1868 were in *magenta* and after that in *black*.

There are reprints of these, in *oil* colour, *brown-red* and *bright blue*, on native paper; they are very clearly printed, which is not the case with the originals in *oil* colour.

Of the above, the ½a. and 1a. were printed from the same plate of 25 as Nos. 88/9, the ¼a. and 2a. from a new plate of ten (5×2), the top row being ¼a. and the lower 2a., and the 4a. and 8a. from single dies. Varieties at one time catalogued upon European papers were apparently never put into circulation, though some of them were printed while these stamps were still in use.

Nos. 86 to 101 are in watercolour.

No. 91a was used at Srinagar, in conjunction with an India ½a., and was cancelled "KASHMIR 5/L-6".

FOR USE IN JAMMU AND KASHMIR

In the following issues there are 15 varieties on the sheets of the ¼a., ¼a. and ½a.; 20 varieties of the 1a. and 2a. and eight varieties of the 4a. and 8a. The value is in the lower part of the central oval.

Well-executed forgeries of the ¼a. to 8a. have come from India, mostly postmarked; they may be detected by the type, which does not agree with any variety on the genuine sheets, and also, in the low values, by the margins being filled in with colour, all but a thin white frame round the stamp. The forgeries of the 8a. are in sheets of eight like the originals.

Other forgeries of nearly all values also exist, showing all varieties of type. All values are on thin, coarse wove paper.

In February 1890, a forgery, in watercolour, of the ½a. orange on thin wove or on thin laid paper appeared, and many have been found genuinely used during 1890 and 1891 (*Price* £7).

Nos. 143 and 144 were never issued.

Examples of the ¼a. brown, ½a. orange-red and 1a. green on wove paper exist with clean-cut perf 12.

There is a reference in the Jammu and Kashmir State Administration Report covering 1890–91 to the re-introduction of perforating and the machine-gumming of paper at the Jammu printing works.

The few known examples, the ¼a. being only recorded used, the others unused or used, would appear to date from this period, but there is, as yet, no direct confirmation as to their status.

T **19** represents a ¼a. stamp, which exists in sheets of twelve varieties, in *red* and *black* on thin wove and laid papers, also in *red* on native paper, but which does not appear ever to have been issued for use. It was first seen in 1886.

The ¼a. *brown* and the 4a. *green* both exist on ordinary white laid paper and the ½a. *red* on native paper. None of these are known to have been in use.

The perforated stamps ceased to be used for postal purposes in July 1885, but were used as fiscals to at least the mid-1920s. Other varieties exist, but they must either be fiscals or reprints, and it is not quite certain that all those listed above were issued as early as 1885.

Jind became a Convention State and from 1 July 1885 used overprinted Indian stamps.

71		5r. brown	40·00	£500
63/71 *Set of* 9			£200	£1300

*For this issue, ornaments were added on either side of the English value (except in the ¼a.) and the inscription in the right label was without stop, except in the case of No. 65.

In Nos. 70 and 71 the value is expressed as "RUPIES" instead of "RUPEES".

Initial printings of the ¼a., 1a. and 4a. values were in sheets of 20 containing two panes of ten separated by a central gutter margin. Stamps from these sheets measure 20×25½ mm and have heavier screening dots on the margins than on the designs. Subsequent printings of these stamps, and of other values in the set, were from single pane sheets of 20 on which the designs measured 19½×23¾ mm and with the screening dots uniform across the sheet.

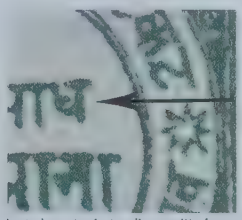
The state was under Imperial administration from January 1888 to November 1891 and it is possible that Nos. 1/2 may have appeared in late 1887.



Last character in top line omitted

(Typo Balram Press, Raj-Nandgaon)

1893 (1 Jan)–**94.** Printed in sheets of 16 (4×4). Imperf.

(a) Stamps printed wide apart (8 to 10 mm) without wavy lines between them. Thin, toned wove paper

3	2	½a. dull to deep green	16·00	£140
4		2a. red	18·00	£140
		b. Dull rose	18·00	£140

(b) Stamps printed closer together (4 to 7 mm) with wavy lines between them. Thin, white wove paper (1894)

5	2	½a. green	40·00	£100
		a. Last character in top line omitted (R. 4/3)	£160	
6		1a. rose	90·00	£160
		ba. Laid paper	£325	

There were three settings of Type **2** with a number of separate printings made from the third: Setting I - Nos. 3, 4, 4*b*, O2

Setting II - Nos. 5, 6

Setting III - Nos. 5, 6ba, O3, O4, O4*a*, O5 and subsequent reprints.

The same clichés were used for all values with the face value inscriptions changed. These exist in two different sizes with both occurring on the ½a., the small on the 1a. and the large on the 2a. except for No. O5 which has the small type.

The ordinary postage stamps of Nandgaon became obsolete on 1 July 1894.

OFFICIAL STAMPS

(O **1**) ("M.B.D." = Mahant Balram Das)

1893. Handstamped with ruler's initials in oval. Type O **1**, in purple.

O1	**1**	½a. blue	£500	
O2		2a. rose	£1300	

1894. Handstamped with Type O **1** in purple.

(a) Stamps printed wide apart (8 to 10 mm) without wavy lines between them. Thin, toned wove paper

O2*a*	**2**	½a. dull green	£800	
O3		2a. red	45·00	£225

(b) Stamps printed closer together (4 to 7 mm) with wavy lines between them. Thin, white wove paper

O4	**2**	½a. yellow-green	10·00	20·00
		a. Sage-green	11·00	
O5		1a. rose (*shades*)	18·00	60·00
		a. Thin laid paper	18·00	£140
O6		2a. rose (*shades*)	14·00	40·00

Further printings took place in 1895 after the Official stamps were withdrawn from postal use on 31 December 1894. These were all on thin, white wove paper with the ½a. and 2a. in slightly different shades and the 1a. in brown or ultramarine.

There is a forgery of the handstamp, Type O **1**, which shows 8 mm between the two ornaments below the initials instead of the normal 4 mm.

*Three 'regular' line perforations were used, measuring P 11, 11½ or 12, as noted above for the individual values. There was also an irregular P 9½-10 with large holes, listed separately as Nos. 17d/30d. Stamps P 9½-10 are invariably without gum, whereas stamps with the other perforations are gummed.

Values to 5r. except the 1a., are inscribed "POSTAGE", and the remaining values "POSTAGE & REVENUE".

The central portrait of Type **3** is taken from a half-tone block and consists of large square dots. The portrait of Type **4** has a background of lines.

Owing to a lack of proper State control considerable quantities of these stamps circulated at below face value and the issue was subsequently withdrawn, supplies being exchanged for the 1939–42 issue. We are, however, now satisfied that the lower values at least did genuine postal duty until 1939.

Used prices are for stamps cancelled-to-order, postally used examples being worth considerably more.

PRICES FOR STAMPS ON COVER

No. 1	*from* × 3
Nos. 1*a*/2	*from* × 2
Nos. 3/63	*from* × 10
Nos. O1/10	*from* × 30

Poonch was ruled by a junior branch of the Jammu and Kashmir princely family and by treaty, was subject to the "advice and consent" of the Maharaja of that state.

The Poonch postal service operated an office at Kahuta in the Punjab which acted as the office of exchange between the state post and that of British India.

GUM. The stamps of Poonch were issued without gum, except for some examples of Nos. 7/10.

The stamps of Poonch are all imperforate, and handstamped in watercolours.

DATES OF ISSUE. Precise dates of issue are difficult to establish, with some papers of the 1885-94 series reappearing after long intervals. It is, however, known that the 1 pice value (T **7**) was not issued until 1887.

ILLUSTRATIONS. Designs of Poonch are illustrated actual size.

RAJASTHAN

Rajasthan was formed in 1948–49 from a number of States in Rajputana; these included Bundi, Jaipur and Kishangarh, whose posts continued to function more or less separately until ordered by the Indian Government to close on 1 April 1950.

The name "Saurashtra", corrupted to "Sorath" or "Soruth", was originally used for all the territory later known as Kathiawar. Strictly speaking the name should have been applied only to a portion of Kathiawar including the state of Junagadh. As collectors have known these issues under the heading of "Soruth" for so long, we retain the name.

GUM. Nos. 1/47 of Soruth were issued without gum.

The settings of Nos. 5/7*a* are unknown.

Nos. 10/15, and probably Nos. 8/9, were printed in sheets of 20 (4×5). The same type was used throughout, but changes occurred as the loose type was amended.

Specialists now recognise four main settings for the 1a., one of which was amended for the 2a. and another for the 4a. There are sub-settings within some of these groups:

1a. Setting I (pink wove paper) (No. 8 with No. 8a at R. 1/3)
Setting II (pink wove paper) (No. 8)
Setting III (pink wove paper) (No. 10)
Setting IV (Devanagri numerals only) (pink wove paper) (Nos. 10/b)
Setting IVA (Devanagri numerals only) (azure vertical laid paper) (Nos. 11, 11b)
Setting IVB (Devanagri and Gujarati numerals mixed) (azure horizontal laid paper) (Nos. 11/a, 11d, 12)
Setting IVC (Devanagri and Gujarati numerals mixed) (azure or white vertical laid paper) (Nos. 11, 11c/d, 11e, 12/b, 12e/f)
Setting IVD (Devanagri and Gujarati numerals mixed) (azure vertical laid paper) (Nos. 11, 11d, 12, 12d)
Setting IVE (Gujarati numerals only) (white vertical laid paper) (Nos. 13/a)
2a. Setting I (probably derived from 1a. Setting II) (yellow wove paper) (No. 9)
4a. Setting IA (Gujarati numerals only) (white vertical laid paper) (Nos. 14/a)
Setting IB (Devanagri numerals only) (white horizontal laid paper) (No. 15)
Setting IC (Devanagri numerals only) (white vertical laid paper) (Nos. 15/a)
Setting ID (only Gujarati numerals so far identified) (white vertical laid paper) (Nos. 14, 14b)

Settings IVA/D of the 1a. were subsequently adapted to form settings IA/D of the 4a.

Official imitations, consisting of 1a. carmine-red on white wove and white laid, 1a. black on blue wove, 4a. black on white wove, 4a. black on blue wove, 4a. red on white laid—all imperforate; 1a. carmine-red on white laid, 1a. black on blue wove, 4a. black on white laid and blue wove—all perforated 12, were made in 1890. Entire sheets of originals have 20 stamps (4×5), the imitations only 4 or 16.

There is a very wide range of colours in both values. The laid paper, on which imperforate printings continued to appear until 1912, is found both vertical and horizontal.

The 1a. was originally issued in sheets of 15 (5×3), but later appeared in sheets of 20 (5×4) with marginal inscriptions. Stamps were sometimes printed in double sheets showing two impressions of the plate printed *tête-bêche* on the same or opposite sides of the paper.

The 4a. was in horizontal strips of five. No. 20 exists as a sheet of ten (5×2), with two impressions of the plate printed *tête-bêche*, and No. 23 in a similar sized sheet but with both impressions upright.

The first plate of the 3p., which printed No. 44, produced unsatisfactory impressions, so it was replaced by a second plate, producing two panes of 16 (4×4), from which No. 45 comes. Sheets printed from the first plate had very large margins.

The 1a. is also from a new plate, giving a clearer impression. Sheets of 16 stamps (4×4).

The state was occupied by Indian troops on 9 November 1947 following the flight of the Nawab to Pakistan.

UNITED STATE OF SAURASHTRA

The administration of Junagadh state was assumed by the Government of India on 9 November 1947. An Executive Council took office on 1 June 1948.

Under the new Constitution of India the United State of Saurashtra was formed on 15 February 1948, comprising 221 former states and estates of Kathiawar, including Jasdan, Morvi, Nawanagar and Wadhwan, but excluding Junagadh. A referendum was held by the Executive Council of Junagadh which then joined the United State on 20 January 1949. It is believed that the following issues were only used in Junagadh.

The following issues were surcharged at the Junagadh State Press.

MANUSCRIPT OVERPRINTS. Nos. 49, 50, 57, 58, 59 and 60 are known with manuscript overprints reading "Service" or "SARKARI" (in English or Gujerati script), usually in red. Such provisionals were used at Gadhda and Una between June and December 1949 (*Price from* £190 *each, used on piece*).

The United State of Saurashtra postal service was incorporated into that of India on 30 March 1950.

TRAVANCORE

PRICES FOR STAMPS ON COVER	
Nos. 1/77	*from* × 10
Nos. O1/108	*from* × 15

(16 cash = 1 chuckram; 28 chuckrams = 1 rupee)

"Anchel" or "Anchal" = Post Office Department.

The stamps of Travancore were valid on mail posted to Cochin.

PRINTERS. All stamps of Travancore were printed by the Stamp Manufactory, Trivandrum, *unless otherwise stated*.

PRINTING METHODS. The dies were engraved on brass from which electrotypes were made and locked together in a forme for printing the stamps. As individual electrotypes became worn they were replaced by new ones and their positions in the forme were sometimes changed. This makes it difficult to plate the early issues. From 1901 plates were made which are characterised by a frame (or "Jubilee" line) round the margins of the sheets.

Up to the 6 cash of 1910 the dies were engraved by Dharmalingham Asari.

SHADES. We list only the main groups of shades but there are many others in view of the large number of printings and the use of fugitive inks. Sometimes shade variation is noticeable within the same sheet.

Maharaja Rama Varma X, 1885–1924

1 Conch or Chank Shell

1888 (16 Oct). As T **1**, but each value differs slightly. Laid paper. P 12.

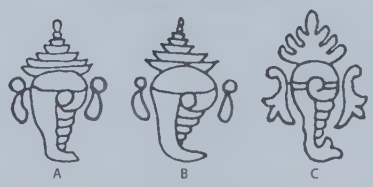
1	**1**	1ch. ultramarine (*shades*)	5·00	5·00
2		2ch. red	8·00	12·00
3		4ch. green	25·00	18·00
1/3 *Set of* 3			35·00	32·00

The paper bears a large sheet watermark showing a large conch shell surmounted by "GOVERNMENT" in large outline letters, in an arch with "OF TRAVANCORE" at foot in a straight line. Many stamps in the sheet are without watermark.

These stamps on laid paper in abnormal colours are proofs.

The paper is normally horizontally laid, but the 1ch. is also known on vertically laid paper.

2



Three forms of watermark Type **2**. (*as seen from the back of the stamp*)

WATERMARKS AND PAPERS.

Type A appeared upright on early printings of the 1, 2 and 4ch. values on odd-sized sheets which did not fit the number of shells. Later it was always sideways with 15 mm between the shells on standard-sized sheets of 84 (14×6) containing 60 shells (10×6). It therefore never appears centred on the stamps and it occurs on hand-made papers only.

Type B is similar in shape but can easily be distinguished as it is invariably upright, with 11 mm between the shells, and is well centred on the stamps. It also occurs only on handmade papers. It was introduced in 1904 and from 1914, when Type A was brought back into use, it was employed concurrently until 1924.

Type C is quite different in shape and occurs on machine-made papers. There are two versions. The first, in use from 1924 to 1939, has 84 shells 11 mm apart and is always upright and well centred. The second, introduced in 1929 and believed not to have been used after 1930, has 60 shells (12×5) 15 mm apart and is invariably badly centred so that some stamps in the sheet are without watermark. This second version is normally found upright, but a few sideways watermark varieties are known and listed as Nos. 35g, 37c, O31j and O32i. We do not distinguish between the two versions of Type C in the lists, but stamps known to exist in the second version are indicated in footnotes. The machine-made paper is generally smoother and of more even texture.

WATERMARK VARIETIES. Little attention seems to have been paid to the orientation of the watermark by the printers, with the result that inverted, reversed and inverted and reversed watermarks are frequently encountered. We do not list such varieties.

STAMPS WITHOUT WATERMARK. Some of these were formerly listed but we have now decided to omit them as they do not occur in full sheets. They arise in the following circumstances: (*a*) on sheets with wmk A; (*b*) on sheets with the wide-spaced form of wmk C; and (*c*) on late printings of the pictorial issues of 1939–46. They are best collected in pairs, with and without watermark.

DATES OF ISSUE. In the absence of more definite information the dates noted usually refer to the first reported date of new printings on different watermarks but many were not noted at the time and the dates of these are indicated by a query. Dated postmarks on single stamps are difficult to find.

Nos. 6, 6d, 7, 7c, 8 and 8a occur with the watermark upright and sideways. No. 7a is known only with the watermark upright. The remainder exist only with the watermark sideways.

The sheet sizes were as follows:

½ch. 56 (14×4) except for No. 4d which was 84 (14×6), initially without border, later with border.

¾ch. 84 (14×6) with border.

1ch. No. 6, 80 (10×8) and later 84 (14×6) without border and then with border; No. 6d, 96 (16×6); No. 6e, 84 (14×6) with border.

It is believed that the 12½ perforation and the perf 12 and 12½ compound were introduced in 1937 and that the 11 perforation came later, probably in 1939.

The 5ca. chocolate, 6ca., 10ca. and 3ch. also exist on the wide-spaced watermark (60 shells to the sheet of 84).

OFFICIAL STAMPS

GUM. Soon after 1911 the Official stamps were issued without gum. Thus only the initial printings of the 1, 2, 3 and 4ch. values were gummed. As Nos. O38/9, O41/2 and O95 were overprinted on stamps intended for normal postage these, also, have gum.

PRINTINGS. Sometimes special printings of postage stamps were made specifically for overprinting for Official use, thus accounting for Official stamps appearing with watermarks or in shades not listed in the postage issues.

SETTINGS. These are based on the study of complete sheets of 84, and the measurements given are those of the majority of stamps on the sheet. Examples are known showing different measurements as each overprint was set individually in loose type, but these are not included in the listings.

Nos. O2, O10, O12 and O17 have the value at top in English and at bottom in native characters with "SERVICE" in between. All others have "SERVICE" below the surcharge.

Type O **2** was overprinted at one operation with the surcharges.

Nos. O10b, O10ed, O10ff and O10ia, show the second "E" of "SERVICE" with serifs matching those on the surcharge. The variety occurred on Right pane R. 10/6 and R. 11/6, but was soon corrected.

The "accent omitted" varieties on No. O15 occur on Left pane R. 5/1 and Right pane R. 1/4, 12/4, 14/1 and 13/4.

The Official stamps became obsolete in September 1951.

Sheets from the Stone IV printing had at least one horizontal line of perforations gauging 11, normally between the bottom two rows of the sheet.

These stamps were lithographed from seven different stones taken from a single die. Brief details of the individual stones are as follows:

Stone I – No. 1. Sheet size not known, but possibly 28 (4×7). Sheet margins imperforate
Stone II – No. 2. Sheets of 42 (7×6) with imperforate margins
Stone III – Nos. 1 (thin paper) and 3 (medium paper). Sheets of 40 (4×10) with imperforate margins
Stone IV – Nos. 5/a. Sheets of 32 (4×8) with imperforate margins at top and right
Stone V – No. 4. Sheets of 20 (4×5) with imperforate margins at top, right and bottom
Stone VI – No. 5. Sheets of 30 (5×6) with all margins perforated
Stone VII – No. 6. Sheets of 32 (4×8) with all margins perforated. Much finer impression than the other stones

Stamps from stones I and II come with or without the dot before "STATE". Those from the later stones always show the dot. The shading on the pennant above the shield can also be used in stone identification. Stamps from stones I to III show heavy shading on the pennant, but this is less evident on stone IV and reduced further to a short line or dot on stones V to VII. There is a ")" hairline after "HALF" on the majority of stamps from Stone III.

The stamps of Wadhwan became obsolete on 1 January 1895.

Ionian Islands

The British occupation of the Ionian Islands was completed in 1814 and the archipelago was placed under the protection of Great Britain by the Treaty of Paris of 9 November 1815. The United States of the Ionian Islands were given local self-government, which included responsibility for the postal services. Crowned-circle handstamps were, however, supplied in 1844, although it is believed these were intended for use on prepaid mail to foreign destinations.

Examples of the Great Britain 1855 1d. red-brown stamp are known used at Corfu, cancelled as No. CC2, but it is believed that these originate from mail sent by the British garrison.

For illustrations of the handstamp types see BRITISH POST OFFICES ABROAD notes, following GREAT BRITAIN.

It is believed that examples of No. CC4 in black are from an unauthorised use of this handstamp which is now on display in the local museum. A similar handstamp, but without "PAID AT" was introduced in 1861.

On 30 May 1864, the islands were ceded to Greece, and these stamps became obsolete.

Great care should be exercised in buying used stamps, on or off cover, as forged postmarks are plentiful.

BRITISH OCCUPATION

A British and Indian force occupied Mosul on 1 November 1918.

As the status of the vilayet was disputed stocks of "IRAQ IN BRITISH OCCUPATION" surcharges were withdrawn in early 1919 and replaced by Nos. 1/8.

No. 4a occurs on some sheets only. No. 8c comes from the first setting only.

Nos. 1/8 were replaced by "IRAQ IN BRITISH OCCUPATION" surcharges during 1921 and invalidated on 1 September 1922.

In December 1925 the League of Nations awarded the vilayet of Mosul to Iraq.

(32 *mm*). The 6a., 8a. and 5r. came from a subsequent setting with the surcharge 27 mm wide. Minor variations in the width of the surcharge on other values exist, but are not significant. On all surcharged values apart from the 2½a. and 12a. there is a stop after the "An". On these two values there is no stop.

Nos. 2, 3, 5, 6 and 7/9 are known bisected and used on philatelic covers. All such covers have Makinah or F.P.O. 339 cancellations.

During January 1923 an outbreak of cholera in Baghdad led to the temporary use for postal purposes of the above issue overprinted "REVENUE".

LEAGUE OF NATIONS MANDATE

On 25 April 1920 the Supreme Council of the Allies assigned to the United Kingdom a mandate under the League of Nations to administer iraq.

The Emir Faisal, King of Syria in 1920, was proclaimed King of Iraq on 23 August 1921.

Nos. 106/13 and 115/16 were in sheets of 160 (16×10) No. 114 sheets of 150 (15×10) and Nos. 117/21 sheets of 100 (10×10). There were three settings of the surcharge for the 3f. and two settings for the 5, 10, 25, 40, 100 and 200f. Nos. 109a and 111a come from the first setting and Nos. 107c, 111b and 114a/b come from the second.

The "wide space" varieties, Nos. 106a, 107a and 108a, show a 2 mm space between the numeral and "Fils" instead of 1 mm. On No. 106a it occurs R. 8/5 and R. 8/13, on 107d on R. 10/5 and R. 10/10 of the first setting and R. 6/6 of the second and on No. 108a on R. 7/1 and R. 7/9, although R. 7/9 is also known with normal spacing.

No. 109a occurs in the first setting and can be easily identified as it shows the point of the Arabic numeral at the foot of the surcharge.

All 10f. stamps from the second setting are as No. 111b except for R. 4/7–8 and 15–16 where the spacing is the same as for the first setting (Type **13**).

No. 114d shows "20" instead of "25". Many examples of this error were removed from the sheets before issue. The Arabic value "25" was unaltered.

No. 115a shows the error in the English face value only.

No. 117a occurs on R. 1/2, 1/7 and a third position in the first vertical row not yet identified.

No. 120a occurs on R. 1/2, R. 2/3 and R. 10/1.

No. 120b was a special printing of No. 91 which does not exist unsurcharged.

*All values except 2½d. and 4d. are known with greyish black overprint, but these are difficult to distinguish.

The carmine overprints on the 4d. and 9d. may have been produced by Alex Thom & Co. Ltd. There was a further overprinting of the 2½d. at the same time, but this is difficult to distinguish.

The ½d. with red overprint is a trial or proof printing (*Price* £160).

Bogus inverted T **1** overprints exist on the 2d., 4d., 9d and 1s. values.

The Harrison overprint measures 15×17 mm (maximum) against the 14½×16 mm of T **2** (Thom printing) and is a much bolder black than the latter, while the individual letters are taller, the "i" of "Rialtas" being specially outstanding as it extends below the foot of the "R".

The "R" of "Rialtas" is always over the "Se" of "Sealadac".

1922. Optd by Thom.

30/43 *Set of* 14			£110	£200

Both 2d. stamps exist with the overprint inverted but there remains some doubt as to whether they were issued.

These Thom printings are distinguishable from the Harrison printings by the size of the overprint, and from the previous Thom printings by the intensity and colour of the overprint, the latter being best seen when the stamp is looked through with a strong light behind it.

(b) As with T **3**, *but bolder, in shiny blue-black (Oct–Dec)*

44	**109**	2s.6d. sepia-brown	£250	£350

46		10s. dull grey-blue	£1000	£1400
44/6 *Set of* 3			£1400	£1900

The above differ from Nos. 17/21 not only in the bolder impression and colour of the ink but also in the "h" and "e" of "heireann" which are closer together and horizontally aligned.

		a. No accent	£3000	£4000
		b. Accent reversed	£4500	£5500
52/66 *Set of* 15			£350	£650

The "no accent" and "accent inserted" varieties on the ½d. to 1s. values occur on R. 15/12. On the 2s.6d. to 10s. values the "no accent" varieties occur on R. 3/2 and R. 8/2, the "accent reversed" on R. 7/4.

The accents inserted by hand are in dull black. The reversed accents are grave (thus "à") instead of acute ("á"). A variety with "S" of "Saorstát" directly over "é" of "éireann", instead of to left, may be found in all values except the 2½d. and 4d. In the 2s.6d., 5s. and 10s. it is very slightly to the left in the "S" over "é" variety, bringing the "á" of "Saorstát" directly above the last "n" of "éireann".

(b) Optd with T **5**, *in dull or shiny blue-black, by Harrison, for use in horiz or vert coils (7.3.23)*

In the Harrison overprint the characters are rather bolder than those of the Thom overprint, and the foot of the "1" of "1922" is usually rounded instead of square. The long "1" in "1922" has a serif at foot. The second "e" of "éireann" appears to"be slightly raised.

(**11** Narrow Date)

12 Daniel O'Connell

1925 (Aug)–**28.** T **109** of Great Britain (Bradbury, Wilkinson printing) optd at the Government Printing Works, Dublin or at Somerset House, London.

(a) With T **11** *in black or grey-black (25.8.25)*

83		2s.6d. chocolate-brown	40·00	£100
		a. Wide and narrow date (pair) (1927).	£300	£600

84		5s. rose-carmine	60·00	£150
		a. Wide and narrow date (pair) (1927).	£450	£950
85		10s. dull grey-blue	£150	£350
		a. Wide and narrow date (pair) (1927).	£1200	£2000
83/5 *Set of 3*			£225	£550

The varieties with wide and narrow date *se-tenant* are from what is known as the "composite setting," in which some stamps showed the wide date, as T **5**, while in others the figures were close together, as in T **11**.

Single examples of this printing with wide date may be distinguished from Nos. 64 to 66 by the colour of the ink, which is black or grey-black in the composite setting and blue-black in the Thom printing.

The type of the "composite" overprint usually shows distinct signs of wear.

(b) As T **5** *(wide date) in black (1927–28)*

86		2s.6d. chocolate-brown (9.12.27)	50·00	60·00

87		5s. rose-carmine (2.28)	80·00	£100
		a. Circumflex accent over "a"	£425	£600
		c. Flat accent on "a"	£750	£900
88		10s. dull grey-blue (15.2.28)	£190	£225
		a. Circumflex accent over "a"	£1000	£1400
		c. Flat accent on "a"	£1700	£2000
86/8 *Set of 3*			£275	£350

This printing can be distinguished from the Thom overprints in dull black, by the clear, heavy impression (in deep black) which often shows in relief on the back of the stamp.

The variety showing a circumflex accent over the "a" occurred on R. 9/2. The overprint in this position finally deteriorated to such an extent that some examples of the 2s.6d. were without accent (No. 86b). A new cliché was then introduced with the accent virtually flat and which also showed damage to the "a" and the crossbar of the "t".

The normal sideways watermark shows the top of "e" to the left, as seen from the back of the stamp.

Stamps in these designs but in different colours were issued between 1971 and 1978.

Jamaica

Records show that the first local Postmaster for Jamaica on a regular basis was appointed as early as 1671, although a reasonably organised service did not evolve until 1687–8. In the early years of the 18th century overseas mail was carried by the British packets, but between 1704 and 1711 this service was run on a commercial basis by Edmund Dummer. Following the collapse of the Dummer scheme Jamaica was virtually without a Post Office until 1720 and it was not until 1755 that overseas mail was again carried by British packets.

Stamps of Great Britain were used in Jamaica from 8 May 1858, initially on overseas mail only, but their use was extended to mail sent to Jamaican addresses from 1 February 1859. The island assumed responsibility for the postal service on 1 August 1860 and the use of Great Britain stamps then ceased.

OTHER JAMAICA POST OFFICES

British stamps were issued to several District post offices between 8 May 1858 and 1 March 1859 (i.e. before the Obliterators A 27—A 78 were issued). These can only be distinguished (off the cover) when they have the Town's date-stamp on them. They are worth about three times the price of those with an obliteration number.

The diagonal bisection of the 1d. was authorised by a P.O. notice dated 20 November 1861 to pay the ½d. rate for newspapers or book post. Examples are only of value when on original envelope or wrapper. The authority was withdrawn as from 1 December 1872. Fakes are frequently met with. Other bisections were unauthorised.

The so-called "dollar variety" of the 1s. occurs once in each sheet of stamps in all shades and in later colours, etc, on the second stamp in the second row of the left upper pane. The prices quoted above are for the dull brown shade, the prices for the other shades being proportionate to their normal value.

All values except the 3d. are known imperf, mint only.

There are two types of watermark in the 3d. and 1s., one being short and squat and the other elongated.

A very wide range of shades may be found in the 1d. The headplate was printed in many shades of purple, and the duty plate in various shades of mauve and purple and also in carmine, etc. There are fewer shades for the other values and they are not so pronounced.

1d. stamps with the duty plate in blue are colour changelings.

		ca. Ditto and broken "K" for "Y"	£160	£110
		w. Wmk inverted	£100	48·00

This provisional was issued pending receipt of No. 29 which is listed above for convenience of reference.

Three settings exist. (1) Ten varieties arranged in a single vertical row and repeated six times in the pane. (2) 12 varieties, in two horizontal rows of six, repeated five times, alternate rows show 1 and 1½ mm spacing between lines of surcharge. (3) Three varieties, arranged horizontally and repeated 20 times. All these settings can be reconstructed by examination of the spacing and relative position of the words of the surcharge and of the broken letters, etc, which are numerous.

A variety reading "PFNNK", with the "K" unbroken, is a forgery.

Surcharges misplaced either horizontally or vertically are met with, the normal position being central at the foot of the stamp with "HALF-PENNY" covering the old value.

No. 58 exists in coils constructed from normal sheets.

The paper of No. 67 is a bright yellow and the gum rough and dull. No. 67*a* is on practically the normal creamy "pale yellow" paper, and the gum is smooth and shiny. The paper of No. 67*b* approaches the "coffee" colour of the true "orange-buff", and the colours of both head and frame are paler, the latter being of a carmine tone.

For the ½d. and 6d. with Script wmk see Nos. 92/3.

RED CROSS LABELS. A voluntary organization, the Jamaica War Stamp League later the Jamaica Patriotic Stamp League, was founded in November 1915 by Mr. Lewis Ashenheim, a Kingston solicitor. The aims of the League were to support the British Red Cross, collect funds for the purchase of aircraft for the Royal Flying Corps and the relief of Polish Jews.

One fund-raising method used was the sale, from 1 December 1915, of ½d. charity labels. These labels, which were available from post offices, depicted a bi-plane above a cross and were printed in red by Dennison Manufacturing Company, Framingham, U.S.A., the stamps being perforated 12 except for those along the edges of the sheet which have one side imperforate.

From 22 December 1915 supplies of the labels were overprinted "JAMAICA" in red, the colour of this overprint being changed to black from 15 January 1916. Copies sold from 11 March 1916 carried an additional "Half-Penny" surcharge, also in black.

Such labels had no postal validity when used by the general public, but, by special order of the Governor, were accepted for the payment of postage on the League's official mail. To obtain this concession the envelopes were to be inscribed "Red Cross Business" or "Jamaica Patriotic Stamp League" and the labels used endorsed with Mr. Ashenheim's signature. Such covers are rare.

*The normal sideways wmk shows Crown to left of CA on No. 95 or Crown to right of CA on No. 96, *both as seen from the back of the stamp.*

The frame of No. 105*a* is the same colour as that of No. 88*a*.

The designs of all values of the pictorial series, with the exception of the 5s. and 10s. (which originated with the Governor, Sir Leslie Probyn), were selected by Mr. F. C. Cundall, F.S.A. The 1d. and 5s. were drawn by Miss Cundall, the 3d. by Mrs. Cundall, and the 10s. by De La Rue & Co. The 6d. is from a lithograph. The other designs are from photographs, the frames of all being the work of Miss Cundall and Miss Wood.

No. 130a occurred in conjunction with Frame plate 2 on printings between 1942 and 1951.

No. 132a shows the emergency use of a line perforation machine, giving an irregular gauge of 14–14.15, after the De La Rue works were damaged in December 1940. The normal comb measures 13.8×13.7.

Nos. 121 and 122 exist in coils constructed from normal sheets.

BRITISH EAST AFRICA

The area which became British East Africa had been part of the domain of the Zanzibari Sultans since 1794. In 1887 the administration of the province was granted to the British East Africa Association, incorporated as the Imperial British East Africa Company the following year.

Company post offices were established at Lamu and Mombasa in May 1890, British mails having been previously sent via the Indian post office on Zanzibar, opened in 1875.

A German postal agency opened at Lamu on 22 November 1888 and continued to operate until 31 March 1891, using German stamps. These can be identified by the "LAMU/OSTAFRIKA" cancellations and are listed under German East Africa in our Part 7 (*Germany*) catalogue.

HALF ANNA (1) **1 ANNA** (2)

(Surch D.L.R.)

1890 (23 May). Stamps of Great Britain (Queen Victoria) surch as T **1** or T **2** (1a. and 4a.).

1	½a. on 1d. deep purple (No. 173)	£275	£200
2	1a. on 2d. grey-green and carmine (No. 200)	£500	£275
3	4a. on 5d. dull purple and blue (No. 207*a*)	£600	£325

The second stamp of each horizontal row of the 4a. on 5d. had the "BRITISH" shifted to the left, placing the "B" directly over the "S" of "EAST". In the normal overprint the "B" is over "ST" as shown in Type (2).

A copy of the ½a. with the short crossbar of "F" in "HALF" omitted exists in the Royal Collection but is the only known example.

Following the exhaustion of stocks of Nos. 1/3, stamps of India were used at Mombasa (and occasionally at Lamu) from late July 1890 until the arrival of Nos. 4/19. The following listing is for stamps clearly cancelled with the MOMBASA 21 mm circular date stamp (code "C"). Examples with LAMU circular date stamp are worth much more. Indian stamps used after October 1890, including other values, came from ship mail.

Stamps of INDIA 1882–90 (Nos. 84/101) cancelled at Mombasa between July and October 1890.

For the 5a. and 7½a. see Nos. 29/30.

The paper of Nos. 7, 7*b*, 7*c*, 8 and 8*a* is coloured on the surface only.

Printings of 1890/92 are on thin paper having the outer margins of the sheets imperf and bearing sheet watermark "PURE LINEN WOVE BANK" and "W. C. S. & Co." in a monogram, the trademark of the makers, Messrs. William Collins, Sons & Co.

1893/94 printings are on thicker coarser paper with outer margins perforated through the selvedge and without watermark. Single specimens cannot always be distinguished by lack of watermark alone. Exceptions are the 1893 printings of the 2½a. and 3a. which were on Wiggins Teape paper showing a sheet watermark of "1011" in figures 1 centimetre high.

Nos. 7 (coloured through) and 16/19 on thick unwatermarked paper are from a special printing made for presentation purposes.

The printings of the 4a., 8a. and 1r. values in grey were intended for fiscal purposes, but in the event, were made available for postal use.

Forgeries of the 4a., 8a., 1r. grey and 2 to 5r. exist. The latter are common and can be distinguished by the scroll above "LIGHT" where there are five vertical lines of shading in the forgeries and seven in the genuine stamps. Forged cancellations exist on the commoner stamps. Beware of "imperf" stamps made by trimming margins of stamps from marginal rows.

A.D. = Andrew Dick, Chief Accountant.
A.B. = Archibald Brown, Cashier of the Company.
V.H.M. = Victor H. Mackenzie, Bank Manager.

Nos. 23 and 26 exist with manuscript surcharges in different hands. Examples with a heavy surcharge applied with a thick nib were mainly used at Lamu. Most of the surviving unused examples show this style, but used examples are worth a premium over the prices quoted.

The date quoted is that of earliest known use of stamps from this consignment.

These two stamps have "LD" after "COMPANY" in the inscription.

The paper of No. 29 is coloured on the surface only.

1895 (Feb). No. 8 surch with manuscript value and initials ("T.E.C.R."). Original face value obliterated in manuscript.

T.E.C.R. = T.E.C. Remington, Postmaster at Mombasa.

Similar manuscript surcharges on the black/*bright red* shade (No. 8*a*) are believed to be forgeries.

The Company experienced considerable financial problems during 1894 with the result that the British Government agreed to assume the administration of the territory, as a protectorate, on 1 July 1895.

The ½a. stamps used for this issue were mainly from the 1893–94 printings on thicker paper, but two used examples are known on the 1890 thin paper printing with sheet watermark (No. 4). The 1a stamps were mostly from the 1890 thin paper printing (No. 5), but one example is known from the 1895 printing on thick paper (No. 5*b*). The 2½a. stamps were mainly from the 1893 printing (No. 7*c*), but three used examples have been reported from the 1892 printing on thin pale buff paper (No. 7*b*).

SETTING OF TYPE 8. This consisted of 120 impressions in ten horizontal rows of 12 stamps. This matched the size of the pane for all the Indian issues to 1r. with the exception of the 6a. The sheets of this value contained four panes, each 8×10, which meant that the outer vertical margins also received the overprint.

The setting of Type **9** is not known.

Although only the one setting was used for the low values it is known that some of the overprint errors occurred, or were corrected, during the course of the various printings.

(Overprinted at the offices of *The Zanzibar Gazette*)

49/63 *Set of* 15			£650	£900

The relative horizontal positions of the three lines of the overprint vary considerably but the distance vertically between the lines of the overprint is constant.

In both the "Br1tish" and "Afr1ca" errors the figure one is in a smaller type size.

There are other varieties, such as inverted "s" in "British", wide and narrow "B", and inverted "V" for "A" in "Africa" (R. 1/1 and R. 6/7).

During the overprinting of Nos. 61/3 the "B" of "British" sometimes failed to print so that only traces of the letter appeared. It was replaced by a handstamped "B" which is often out of alignment with the rest of the overprint. The handstamp is known double.

The 2, 3 and 5r., normally overprinted in larger type than the lower values, are also known with a smaller overprint, for use as specimen stamps for the U.P.U. These were not issued for postal purposes (*Price £475 un per set*). The lower values were reprinted at the same time using similar type to the original overprint.

Forgeries exist.

		c. "Afr1ca" for "Africa" (R. 1/11)	£1800	

The setting of Type **10** was in five horizontal rows of 12 stamps, repeated twice for each pane.

No. 51 also exists surcharged with T **12**, **13** and **14** in brown-red. These stamps were sent to the Postal Union authorities at Berne, but were never issued to the public (*Price unused*: T **12** £110, T **13** £225, T **14** £150).

Nos. 84a and 85a appear to have occurred when the type was obscured during part of the overprinting.

The above six stamps exist with an overprint similar to T **8** but normally showing a stop after "Africa". These overprints (in red on the 1a.) were made officially to supply the U.P.U. (*Price* £300 *un per set*). However, the stop does not always show. Pieces are known showing overprints with and without stop *se-tenant* (including the red overprint on the 1a.).

Stamps of Zanzibar, wmk "Multiple Rosettes" and overprinted with T **8** are forgeries.

KENYA AND UGANDA

(New Currency. 100 cents = 1 East Africa shilling)

On 23 July 1920, Kenya became a Crown Colony with the exception of the coastal strip, previously part of the Sultan of Zanzibar's territories, which remained a protectorate.

The northern province of Jubaland was ceded to Italy on 29 June 1925 and later incorporated into Italian Somaliland.

No. 131ab occurs once in some sheets, always in the sixth vertical row.

The two varieties described as 'Mountain retouch', Nos. 135a/ab and 145ac/ad, are found on printings from June 1949 onwards.

The first printing of the 50c. utilised the King George V centre plate on which each impression had been individually corrected to show the rope joined to sail. R. 2/5 was missed, however, and this continued to show Type I until replaced by a further printing from a new plate in September 1938.

Stamps perf 14, together with Nos. 131a, 137a, 139b, 141b, 146b, 148b and 149b, are the result of air raid damage to the De La Rue works which destroyed the normal perforators. Dates quoted for these stamps represent earliest known postmarks.

Kuwait

Kuwait, an independent Arab shaikhdom since 1756, placed itself under British protection in 1899 to counter the spread of Ottoman influence in the Arabian Gulf.

The first, somewhat limited, postal service, via Bushire, commenced with the appointment of a Political Agent to Kuwait in August 1904. Because of diplomatic problems this system continued until 21 January 1915 when a regular Indian post office was established.

Limited supplies of Indian stamps were used by the Political Agency postal service, but these became available to the general public from 21 January 1915. Stamps seen postally used from Kuwait before 1923 are usually ½a., 1a., 1r. or 5r. values, with the occasional Official Issue. Much more common are values to 15r., both postage and Official, used telegraphically.

Before 1910 the name of the shaikhdom was spelt "KOWEIT" and this spelling appears on various circular postmarks used between 1915 and 1923. The more modern version of the name was first used for a postal cancellation in 1923.

1915 "KOWEIT"

1923 "KUWAIT"

On 1 August 1921 responsibility for the Kuwait postal service passed to the Iraq Post Office.

PRICES FOR STAMPS ON COVER TO 1945

Essays of the overprint using the obsolete spelling "KOWEIT" were prepared in 1923 and can be found on the original 14 values of the postage stamps and on the 13 stamps of the Official series. (*Price for set of 27 unused* £38000).

Nos. 1/4 and 6/7 are all known with inverted overprint (*Price, from* £35 *each, unused*) and the overprint is also known (upright or inverted) on examples of India No. 165 ("ANNAS"). It is doubtful if such errors were actually sold at the Kuwait Post Office, although some are known on registered or ordinary covers.

Leeward Islands

The Federal Colony of the Leeward Islands was constituted in 1871 formalising links between Antigua, British Virgin Islands, Dominica, Montserrat and St. Kitts-Nevis which stretched back to the 1670s. Issues for the individual islands were superseded by those inscribed "LEEWARD ISLANDS", but were in concurrent use with them from 1903 (British Virgin Islands from 1899). Dominica was transferred to the Windward Islands on 31 December 1939.

Long Island

PRICES FOR STAMPS ON COVER
Most covers from Long Island are philatelic, but these are worth from × 2 (Nos. 1/3) or from × 6 (Nos. 4/36).

The Turkish Island of Chustan (or Keustan) in the Gulf of Smyrna was occupied by the Royal Navy during April 1916 and renamed Long Island.

The following stamps were provided by the Civil Administrator, Lieut-Cmdr H. Pirie-Gordon, for the postal service inaugurated on 7 May 1916.

USED STAMPS. Stamps of Long Island were cancelled by hand-drawn circular date stamps in blue crayon for the Northend post office ("N") or in red crayon for Nikola post office ("S").

QUANTITIES ISSUED. The figures quoted do not include the remainders subsequently recorded as having been destroyed.

TOP SHEETS AND CARBONS. It is believed that the production sequence of the typewritten stamps was as follows:

½d. on pale green (Nos. 4/6)
- Two black top sheets of 12 (4×3) and one of 16 (4×4)
- Two blue carbon sheets of 12 (4×3) and one of 16 (4×4)
- Five mauve carbon sheets of 12, two from one top sheet and three from the other
- Varieties: "7" for "&" occurs on an unknown position from one of the sheets of 12 and "G.R.I." double occurs on R. 3/2-4 of the other

½d. on laid paper (Nos. 7/9) in sheets of 20 (4×5)
- Three black top sheets
- Three blue carbon sheets
- Eight mauve carbon sheets, two or three from each top sheet
- Varieties: "postage" occurs on R. 3/2 of one top sheet and "7" for "&" on R. 4/2 of another

1d. on laid paper (Nos. 10/13) in sheets of 20 (4×5)
- 11 red top sheets
- 15 black carbon sheets, three each from five of the top sheets
- Six blue carbon sheets, one each from six of the top sheets
- 22 mauve carbon sheets, probably two from each top sheet
- Varieties: "7" for "&" on R. 3/3, "postage" on R. 3/3, "Rvevue" on R. 1/3 and "Postagg" on R. 2/4, all from different top sheets
- The position of "G.R?!?" is not known. "ONR" occurs from three different top sheets on R. 5/1, R. 5/2 and 4 or R. 4/1 and 5/2

2½d. on laid paper (Nos. 14/16) in sheets of 20 (4×5)
- One black top sheet
- One blue carbon sheet
- Two mauve carbon sheets

6d. on laid paper (Nos. 17/19) in sheets of 20 (4×5)
- One black top sheet
- One blue carbon sheet*
- Three mauve carbon sheets
- Variety: "SIXPENCE" occurs on R. 1/2-3

1s. on laid paper (Nos. 20/2)
- Five black top sheets, four of 20 (4×5) and one of 16 (4×4)
- Nine black carbon sheets three each from two of the top sheets of 20 and three from the top sheet of 16
- Two blue carbon sheets, one each from two of the top sheets of 20
- 12 mauve carbon sheets, nine from various top sheets of 20 and three from the top sheet of 16
- Varieties: "ISLANA" occurs on R. 1/2 of one of the sheets of 20 and "Postge" on R. 1/3 of the sheet of 16. "Rebenue" comes from one of the other sheets of 20

½d. on wove paper (Nos. 23/5) in sheets of 24 (4×6)
- One black top sheet
- Three black carbon sheets
- One blue carbon sheet*

One mauve carbon sheet 1d. on wove paper (Nos. 26/7) in sheets of 24 (4×6)
- One red top sheet
- Three black carbon sheets
- One blue carbon sheet*
- One mauve carbon sheet*

2d. on wove paper (Nos. 30/1) in sheets of 24 (4×6)
- Two black top sheets
- Six black carbon sheets, three from each top sheet. One initialled in red ink
- Four mauve carbon sheets, two from each top sheet
- Variety: the "1d." error occurs on R. 5/2 from one top sheet

2½d. on wove paper (Nos. 32/4) in sheets of 24 (4×6)
- One black top sheet
- Three black carbon sheets
- One blue carbon sheet
- One mauve carbon sheet

6d. on wove paper (Nos. 35/6) in sheets of 24 (4×6)
- Two black top sheets
- Six black carbon sheets, three from each top sheet
- Two blue carbon sheets, one from each top sheet
- Varieties: the "2d." error occurs on R. 5/3 from one top sheet which also showed "PENCC" on R. 3/2, and "Rvenne &" on R. 4/1 of the other

*These carbons are described in written records, but their existence has yet to be confirmed by actual examples.

BRITISH CONSULAR MAIL

After May 1883 mail from the British community at Antananarivo, the capital, was sent by runner to the British Consulate at Tamatave for forwarding via the French Post Office.

In March of the following year the British Vice-Consul at Antananarivo, Mr. W. C. Pickersgill, reorganised this service and issued stamps for use on both local and overseas mail. Such stamps were only gummed at one of the top corners. This was to facilitate their removal from overseas mail where they were replaced by Mauritius stamps (at Port Louis) or by French issues (at the Vice-Consulate) for transmission via Tamatave and Réunion. Local mail usually had the stamps removed also, being marked with a "PAID" or a Vice-Consular handstamp, although a few covers have survived intact.

CONDITION. Due to the type of paper used, stamps of the British Consular Mail are usually found with slight faults, especially thins and creases. Our prices are for fine examples.

USED STAMPS. Postmarks are not usually found on these issues. Cancellations usually take the form of a manuscript line or cross in crayon, ink or pencil or as five parallel horizontal bars in black, red or violet, approximately 15 mm long. Examples of Nos. 1/3, 5/8 and 11 showing a red diagonal line may have been pre-cancelled for accounting purposes.

Nos. 1/8 were printed in horizontal strips of four, each strip containing two impressions of the setting. Each strip usually contained two stamps with normal stops after "B.C.M." and two with a hollow stop after "B" (1d., 2d., 3d., 4d., 6d. and 2s.) or after "M" (1s. and 1s.6d.), although the 2d. and 3d. have also been seen with a hollow stop after "M" and the 6d. with hollow stops after both "B" and "C".

Several values are known with the handstamp either inverted or double.

BRITISH INLAND MAIL

In January 1895 the Malagasy government agreed that a syndicate of British merchants at Antananarivo, including the Vice-Consul, should operate an inland postal service during the war with France. Mail was sent by runner to the port of Vatomandry and forwarded via Durban where Natal stamps were added.

Nos. 50/62 were cancelled with dated circular postmarks inscribed "BRITISH MAIL".

Malaysia

The Federation of Malaya was formed on 1 February 1948 by the former Straits Settlements of Malacca and Penang, the four Federated Malay States and the five Unfederated States. It did not, however, issue any stamps until it became an independent member of the Commonwealth in 1957.

The philatelic history of the component parts of the federation is most complex.

The method adopted is to show the general issues for the area first, before dealing with the issues for the individual States. The section is divided as follows:

I. STRAITS SETTLEMENTS

II. FEDERATED MALAY STATES

III. MALAYAN POSTAL UNION

IV. MALAYA (BRITISH MILITARY ADMINISTRATION)

V. MALAYAN FEDERATION

VI. MALAYSIA

VII. MALAYAN STATES—Johore, Kedah, Kelantan, Malacca, Negri Sembilan (with Sungei Ujong), Pahang, Penang, Perak, Perlis, Sabah, Selangor, Trengganu

VIII. JAPANESE OCCUPATION OF MALAYA 1942–45

IX. THAI OCCUPATION OF MALAYA 1943–45

I. STRAITS SETTLEMENTS

The three original Settlements, Malacca, Penang (with Province Wellesley) and Singapore (with Christmas Island), were formed into a Crown Colony on 1 April 1867. The Cocos (Keeling) Islands were transferred to Straits Settlements on 7 February 1886. Labuan was attached to the Colony in 1896, becoming the fourth Settlement in 1906, but was transferred to North Borneo in 1946.

The first known prestamp cover with postal markings from Penang (Prince of Wales Island) is dated March 1806 and from Malacca, under British civil administration, February 1841. The civil post office at Singapore opened on 1 February 1823.

The stamps of India were used at all three post offices from late in 1854 until the Straits Settlements became a separate colony on 1 September 1867.

The Indian stamps were initially cancelled by dumb obliterators and their use in the Straits Settlements can only be identified from complete covers. In 1856 cancellations of the standard Indian octagonal type were issued, numbered "B 109" for Malacca, "B 147" for Penang and "B 172" for Singapore.

CURRENCY. Before 1867 official accounts of the East India Company administration for the Straits Settlements were kept in rupees, although the vast majority of commercial transactions used Spanish American silver dollars, supplies of which reached Malaya via the Philippines.

This confusing situation was rapidly amended when the Straits Settlements became a Crown Colony on 1 April 1867 and Spanish American dollars were declared to be the only legal currency. In 1874 American trade dollars and Japanese yen were also accepted, but in 1890 recognition of the Spanish American dollars was restricted to those from the Mexican mints. A shortage of silver coinage led to the introduction of silver British trade dollars in 1895 which also circulated in Hong Kong and Labuan.

Dollar banknotes first appeared in 1899, but Mexican dollars were not finally replaced until the issue of silver Straits Settlements dollars in 1903, the gold value of which was set at 2s.4d. in January 1906.

A

C

The Penang and Singapore octagonals were replaced by a duplex type, consisting of a double-ringed datestamp and a diamond-shaped obliterator containing the office number, in 1863 and 1865 respectively.

Nos. 33/9 were surcharged from an amended setting of 60 (6×10) of which 59 positions have been identified. Of those known No. 33 occurs on 24 (R. 6/1-6, 7/1-6, 8/1-6, 9/1-2, 9/6, 10/1-3), No. 34 on 21 (R. 1/2-6, 2/1-6, 3/1-6, 4/3-5, 5/6), No. 35 on eight (R. 1/1, 4/2, 4/6, 5/1-5), No. 36 on three (R. 9/3-5) and Nos. 37 (R. 10/6), 38 (R. 10/4) and 39 (R. 10/5) on one each. R. 4/1 remains unidentified.

The existence of No. 36b, known as a single example from the sixth vertical column, and a stamp in the Royal Collection with "1" as (b) and "0" as (g) suggests that there may have been another setting.

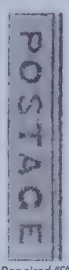
Malformed "S"



Repaired "S"

The malformed "S" occurs on R. 7/3 of the left pane from Key Plate 2. It is believed that the repair to it took place in mid-1898. Both states may occur on other stamps in Types **33** and **34**. Stamps subsequently printed from Key Plate 3 showed the "S" normal.

Nos. 141/51 were overprinted by a setting of 50 (10×5) applied twice to the sheets of 100. The "FOUR CENTS" surcharges were applied separately by a similar setting.

No. 145a shows impressions of Type **43** in both brown-red and black. It is known from one complete sheet and the top half of another. In the latter the two overprints are almost coincident, whereas in the former they are clearly separated.

No. 146b occurred on row 5 from one sheet only. No. 146c occurred on R. 4/10 and 9/10 of the first printing.

The line through "B" flaw occurs on R. 5/10 of the basic stamp. For illustration see Labuan.

Prepared for use but not issued

240*e*	52	8c. carmine		
		s. Optd "SPECIMEN"	£600	

No. 240*e* was prepared in 1922 but never issued. "SPECIMEN" examples were distributed through the UPU, and a few unoverprinted examples are known.

Nos. 240*b/d* are as Type **47**, but with portrait of George V.

No. 226ab was caused by a progressive inking failure, resulting in the value being completely omitted on R.10/10 of a single sheet.

The 2c. green was reissued in 1927, and exists with "SPECIMEN" overprint 15.5×1.75 mm instead of the 14.5×2.5 mm of the original issue (*Price*, £75).

The paper of Nos. 231*b*/ba is the normal *pale yellow* at the back, but with a bright yellow surface.

In 1926 new Key and Duty plates were made of 100 (10×10) instead of the usual 60 (6×10).

For illustrations of the varieties on Nos. 240*b/d* see above No. 51*b* of Bermuda.

SETTINGS OF TYPE 56. Nos. 241/55 were produced using a typeset block of 12 (6×2) overprints from which ten stereos were taken to provide a forme for the complete sheet of 120. Two such formes were prepared of which the second was only used for a limited number of Straits Settlements sheets in addition to the Kedah and Trengganu issues.

Several constant varieties occur on the original typeset block of 12 and so appear ten times on sheets printed from both Settings I and II. These include:

Oval last "O" in "BORNEO" (R. 1/3 of typeset block of 12)

Raised stop after "EXHIBITION" (R. 2/2 of typeset block of 12)

Small second "A" in "MALAYA" (R. 2/6 of typeset block of 12).

The two formes also produced constant varieties in each setting which include:

Setting I

No hyphen (Left pane. R. 7/1 or 9/2)

No stop (Left and right panes. Either on R. 10/4 (right pane) or, for some sheets, on other stamps from even numbered horizontal rows in the 4th vertical column (both panes))

Third "I" in "EXHIBITION" omitted (R. 8/5, 10/5 (left pane)). This must have occurred very late in the use of this setting and is only found on the 5c. and 10c.

Setting II

No stop (Left pane. R. 1/5)

"EXH.BITION" (Left pane. Stamps from even numbered horizontal rows in the 3rd vertical column)

Die I. Lines of background outside central oval touch the oval and the foliage of the palm tree is usually joined to the oval frame. The downward-pointing palm frond, opposite the King's eye, has two points.

Die II. Lines of background are separated from the oval by a white line and the foliage of the palm trees does not touch the outer frame. The palm frond has only one point.

Nos. 295 and 298 were printed by Harrison and Sons following bomb damage to the De La Rue works on 29 December 1940.

The 6c. grey, 8c. scarlet and $5 purple and orange were only issued with the BMA overprint, but the 8c. without overprint is known although in this state it was never issued (*Price* £15).

F1	$25 purple and blue/*blue*	£1300	£650

No. F1 was regularly used for postal purposes in 1941, although no specific authorisation for such use has been discovered.

The Straits Settlements were occupied by the Japanese in 1942.

After the Second World War the stamps of MALAYA (BRITISH MILITARY ADMINISTRATION) were used. In 1946 Singapore became a separate Crown Colony and Labuan was transferred to North Borneo. Separate stamps were issued for Malacca and Penang, which both joined the Malayan Federation on 1 February 1948.

II. FEDERATED MALAY STATES

On 1 July 1896, the States of Negri Sembilan, Pahang, Perak and Selangor were organised on a federal basis to be known as the Federated Malay States. For the time being each State continued with individual issues, although each state's issues were valid for use in the others from 27 January 1899. Stamps for the use of the Federation replaced these in 1900.

Later printings in 1903–4 show the two upper lines of shading in the background at the corner nearest to the "S" of "STATE" blurred and running into one another, whereas in earlier printings these lines are distinct. Two plates were used for printing the central design of T **3**. In Plate 1 the lines of background are regular throughout, but in Plate 2 they are lighter around the head and back of the tiger. The 5c. was the only value with single wmk to be printed from Plate 2. Stamps with multiple wmk were printed for a short time from Plate 1, and show the two blurred lines of background near "S" of "STATE," but the majority of these stamps were printed from Plate 2 and later plates.

Nos. 29/*b*, 30, 31, 33, 34/*b* and 35 were printed from single working plates and all the rest from double plates.

Most examples of No. 47b have fiscal cancellations, but at least one is known postally used.

The 3c. scarlet (No. 34*b*) was surcharged '4/CENTS.' between horizontal lines in early 1918, but was never issued. The entire printing of five million stamps was sunk at sea, nevertheless a few examples do exist. (*Price*, £5000, *unused*).

The issues of the Federated Malay States were replaced by stamps for the individual States from 1935 onwards.

III. MALAYAN POSTAL UNION

The Malayan Postal Union was organised in 1934 and, initially, covered the Straits Settlements and the Federated Malay States. Stamps of the Straits Settlements together with issues for the individual States continued to be used, but Malayan Postal Union postage due stamps were introduced in 1936.

Following the end of the Second World War the use of these postage dues spread throughout Malaya and to Singapore.

IV. MALAYA (BRITISH MILITARY ADMINISTRATION)

Following the Japanese surrender on 2 September 1945 British troops landed in Malaya which was placed under a British Military Administration. The Director of Posts was ashore at Singapore on 6 September and had reached Kuala Lumpur by 13 September. Postal services in Singapore and Johore resumed on 17 September and had spread to the remainder of the country by 5 October. No stamps were initially available so all mail up to 1 oz. was carried free until the first overprinted stamps appeared on 19 October.

De La Rue had overprinted available stocks of pre-war Straits Settlements stamps earlier in 1945 and initial supplies of these London overprints were placed on sale from 19 October (Nos. 1, 2a, 4, 6a, 7 and 8a) with the 15c. and 25c. (Nos. 11 and 13a) issued later. A second consignment contained dollar values including the $5 purple and orange. Duplicate plates were subsequently sent to the Government Printing Office at Kuala Lumpur, where the overprinting of surviving local stocks of the 1c., 5c., 10c., 15c. (overprinted in black) and $5 green and red on emerald took place, and to Australia for those shipments which had been diverted there in 1941.

The stamps were used throughout all Malay States and in Singapore. From 1948 this general issue was gradually replaced by individual issues for each state. The last usage was in Kelantan where B M A overprints were not withdrawn until 10 July 1951.

Nos. 3 and 9 do not exist without the overprint.

Initial printings on ordinary paper were produced by Harrison and Sons in 1941 following bomb damage to the De La Rue works on 29 December 1940.

For a description of the thin striated paper, see the introduction to this catalogue.

No. 8 with reddish purple medallion and dull purple frame is from a 1947 printing with the head in fugitive ink which discolours with moisture.

Postal forgeries of the 50c. value exist made by dyeing examples of the 1c. and then altering the face value to 50c.

In 1946 8c. and 15c. stamps in the Crown Colony Victory design were prepared for the Malayan Union, but not issued. Examples of the 8c. carmine from this issue exist from unofficial leakages (*Price £500 unused*).

V. MALAYAN FEDERATION

The Malayan Federation, formed on 1 February 1948 by Malacca, Penang, the four Federated Malay States and the five Unfederated States, became an independent member of the British Commonwealth on 31 August 1957.

Commemoratives and a limited series of definitives were issued by the Federation and were used concurrently with the stamps from the individual States.

The definitive general issue for Malaysia and the low value sets for the individual states superseded the stamps of the Malayan Federation by 15 November 1965.

VI. MALAYSIA

On 16 September 1963, the Malayan Federation, Sabah (North Borneo), Sarawak and Singapore formed the Federation of Malaysia. Singapore left the Federation on 9 August 1965, and became an independent republic. Stamps of Singapore continued to be valid in Malaysia, and those of Malaysia in Singapore, until 1 February 1967.

Individual issues for the component States continued, but were restricted to low value definitives and the occasional "State" commemorative. The higher value definitives and the vast majority of commemoratives were issued on a "National" basis.

Nos. 17/20 come from the same setting of 60. Type **17** occurs on horizontal rows 1 to 5, Type **18** on row 6, Type **19** on rows 7, 8 and 9 and Type **20** on row 10.

The setting was altered to remove the "CENST" error and in doing so the thin, narrow "J" was moved from R. 5/6 to 6/6. Otherwise the two settings were the same.

One example of the "CENST" error (No. 17a) has been recorded with inverted watermark (*Price*, £3750 *used*).

KEDAH

The Thai monarchy exercised suzerainty over Kedah and the other northern states of the Malay peninsula from the 16th century onwards. The extent of Thai involvement in its internal affairs was very variable, being dependent on the strength, or otherwise, of the Bangkok administration and the degree of co-operation of the local ruler.

The Thai postal service, which had been inaugurated in 1883, gradually extended into the north of the Malay penninsula and an office was opened at Alor Star in Kedah during 1887 with the earliest known postmark being dated 27 October. Further post offices at Kuala Muda (3 Oct 1907), Kulim (7 July 1907) and Langkawi (16 Feb 1908) followed.

The following types of postmark were used on Siamese stamps from the Malay tributary states:

Type A. Single ring with date at foot (examples from 1900 show the year in manuscript)

Type B. Single ring with date in centre

Type C. Double ring. Bilingual

Type D. Double ring. English at top and ornament at foot

PRICES are for stamps showing a large part of the postmark with the inscription clearly visible.

The Siamese post office at Alor Star was opened during 1887 with the first known postmark being dated 27 October. Further post offices at Kuala Muda (3 Oct 1907), Kulim (7 July 1907) and Langkawi (16 Feb 1908) followed.

A straight-line obliteration showing "KEDAH" between short vertical dashes is not believed to be genuine.

The "Feather in hat" variety was present on printings from 1919.

Due to an increase in postal rates 1c. and 4c. stamps of STRAITS SETTLEMENTS were used in Kedah for some months from March 1919.

Two types of centre plate for Type **2** wmkd Mult Script CA:

Type I (Plate 1) (produced by electrotyping)

Type II (Plate 2) (produced by transfer die)

A new common centre plate, 2, was prepared from the original die in 1926. Stamps from Plate 2, produced using a transfer die, show considerably more detail of the ground and have the oxen, ploughman's hat and his clothing much more deeply cut as illustrated in Type II above.

Nos. 26/40 were produced by De La Rue using the "wet" method of recess-printing during which the stamps contracted when they were dried before gumming. From 1933 the firm adopted the "dry" method, using pre-gummed paper, with the result that stamps were up to 0.5 mm larger in size. Of the low values as Type **1** in this series only the 2c. was still current when the "dry" method was introduced.

Stamps as Type **1** can be found perforated either comb or line. The 1c. and 4c. come comb only, the 3c. line only and the 2c. either way.

Examples of Nos. 37/40 are known with part strikes of a forged Sungei Patang postmark dated "14 JY 1920".

For the 2c. Type II see No. 69.

OVERPRINT SETTINGS FOR NOS. 41/51. The low values in Type **1** were overprinted using Setting II as detailed under Straits Settlements. The three listed constant varieties from the original typeset block of 12 occur in the same positions for these Kedah stamps as does the No Stop variety from R. 1/5 of the left pane.

For the higher values in Type **2**, which were in sheets of 60 (5×12), a further setting was prepared using the first four vertical rows of the typeset block with each horizontal row completed by a single random impression of the overprint. This means that, in addition to their positions in the truncated typeset block, the Oval last "O" additionally occurs on R. 11/5 and the Raised stop on R. 5/5 of the sheet. In this setting, as for the low values, "BORNEO" was 14 mm long.

Further supplies were subsequently required of the 21, 25 and 50c. values and these were produced using a completely different setting of 20 (5×4), applied three times to each sheet, on which "BORNEO" was 15–15½ mm long. The small "Y" in "MALAYA" occurs on R. 4/2, 8/2 and 12/2.

With the exception of the 6c. and 8c. the printing plates for the Type **1** values listed above were, as for the previous issue, produced by electrotyping with the face values added to the plates by pantograph. The plates for the 6c. and 8c. values were constructed by the more modern method of using a transfer die to enter each impression.

Printings after November 1933 were normally produced by the "dry" method as described beneath Nos. 26/40. There were late "wet" printings of the 1c. (No. 68*a*) and 2c. (No. 27) in August 1938. The 3c. only exists from a "wet" printing, the 6c. (No. 56*a*) and 8c. from dry printings and the remainder from either method.

Stamps as Type **1** can be found perforated either comb or line. The 3c. and 6c. (No. 56) come comb only, the 6c. (No. 56*a*) and 8c. line only and the 1, 4 and 5c. either way.

For the 1c. Type II see No. 68*a*.

KELANTAN

The Thai monarchy exercised suzerainty over Kelantan and the other northern states of the Malay peninsula from the 16th century onwards.

The first Siamese post office in Kelantan opened at Kota Bharu in 1895. It appears that in the early years this office only accepted letters franked with stamps for delivery within Kelantan.

The initial cancellation, of which no complete example has been discovered, showed Thai characters only. Partial examples have been reported on the 1887–91 8a. and 1896 4a. on 12a.

The operations of the Duff Development Company in Kelantan from 1903 led to a considerable expansion of the postal service based on the company's river steamers. A further post office opened at Batu Mengkebang in 1908, but may have been preceded by manuscript endorsements of "B.M." and date known from early 1907 onwards.

OVERPRINT SETTINGS FOR NOS. 30/8. All values were overprinted using a triplet of three slightly different types. It is not known if this was applied to the sheets three stamps at a time or if a forme to overprint a pane of 60 was constructed from it.

On the normal setting "MALAYA" is 13 mm long. The 1c and 5c. only are also known with "MALAYA" 14 mm from a different triplet setting. It has been suggested that this was a trial overprint which was subsequently included in postal stocks.

NEGRI SEMBILAN

A federation of smaller states reconstituted in 1886. Sungei Ujong, taken under British protection in 1874, was absorbed into Negri Sembilan by Treaty of 8 August 1895. The Negri Sembilan federation joined the Federated Malay States in 1896.

A. SUNGEI UJONG

Until 1 January 1899, when the Federated Malay States joined the U.P.U., mail for addresses outside Malaya was franked with the stamps of the STRAITS SETTLEMENTS.

PRICES FOR STAMPS ON COVER

Nos. 1/14	—
Nos. 15/27	*from* × 25
Nos. 28/36	*from* × 8
Nos. 37/49	*from* × 10
Nos. 50/5	*from* × 25

Overprints and surcharges were applied by the Government Printer, Singapore, *unless otherwise stated.*

(1)

1878. No. 11 of Straits Settlements handstamped with T **1**.

1		2c. brown	£4750	£5000

This overprint on India No. 54 is bogus.

SUNGEI (2) (Narrow letters) **SUNGEI** (3) ("N" wide) **SUNGEI** (4) ("S" wide)

UJONG (5) ("N" wide) **UJONG** (6) (Narrow letters, "UJ" close together) **UJONG** (7) (Narrow letters, evenly spaced)

1881. No. 11 of Straits Settlements optd with T **2/7**.

2	**2+5**	2c. brown	£6000	£4000
3	**3+5**	2c. brown	£4000	£3000
4	**2+6**	2c. brown	£475	
		a. Opt Type **6** double	£1800	
5	**4+6**	2c. brown	£1500	
6	**2+7**	2c. brown	£425	

The two lines of this surcharge were applied as separate operations. On Nos. 2/3 "SUNGEI" was printed as a triplet, probably 2+3+3 "UJONG" being added by a single unit handstamp. Nos. 4 and 5 come from a similar triplet, 4+4+5, completed by another single unit handstamp. No. 6 comes from a single type triplet with the second line added as a triplet instead of by a single unit handstamp.

The 10c. slate overprinted Types **2** + **7** is bogus.

SUNGEI (**8**) ("N" and "E" wide) **SUNGEI** (**9**) ("SUN" and "E" wide) **SUNGEI** (**10**) ("SUN" wide)

SUNGEI (**11**) ("S" wide) **SUNGEI** (**12**) (Narrow letters)

UJONG (**13**) ("U" and "NG" wide) **UJONG** (**14**) (Narrow letters)

1881. No. 11 of Straits Settlements optd with T **8/14**.

7	**8+13**	2c. brown		£400
8	**9+13**	2c. brown		£400
9	**10+13**	2c. brown		£400
10	**11+14**	2c. brown		£400
		a. "S" inverted		£4250
11	**12+14**	2c. brown		£250

Nos. 7/11 also had the two lines of the overprint applied at separate operations. "SUNGEI" as a triplet, either 7+8+9 or 10+11+11, and "UJONG" as a single unit.

S. U. (**15**)

1882. Nos. 50/1 of Straits Settlements optd as T **15**.

12		2c. brown (with stops)	£325	
		a. Opt double	£3750	
13		2c. brown (without stops)	£275	£325
14		4c. rose (with stops)	£5000	£5500

Each of the above was applied by a triplet setting.

Examples of Straits Settlements No. 11 with a similar overprint, including stops, are trials which were not issued.

SUNGEI (**16**) ("S" and "E" wide) **SUNGEI** (**17**) ("E" wide) **UJONG** (**18**) ("N" wide)

		b. Antique "G" in "UJONG" (R. 8/3).	£900	
		c. Pale rose		

All the above overprints had both lines applied at the same operation. Nos. 37/42 were from different triplet settings. The first printing of Type **28** was from a triplet (No. 43) but this was followed by two further settings of 60 (6x10), the first containing No. 43a and the second Nos. 43*d*/db. Nos. 44/5 were both from settings of 60.

The antique letter varieties on Types **28** and **30** are similar in style to those on Types **25** and **26**.

Care should be taken in distinguishing the true black surcharge, No. 20, from very deep shades of the green surcharge, No. 19.

Pending the arrival of the permanent Federated Malay States issue the stamps of SELANGOR, FEDERATED MALAY STATES provisional overprints, STRAITS SETTLEMENTS and PERAK were used at various times between October 1899 and April 1901.

The general issues for FEDERATED MALAY STATES were used in Negri Sembilan from 29 April 1901 until 1935.

The stamps issued in 1941 were printed by Harrison and Sons following bomb damage to the De La Rue works on 29 December 1940. The used prices quoted for Nos. 23, 28 and 32 are for examples with clearly identifiable 1941 cancellations. These stamps, and No. 39, are commonly found with forged cancellations.

An 8c. scarlet on both ordinary and thin striated paper was printed but only issued with opt during Japanese Occupation of Malaya. Unoverprinted specimens result from leakages.

During shortages in 1941 stamps of STRAITS SETTLEMENTS (2c. green, 25c., 30c.), SELANGOR (2c. green, 2c. orange (both perfs), 8c. grey, 25c.), PERAK (2c. orange, 25c., 50c.) and PAHANG (8c. scarlet) were issued in Negri Sembilan.

18*d*	3c. on half of 5c. blue (surch "3")	£1500	£400
	dc. Surch in black manuscript	£11000	£3250

The initials are those of John Fortescue Owen, the Superintendent at Kuala Lipis.

Nos. 17 and 18 only occur on the bottom half of the 5c. and Nos. 17*a* and 18*d* on the top half. No. 18a is a complete example of No. 13 showing the two surcharges. No. 18*b* is a *se-tenant* pair of bisects from adjoining stamps.

Three types of these manuscript surcharges may be distinguished. an initial group, including the black surcharges Nos. 18c and 18dc, showed the value as "2cts" or "3cts". A second group, including the horizontal bisects Nos. 17 and 17*a*, had figures of value only ("2" or "3"). A third group, in which the values (but not the initials) were written by Owen's clerk, Mr. Mitchell, showed the values as "2c" and "3c", with a vertical stroke through the "c". Examples of diagonal bisects from the first and third groups, with "cts" or "c" after the figure of value, are worth a premium over the prices quoted above.

PERAK

Perak accepted a British Resident in 1874, although he was later murdered.

The state joined the Federated Malay States in 1896.

The stamps of the STRAITS SETTLEMENTS were used in Perak during 1877/8.

Until 1 January 1899, when the Federated Malay States joined the U.P.U., mail for addresses outside Malaya was franked with stamps of the STRAITS SETTLEMENTS.

Settings. No. 33 originally appeared as a triplet, then as a block of 30 (3×10) and, finally, as part of a series of composite settings of 60. Specialists recognise four such composite settings:

Setting I contained No. 33 in Rows 1 to 4, R. 5/1 to 5/5 and Row 7; No. 34 on R. 5/6, 6/1 and 6/2; No. 35 on R. 6/3–6; No. 36 on Row 8; No. 37 on Rows 9 and 10.

Setting II was similar, but had the example of No. 33 on R. 3/5 replaced by No. 38 and those on R. 7/4 and R. 7/6 by No. 39.

Setting III contained No. 33 in Rows 1 to 5; No. 35 in Row 6 with the "PREAK" error on the first position; No. 36 in Row 7; No. 37 in Rows 8 and 9; No. 40 in Row 10.

Setting IV was similar, but showed the "PREAK" error on R. 6/1 corrected.

Pending the arrival of the permanent Federated Malay States issue the stamps of FEDERATED MALAY STATES provisional overprints, SELANGOR and STRAITS SETTLEMENTS were used at various times between June 1900 and 31 December 1901.

The general issues for the FEDERATED MALAY STATES were used in Perak from 1901 until 1935.

With exception of No. 86a, whose sheet position is not known, the remaining surcharge varieties all occur in the left-hand pane.

No. 86b is also known showing the thinner "t" in "Cent" variety. (*Price* £4500 *unused*).

During a shortage of low values, on 22 October 1900 the Government of Perak announced that articles on which postage was less than 4 cents should be handed in at the post office and the postage paid in cash. The stamp vendor gave the sender a perforated and postmarked receipt inscribed "Postal/Receipt for/1 cent", some of which are known attached to envelopes, although this is not what the authorities intended. Collectors know these as the "Tanjong Malim provisionals", although they were also used in other offices.

The $5, No. 79, surcharged "Three cents/Revenue/only" is also known used postally during the shortage.

The stamps issued during 1941 were printed by Harrison and Sons following bomb damage to the De La Rue works on 29 December 1940. The used price quoted for No. 111 is for an example with clearly identifiable 1941 cancellation.

During shortages in 1941 stamps of STRAITS SETTLEMENTS (2c. green) and SELANGOR (2c. orange (both perfs), 3c.) were issued in Perak.

PERLIS

The Thai monarchy exercised suzerainty over Perlis and the other northern states of the Malay peninsula from the 16th century onwards.

The Siamese post office at Kangar is recorded as opening during 1894. It is believed that the initial cancellation showed Thai characters only, but no complete example has so far been discovered.

Stamps of SIAM cancelled as Type B inscr "PERLIS" (from July 1904).

SARAWAK

Sarawak joined the Federation of Malaysia at its formation on 16 September 1963. For the convenience of collectors, stamps issued after this date continue to be listed with earlier issues of Sarawak.

SELANGOR

The first British Resident was appointed in 1874. Selangor joined the Federated Malay States in 1896.

The stamps of the STRAITS SETTLEMENTS were used in Selangor from 1879 until 1881.

Until 1 January 1899, when the Federated Malay States joined the U.P.U., mail for addresses outside Malaya was franked with stamps of the STRAITS SETTLEMENTS.

Overprints and surcharges were applied by the Government Printer, Singapore, *unless otherwise stated.*

The Straits Settlements 1867 2c. brown with Crown CC watermark (No. 11) has been known since 1881 overprinted in black with a crescent and star over a capital S, all within an oval, similar in style to the overprints listed for Perak and Sungei Ujong.

The status of this item remains unclear, but it may well represent the first issue of distinctive stamps for Selangor. A similar overprint in red on the Straits Settlements 2c. brown with Crown CA watermark also exists and may have been produced for sale to collectors (*Price* £400, *unused*).

This overprint should not be confused with a somewhat similar cancellation used on Selangor stamps of the same period. This cancellation differs in having a circular frame with the capital S shown above the crescent and star. It is usually struck in red.

The stamps issued during 1941 were printed by Harrison and Sons following bomb damage to the De La Rue works on 29 December 1940. The used prices quoted for Nos. 79a and 80a are for examples with clearly indentifiable 1941 cancellations.
No. 69 exists in coils constructed from normal sheets.
Supplies of an unissued 8c. scarlet on thin striated paper were diverted to Australia in 1941. Examples circulating result from leakages of this supply (*Price* £1200).

TRENGGANU

A Thai post office operated at Kuala Trengganu between 1892 and 1895. A single example of the 1887-91 8a. green and yellow has been seen with a type B circular postmark inscribed "TRINGANU".

Suzerainty over Trengganu was transferred by Thailand to Great Britain in 1909. A British adviser was appointed in 1919.

The state joined the Federation of Malaya on 1 February 1948.

Nos. 19/22 were sold at face, plus 2c. on each stamp for Red Cross funds.

The surcharges on Nos. 19/22 were arranged in settings of 18 (6×3) applied three times to cover the top nine rows of the sheet with the tenth row completed by a further impression so that "RED CROSS" from the centre row of the setting appears on the bottom sheet margin. Specialists recognise six different settings:

Setting I – Shows comma after "2" on both R. 1/3 and 1/5, "SS" inverted on R. 1/6 and "CSOSS" for "CROSS" on R. 2/1. Used for 4c. orange and 8c.

Setting Ia – Inverted "SS" on R. 1/6 corrected. Other varieties as Setting I. Used for 3c., 4c. orange and 8c.

Setting II – "CSOSS" on R. 2/1 corrected. Comma varieties as Setting I. Used for 3c., 4c. orange and 8c.

Setting III – Both comma varieties now corrected. Used for 3c., both 4c. and 8c.

Setting IIIa – "SS" inverted on R. 2/5. Used for 3c. only

Setting IV – Thick block "2" on R. 2/2. Inverted "SS" on R. 2/5 corrected. Used for 3c. only.

Nos. 19g/j, 20e/h, 21b/c and 22d/g result from the misplacement of the surcharge.

During a temporary shortage between March and August 1921 2c., 4c. and 6c. stamps of the STRAITS SETTLEMENTS were authorised for use in Trengganu.

Printings of the 2c. yellow-orange, 3c. blue-green, 4c. purple/*yellow*, 6c. slate-grey, 8c. rose, 15c. ultramarine and $1 black and red/*blue* on ordinary paper were despatched to Malaya in late 1941, but did not arrive before the Japanese occupation. Unused examples are known of the 2, 3, 6, 8 and 15c. (*Prices*, 3c. £1400, *others* £325 *each*, *unused*).

The 12c. bright ultramarine was also printed on ordinary paper, and exists overprinted during the Japanese occupation. See No. J107b.

OVERPRINT SETTINGS FOR NOS. 48/58. The low values in Types **1** and **4** were overprinted using Setting II as detailed under Straits Settlements. The three listed constant varieties from the original typeset block of 12 occur in the same positions for these Trengganu stamps as does the No stop variety from R. 1/5 of the left pane.

A separate setting, believed to be of 30 (6×5), was required for the $5 in the larger design. This was constructed by duplicating the second horizontal row of the original typeset block five times so that the raised stop after "EXHIBITION" variety occurs on all stamps in the second vertical row and the small second "A" in "MALAYA" on all stamps in the sixth.

Japanese forces invaded Malaya on 8 December 1941 with the initial landings taking place at Kota Bharu on the east coast. Penang fell, to a force which crossed the border from Thailand, on 19 December, Kuala Lumpur on 11 January 1942 and the conquest of the Malay peninsula was completed by the capture of Singapore on 15 February.

During the Japanese Occupation various small Dutch East Indies islands near Singapore were administered as part of Malaya. Stamps of the Japanese Occupation of Malaya were issued to the post offices of Dabo Singkep, Puloe Samboe, Tanjong Balei, Tanjong Batu, Tanjong Pinang and Terempa between 1942 and 1945. The overprinted issues were also used by a number of districts in Atjeh (Northern Sumatra) whose postal services were administered from Singapore until the end of March 1943.

Malayan post offices were also opened in October 1943 to serve camps of civilians working on railway construction and maintenance in Thailand. Overprinted stamps of the Japanese Occupation of Malaya were used at these offices between October 1943 and the end of the year after which mail from the camps was carried free. Their postmarks were inscribed in Japanese Katakana characters, and, uniquely, showed the Japanese postal symbol.

JOHORE

The postal service in Johore was reconstituted in mid-April 1942 using Nos. J146/60 and subsequently other general issues. Stamps of Johore overprinted "DAI NIPPON 2602" were, however, only used for fiscal purposes. Overprinted Johore postage due stamps were not issued for use elsewhere in Malaya.

As stamps of the above series became exhausted the equivalent values from the series intended for use throughout Malaya were introduced. Stamps as Nos. J28/30, J32/3 and J35/6, but without Type **5** or **6**, are from remainders sent to Singapore or Kuala Lumpur after the state had been ceded to Thailand (*Price from* £16 *each unused*). Nos. J19, J21, J23 and J25/6 have also been seen without Type **5** (*Price from* £90 *each unused*).

The 12c. on 8c., 30c. on 4c., 40c. on 2c. and 50c. on 1c. surcharged with Type **9**, formerly listed as Nos. J37/40, are now believed to exist only as remainders without the Type **5** red handstamp (*Price from* £20 *each, unused*).

Kelantan was ceded to Thailand by the Japanese on 19 October 1943.

The overprint Type **15** has a double-lined frame, although the two lines are not always apparent, as in the illustration. Three chops were used, differing slightly in the shape of the characters, but forgeries also exist. It is distinguishable from Type **1**, used for the general issues, by its extra width, measuring approximately 14 mm against 12½ mm.

The 6, 10, 30, 40, 50c., $2 and $5 also exist with this overprint, but were not sold to the public.

Nos. J92/6 were replaced on the 3 May 1942 by the stamps overprinted with Type **1** which were intended for use throughout Malaya.

TRENGGANU

Postal services resumed in Trengganu on 5 March 1942 using unoverprinted stamps up to the 35c. value. These remained in use until September 1942.

On T **46** the overprint is normally sideways (with "top" to either right or left), but on T **48** it is always upright.

S = Sideways.
U = Upright.
SU = Sideways or upright (our prices being for the cheaper).

Specialists recognise nine slightly different chops as Type **1**. Initial supplies with the overprint in red were produced at Singapore. Later overprintings took place at Kuala Lumpur in violet, red or brown and finally, black. No. J155 was from the Kuala Lumpur printing only. Except where noted, these overprints were used widely in Malaya and, in some instances, Sumatra.

The following stamps also exist with this overprint, but were not available to the public:
Straits Settlements (in red) 6, 25c.
Kelantan (in black) 10c.
Negri Sembilan 2c. green (Blk. or Brn.), 4c. (Blk.), 6c. scarlet (Blk.), 8c. grey (Blk.), 12c. (Blk.), $2 (Blk. or Brn.).

TK1/5 *Set of 5*			£1700	£1900

Nos. TK1/5 were printed in sheets of 84 (12×7) and have sheet watermarks in the form of "STANDARD" in block capitals with curved "CROWN" above and "AGENTS" below in double-lined capitals. This watermark occurs four times in the sheet.

Sheets were imperforate at top and left so that stamps exist imperforate at top, left or at top and left.

Genuine examples have a solid star at the top centre of the arms, as shown in Type TK **1**. Examples with a hollow outline star in this position are forgeries.

Similar stamps, but with red handstamps, were for fiscal use.

Malta

Early records of the postal services under the British Occupation are fragmentary, but it is known that an Island Postmaster was appointed in 1802. A British Packet Agency was established in 1806 and it later became customary for the same individual to hold the two appointments together. The inland posts continued to be the responsibility of the local administration, but the overseas mails formed part of the British G.P.O. system.

The stamps of Great Britain were used on overseas mails from September 1857. Previously during the period of the Crimean War letters franked with Great Britain stamps from the Crimea were cancelled at Malta with a wavy line obliterator. Such postmarks are known between April 1855 and September 1856.

The British G.P.O. relinquished control of the overseas posts on 31 December 1884 when Great Britain stamps were replaced by those of Malta.

CROWN COLONY

PRINTERS. Nos. 1/156. Printed by De La Rue; typographed *except where otherwise stated.*

1

Type **1**

The first Government local post was established on 10 June 1853 and, as an experiment, mail was carried free of charge. During 1859 the Council of Government decided that a rate of ½d. per ½ ounce should be charged for this service and stamps in Type **1** were ordered for this purpose. Both the new rate and the stamps were introduced on 1 December 1860. Until 1 January 1885 the ½d stamps were intended for the local service only; mail for abroad being handled by the British Post Office on Malta, using G.B. stamps.

Specialists now recognise 29 printings in shades of yellow and one in green during the period to 1884. These printings can be linked to the changes in watermark and perforation as follows:

Ptg 1—Blued paper without wmk. P 14.
Ptgs 2 and 3—White paper without wmk. P 14.
Ptgs 4 to 9, 11, 13 to 19, 22 to 24—Crown CC wmk. P 14.
Ptg 10—Crown CC wmk. P 12½ (rough).
Ptg 12—Crown CC wmk. P 12½ (clean-cut).
Ptgs 20 and 21—Crown CC wmk. P 14×12½.
Ptgs 25 to 28, 30—Crown CA wmk. P 14.
Ptg 29—In green (No. 20).

PRICES. The prices quoted for Nos. 1/19 are for examples in very fine condition, with fresh colour. Unused examples should have original gum, used examples should have neat clear cancels. The many surviving stamps which do not meet these criteria are usually worth only a fraction of the prices quoted, with stamps of poor colour being virtually worthless.

No. 1 is printed in fugitive ink. It is known imperforate but was not issued in that state (*Price* £12000 *unused*).

The printing on No. 2 gives a very blurred and muddy impression; on Nos. 3/3*a* the impression is clear.

Specks of carmine can often be detected with a magnifying glass on Nos. 2/3*a*, and also on No. 4. Examples also exist on which parts of the design are in pure rose, due to defective mixing of the ink.

Examples of No. 4 from the 1863 printing are on thin, surfaced paper; later printings in the same shade were on unsurfaced paper.

The ink used for No. 5 is mineral and, unlike that on No. 9, does not stain the paper.

Some variations of shade on No. 6 may be described as chestnut. The ink of No. 6 is clear and never muddy, although some examples are over-inked. Deeper shades of No. 4, with which examples of No. 6 might be confused, have muddy ink.

Nos. 7/8 and 11 are distinctive shades which should not be confused with variants of No. 10.

It is believed that there are no surviving pairs of the buff-brown imperforate between variety previously listed.

The Royal Collection contains an unused horizontal pair of the yellow-buff perforated 12½×14.

Three unused examples of the ½d. green, No. 20, are known line perforated 12. These originated from proof books, the stamp not being issued for use with this perforation.

The Royal Collection includes an example of the 1d. carmine printed on the gummed side.

The design of Nos. 79/*a* differs in various details from that of Type **6**.

We have only seen one example of No. 71aa; it is in used condition.

No. 78*bs*, the 3d. purple on yellow on white back, was prepared for use in 1914, and "SPECIMEN" examples were distributed to UPU members, but the stamp was never issued.

An example of the 2s.6d. olive-grey with bottom margin attached exists with the "A" omitted from "CA" in the watermark on the margin.

For illustrations of the varieties on Nos. 86 and 88 see above No. 51*b* of Bermuda.

*The effect of this is to leave the Saracenic pattern as a pink colour.
†On the ½d. the second impression is 6½ mm lower or 3 mm to the left, and on the 2½d. 1 mm lower so that it falls partly across "MALTA" and "2½d." Stamps with almost coincidental double impression are common The ½d. and 1d. had white printing plates. Two silver plates were used on the 4d., one for "KNIGHTS OF MALTA" and the other for "MALTA". Two gold plates were used for the 8d. to 10s., one for the framework and the other for the gold in the central part of the designs.

No. 335f comes from a sheet showing a major shift of the grey-black colour, so that stamps in the top horizontal row are without the face value.

No. 337a comes from a sheet on which the silver printing was so misplaced that it missed the top horizontal row entirely.

The ½d. to 4d., 1s. and 1s.6d. to 5s. values exist with PVA gum as well as gum arabic and the 5d. and 10d. have PVA gum only.

Nos. D1/10 were each issued in sheets containing 4 panes (6×7) printed separately, the impressions in the two left-hand panes being inverted. Fourteen horizontal *tête-bêche* pairs occur from the junction of the left and right-hand panes.

No. D5a occurred on R. 4/4 of the last 2½d. pane position to be printed. Forgeries exist, but can be detected by comparison with a normal example under ultra-violet light. They are often found in pair with normal, showing forged cancellations of "VALLETTA AP 20 25" or "G.P.O. MY 7 25".

Mauritius

GREAT BRITAIN STAMPS USED IN MAURITIUS. We no longer list the Great Britain stamps with obliteration "B 53" as there is no evidence that British stamps were available from the Mauritius Post Office.

See under SEYCHELLES for stamps of Mauritius used at Victoria with "B 64" cancellations between 1861 and 1890.

A similar "B 65" cancellation was used on the island of Rodrigues, a dependency of Mauritius, from 11 December 1861 onwards.

CROWN COLONY

Nos. 1/25 and 36/44 were printed in Mauritius.

1 ("POST OFFICE") **2** ("POST PAID")

(Engraved on copper by J. O. Barnard)

1847 (21 Sept). Head of Queen on groundwork of diagonal and perpendicular lines. Imperf.

1	**1**	1d. orange-red	—	£1300000
2		2d. deep blue	—	£1500000

A single plate contained one example of each value.

It is generally agreed that fifteen examples of No. 1 have survived (including two unused) and twelve of No. 2 (including four unused). Most are now in permanent museum collections.

NOTE. Our prices for early Mauritius are for stamps in very fine condition. Exceptional copies are worth more, poorer copies considerably less.

(Engraved on copper by J. O. Barnard)

1848 (June)–**59**. Imperf.

A. Earliest impressions. Design deep, sharp and clear. Diagonal lines predominate. Thick paper (Period of use: 1d. 1853–54, 2d. 1848–49)

3	**2**	1d. orange-vermilion/*yellowish*	£70000	£18000

9		2d. deep blue	£45000	£9500

C. Intermediate impressions. White patches appear where design has worn. Paper yellowish white, grey or bluish, of poorish quality (Period of use: 1d and 2d. 1854–57)

10	**2**	1d. bright vermilion	£23000	£3000
11		1d. dull vermilion	£23000	£3000
12		1d. red	£23000	£3000
13		2d. deep blue	£30000	£4250
14		2d. blue	£24000	£3500
		a. "PENOE" for "PENCE" (R. 3/1) *from*	£42000	£8000
15		2d. light blue	£24000	£3500

D. Worn impressions. Much of design worn away but some diagonal lines distinct. Paper yellowish, grey or bluish, of poorish quality (Period of use: 1d. 1857–59, 2d. 1855–58)

16	**2**	1d. red/*yellowish or grey*	£8000	£950

22		2d. blue (*shades*)/*bluish*	£10000	£1600
		a. Doubly printed		

E. Latest impressions. Almost none of design showing except part of Queens's head and frame. Paper yellowish, grey or bluish, of poorish quality (Period of use: 1d. 1859, 2d. 1856–58)

23	**2**	1d. red	£6500	£800
24		1d. red-brown	£6500	£800
25		2d. grey-blue/*bluish*	£8000	£1200
		a. "PENOE" for "PENCE" (R. 3/1)	£15000	£2250

Earliest known use of the 2d. value is on 19 June 1848, but the 1d. value is not known used before 27 September 1853.

There were separate plates for the 1d. and 2d. values, each of 12 (3×4).

*Although originally gazetted for use from 8 April 1854, research into the archives indicates that No. 26 was not actually issued until 1858, when the stamps were mentioned in an ordinance of 30 April. The earliest dated postmark known is 27 March 1858.

PERKINS BACON "CANCELLED". For notes on these handstamps, showing "CANCELLED" between horizontal bars forming an oval, see Catalogue Introduction.

1858–62. No value expressed. Imperf.

27	**3**	(4d.) green	£450	£200
28		(6d.) vermilion	65·00	£120
29		(9d.) dull magenta (1859)	£900	£225
		a. Reissued as (1d.) value (11.62)	†	£170

Prepared for use but not issued

30	**3**	(No value), red-brown	27·00	
31		(No value), blue (H/S "CANCELLED" in oval £13000)	10·00	

Use of the dull magenta as a 1d. value can be confirmed by the presence of the "B 53" cancellation which was first introduced in 1861.

Remainders of Nos. 30/1, overprinted "L.P.E. 1890" in red, were perforated at the London Philatelic Exhibition and sold as souvenirs.

(Recess P.B.)

1859–61. Imperf.

32	**5**	6d. blue (H/S "CANCELLED" in oval £15000)	£800	55·00

		ab. "MAURITIUS" (R. 2/4)	†	£130000
		ac. "MAURITUS" (R. 3/1)	†	£130000

Nos. 36/9*a* were printed from a plate of 12 (4×3).

Research by Mr A. Rudge has established the existence of an initial state of the plate, before the lines were deepened to produce the "Early impression". Only one stamp from this state has so far been identified.

The plate became worn through use, and was eventually extensively re-engraved. Only two pairs (one on cover) have been recorded from this re-touched impression. The errors made in the re-engraving of the inscriptions probably resulted in it being withdrawn from use.

(1848 plate re-engraved by R. Sherwin)

1859 (Oct). Bluish paper. Imperf.

40	**7**	2d. deep blue	£225000	£8000

The 1d. plate was also re-engraved, but was not put into use. Reprints in black were made in 1877 from both 1d. and 2d. re-engraved plates. Coloured autotype illustrations were prepared from these reprints and 600 were included in the R.P.S.L. handbook on *British Africa* in 1900. Further reprints in black were made in 1911 after the plates had been presented to the R.P.S.L. and defaced.

44		2d. pale blue	£5500	£850
		a. Heavy retouch on neck	—	£2000
		b. Retouched below "TWO"	—	£1200

The neck retouch shows a prominent curved white line running from the base of the chignon to the nape of the neck. No. 44b shows several diagonal lines in the margin below "TWO".

"CANCELLED" OVERPRINTS. Following the change of currency in 1878 various issues with face values in sterling were overprinted "CANCELLED" in serifed type and sold as remainders. The stamps involved were Nos. 51, 56/62, 65, 67/8, 71/2, 76, 78/b, 79 and 81/2. Examples of such overprints on stamps between Nos. 51 and 72 are worth about the same as the prices quoted for used, on Nos. 78/b they are worth 5% of the unused price, on No. 79 65% and on Nos. 81/2 20%.

These stamps were surcharged using two different settings, each of which produced three horizontal rows at a time.

The length of the surcharge in the first setting (Type **28**) is either 14½ mm or 15½ mm and these exist in horizontal *se-tenant* pairs.

In Type **28** the height of the surcharge is 3.25 mm. On the second setting (Type **28a**) the type differs, especially the numerals and "S", with the surcharge measuring 15-15½ mm long and 3 mm high.

Less pronounced examples of the "Sliced 'S'" variety on the 3c. occur in other positions the slice on the 10c. at R.4/1 also varies considerably. The prices for the listed varieties being for pronounced examples, as illustrated. The illustration of the "Battered 'A'" on the 1r. value shows the variety as it appears on issues between 1942 and 1949. On early printings of No. 260a the top of the "A" is normal.

The broken frame on the 2r.50 (No. 261ab) differs slightly from that on the 20c. but the distorted frame above "AU" is the same.

The stamps perf 15×14 were printed by Bradbury, Wilkinson from De La Rue plates and issued only in the colony in 1942. De La Rue printings of the 2c. to 20c. in 1943–45 were on thin, whiter paper. 1942–45 printings of the 25c. to 10r. were on unsurfaced paper.

Montserrat

A local post office operated on Montserrat from 1702, although the first recorded postal marking does not occur until 1791. A branch of the British G.P.O. was established at Plymouth, the island capital, in 1852.

The stamps of Great Britain were used from 1858 until the overseas postal service reverted to local control on 1 April 1860.

In the interim period between 1860 and the introduction of Montserrat stamps in 1876 No. CC1 and a similar "uncrowned" handstamp were again used.
